DR. C. J. DEAN
Second and Morrison Sts., Portland, Ore.

Bird Stops Clock.
Pendleton, Ore.—Local citizens awake during the early hours were amazed when the faithful old clock which has adorned the tower of the county courthouse since 1888 tolled out 12 o'clock. Investigation revealed that a bird had perched on one of the hands at midnight and that the clock was unable to record the hours until the interloper had departed.

The Yucca, a species of lily, grows only in arid regions.

WHEN BOY SCOUT IS HURT
Practically Every Boy Scout Has the Ability to Render First Aid When Necessary.

A DIFFERENT WAY
In commenting on the service rendered by scouts at the American Legion convention at Kansas City, Herbert Corey, a journalist, makes this interesting comparison:
"Time was when a kid was more or less of a nuisance around such a gathering as this. He was either in the hall, under everyone's feet, because he wanted to see, or being barred from the hall, he clustered in windows and looked through doors and saw anyhow. He had no more reverence for authority than an Eskimo has for the Grand Lama. He was engaged in learning something of this world he lives in, and he was learning in the time-honored way in which boys have learned—by being a terrible trial to his elders and by not being discouraged."

"The boy scout way has been a different way. All that energy and perseverance and courage that every proper kid displays as a matter of course in the current of his daily life has been turned to good account. Instead of being a nuisance, he has been made into a help. He has been taught to see the dignity and honor of service, too, so that no honorable task seems menial to him, and no obstacle is ever permitted to hold him back. If the Legion—valuing Americanism as it does and was shown by the resolutions adopted—does not take these boys into full fellowship of spirit—strike out that if. The boys are already in."

THE WEED LANDSCAPE NURSERY
Beaverton, Ore.

THERE'S ANOTHER DENT
Dents and blemishes on your car can be removed and we are the boys to do it. Why? Because we specialize in that kind of work. We also repair radiators and carry Liberty Radiator cores in stock. All work guaranteed.

USE JOBLESS TO CURB CRIME
The unemployment committee by Mayor Moore. The plan, it is said, has the indorsement of police department officials.
Under the proposed scheme each man is to patrol four sides of a city block, performing the duties of private watchmen. They are not to be uniformed and this, the mayor said, will decrease automobile thefts, burglaries and robbing of all sorts.

Philadelphia, Pa.—A plan to use 4,000 unemployed men in the city as night watchmen, their wages to be paid by contributions of fifteen cents weekly by each family in the territory they are to guard, has been suggested to

STATE NEWS IN BRIEF.

Tualatin—The Hall Lumber company, which has been shut down for more than six months, started work Thursday with a full crew.

Rainier—R. N. Lovelace of Rainier has been re-appointed a member of the Columbia county fair board, by the county court, for the term of three years.

Rainier—Deputy Internal Revenue Collector Turner will be at Rainier on February 11 to aid persons in making out their income tax statements. Mr. Turner will be at St. Helens February 10.

Florence—While running an edger in Vaughan & Bester's mill at Acme, Or., Friday; John Gregory suffered the loss of a hand. Gregory is a young man about 18 years old, and his home is at Acme.

Salem—Ten thousand dollars is the capital stock of the Fort Klamath Agricultural & Livestock company, for which articles of incorporation were filed with the corporation department here recently.

Bend—Dropping of manual training and domestic science from the high school curriculum are among the economies planned by the Bend school directors to save 19 per cent, slightly less than \$23,000, in expenses the coming year.

Salem—February 10 is the date set by the state board of control for opening of bids on the new ventilating system for the senate chamber and the house of representatives at the capitol, it was announced by members of the board.

Canyon City—The celebration of the 60th anniversary of the discovery of gold on Canyon creek, which will take place June 8, 9 and 10 at Canyon City, promises to be one of the important features of 1922 in eastern Oregon. Residents from several counties are expected to attend.

Corvallis—Benton county banks took up the entire issue of Benton county 5 per cent bonds, amounting to \$110,000. They were sold at par but as they had to be sold at par there were no takers. The bonds were authorized for the purpose of constructing the Alsea road.

Hood River—The stockholders of the Farmers' Irrigation company, ranchers of a large portion of the West Side orchard district, at the annual meeting recently unanimously authorized the directorate to float a bond issue of \$75,000 for use in making permanent improvements to the upper ditch and flume.

North Bend—The barkentine Amy Turner, loading at this port at the Bay Park Lumber company dock, will carry spruce lumber to Australia amounting to 800,000 feet. The Bay Park mill has been running on the order for several weeks. The Amy Turner should load her cargo in three weeks and get away not later than the middle of February.

