**E. B. DUFUR**  
Attorney at Law  
MAUPIN, OREGON

**D. F. Osborn Buried**  
Funeral services for D. F. Osborn were held in The Dalles Friday afternoon from the Burget-Morgan Parlor, and interment made in the Odd Fellows' Cemetery. A brother, James Osborn of Missouri arrived in The Dalles on the same afternoon that the Tygh Valley postmaster died. He had come all the way from Missouri to visit his brother, only to find him dead.

Atty. Dufur was attending court in The Dalles last week. He was Mr. Osborn's attorney and in consultation with him when he was stricken with apoplexy, dying almost immediately.

**Eyesight Specialist Coming**

Dr. Clarke of the Clarke-Brower Optical Co., 112 1/2 Sixth St., Portland, Ore., will be in Maupin on Saturday, July 9th at Hotel Maupin on his return trip to meet those he has examined on his former trips and all others who may need attention.

This is the second of his regular trips to this city. He will continue these trips regularly each month.

W. H. Staats has called attention to the fact that he forfeited an opportunity to attend the celebration at Dufur to watch the town cows and protect local gardens.

## DESCHUTES HATCHERY AT OAK SPRINGS IS STRONGLY URGED

Propagative Measures are Urgently Needed If The Deschutes River is to Continue to be The Delight of Angler's

### HATCHERY WILL BE BENEFIT TO MAUPIN

Re-Stocking of Lower Deschutes Made Necessary By Rapidly Increasing Number of Anglers Visiting the Stream.

Thousands of anglers whip the Deschutes river annually and at the present rate the river will soon be fished out, unless some system of restocking with young trout is arranged for. W. O. Hadley, game warden, last night told the directors of The Dalles-Wasco County Chamber of Commerce assembled in regular weekly meeting.

The establishment of a fish hatchery at Oak Springs near Maupin, was advocated by Mr. Hadley as the solution of the problem of keeping a sufficient supply of trout in the Deschutes river to insure the good fishing which has heretofore been found. About eight acres of land at Oak Springs would be sufficient ground upon which to build the hatchery, he explained. Half of the desired ground is privately owned and the other half is owned by the government. If arrangements can be made for the purchase of the privately owned land, permission to use the government land can probably be secured, Hadley said.

"The state fish and game commission is going to meet in The Dalles in July and I would like to be able to tell them at that time that we have an available site for a fish hatchery," Hadley told the directors. "There is sufficient water at Oak Springs to supply a hatchery capable of hatching 500,000 young trout a year."

After the fish and game commission has met in this city the members will probably make a trip of inspection to Deschutes river, where Hadley plans to show them the proposed hatchery site.

With the completion of improvements at Sherar's falls which will permit fish to make their way up the river from its mouth, a hatchery at Oak Springs would be able to keep the entire lower Deschutes river stocked, Hadley added.

A committee consisting of J. H. Weiss, Charles L. Bonn and Dr. A. P. Ingram was appointed to work with Hadley and The Dalles Rod and gun club in securing the necessary site for the hatchery.—Chronicle.

The fact that Maupin is the most conveniently reached point

along the river between its mouth and the head of the canyon near Madras, offering adequate and modern hotel accommodation and pleasant and commodious camping grounds, this point will be greatly benefitted by the acquisition of a hatchery at Oak Springs. Maupin is rapidly growing in favor with the "Knights of the Rod and Reel" and if the Deschutes is to maintain its reputation as the angler's paradise in the Maupin vicinity, a hatchery for the restocking of the stream is an absolute necessity, and Oak Springs is an ideal and logical location.

**Base Ball at Prineville**

(By our Baseball Editor)

The large congregation of people celebrating at the base ball tournament at Prineville July 3, 4, 5, were well repaid for the trouble as they had a chance to witness probably the best exhibition of base ball playing ever staged in Central Oregon.

The first game July 3rd was between teams from Antelope and Prineville, Prineville winning in a score of 1 to 0.

July 4th, the Maupin nine went against the fast Portland Woolen Mills team, defeating them in a score of 6 to 3. The Maupin boys received quite an ovation for winning this game as the Portland team had been picked for winner, this being their first defeat for the season. They hold first place in the Semi Pro League of Portland. In the forenoon, July 5th the Antelope boys played the Portland Woolen Mills team, the Portland team winning in a score of 3 to 0.

In the afternoon of July 5 the big game for first place between Prineville and Maupin was pulled off. It could hardly be called Prineville either as the team was made up of men from most anywhere they could find an expert ball player. The score for this game was 2 to 1 favor of Prineville.

Batteries for Maupin were: 1st game, Morrow and Rennick; 2nd game, Arthur Morris and Rennick.

The tournament was well attended and a success in a way for Prineville. But we can say a much better feeling would prevail among the visiting teams if the Prineville management would take the money they spend for hiring outside players for the 4th of July games and add it to the tournament prizes. In this way the prizes would be two or three times as much and in place of Prineville taking first money they would without a doubt take last.

This 4th of July game ends the base ball schedule for this season. We can say it sure has been a successful season. The