Tillamook—The county court awarded a contract to Thomas & Meservey of Portland to cruise 10,000 acres of timber land in this county at the rate of 25 cents an acre. This was found necessary on account of some of the timber being burned and some destroyed by worms. The timber owners assert they are assessed too high and want a reduction in their taxes.

Salem—The sum of \$15,478.81, the largest award ever made by the state industrial accident commission, was set aside Friday morning from the Oregon workmen's compensation fund for Mrs. Gertrude E. Ward and her eight children, all of whom are under the age of 16 years. Monthly installments will total \$94, of which \$30 will go to the widow and \$3 to each of the children.

Salem—Despite the fact that there were 314 accidents reported to the state industrial accident commission for the week ending January 19, there was only one fatality, according to a report made by the commission. L. N. Siddall, a chaser employed in a logging camp, near Astoria, was the man who lost his life. Of the 314 accidents reported, 292 of the victims are subject to the provisions of the workmen's compensation act, it was stated.

Portland—Additional machinery is being installed in the new plant of the American Can company here and effort is being made to get everything in readiness for the heavy business season which will start in about 60 days. When the machinery is all in the Portland plant will have cost in the neighborhood of \$2,000,000 and will be one of the best in the country. A portion of the plant already is in operation, furnishing employment for about 300 men. When in full operation about 700 will be employed.

AFTER EVERY MEAL

WRIGLEY'S P-K

This new sugar-coated gum delights young and old.
It "melts in your mouth" and the gum in the center remains to aid digestion, brighten teeth and soothe mouth and throat.

There are the other WRIGLEY friends to choose from, too:

Books and Friends.

One cannot celebrate books sufficiently. After saying his best, still something better remains to be spoken in their praise. As with friends, one finds new beauties at every interview, and would stay long in the presence of those choice companions. As with friends, he may dispense with a wide acquaintance. Few and choice. The richest minds need not large libraries. That is a good book which is opened with expectation and closed with profit.—A. Bronson Alcott.

Cuticura Soothes Itching Scalp

On retiring gently rub spots of dandruff and itching with Cuticura Ointment. Next morning shampoo with Cuticura Soap and hot water. Make them your every-day toilet preparations and have a clear skin and soft, white hands.—Adv.

Wanted to Know Papa's Status.

Little Freddy at the breakfast table, after having tucked away one piece of cake, turned to his father and said, "May I take another piece of cake, papa?" Father, with years of training to his credit, answered, "You'll have to ask mamma about that, Freddie." Whereupon sonny piped up, "Haven't you anything to say at all, papa?"

Borneo Natives Fond of Beads.

The natives of Borneo are the great bead lovers of the world. In many instances there are collections of beads which have been in one family for centuries, and which cannot be bought, they are so cherished by the owners. An examination of these collections often reveals some precious gems, which have been cut by the native artisans in bead shape.

Where the Cypress Grows.

The cypress tree grows in swampy districts in the southeastern section of the United States. About forty per cent of the present available supply is in Louisiana and about twenty-five per cent in Florida. The remainder is scattered through the states that border the Atlantic, the Gulf of Mexico and the lower course of the Mississippi.

Dam Not Built By Experts.

The failure of the dam which caused the famous Johnstown flood, May 31, 1889, was due to defects of construction, explained by the fact that no engineer was employed in designing or building the dam.

Sea's Depth Always Cold.

It is always cold at the bottom of the sea, even under the equator. At great depths the temperature is near the freezing point.

Red Cross BALL BLUE
Is needed in every department of house-keeping. Equally good for towels, table linen, sheets and pillow cases. Grocers

Comfort Baby's Skin
With Cuticura Soap
And Fragrant Talcum
For example Cuticura Ointment, a fascinating Fragrance, Addressed Cuticura Laboratories, Dept. 3, Macleay House

Pleasant Walks and Talks.

These nice Sunday walks, when two friends get to know one another so intimately; these Sunday-evening talks, when you gather by twos and threes in the firelight, and talk so freely; oh, what a power they are for good, if used aright; what a power for harm, if wasted or misused! No one wants you to force the conversation into an edifying channel; but one knows how to talk bifurcates, as it were, and how often there is a choice between high and low, wise and foolish, kindly and unkindly.—Elizabeth Wordsworth.

New Theory.

A lady tells us that it isn't exactly curiosity that leads a woman to look at the last chapter of a novel first; by reading back until it becomes interesting she gets up courage enough to begin it.

Saki Next to Oldest Liquor.

With the exception of grape juice, it is said that the most ancient alcoholic beverage is known as saki, the Japanese drink made from rice.

Wanted to Know.

Willie—Say, ma, do the jellyfish get their jelly from the ocean currents?—Boston Transcript.

Honey Bees.

The working bee lives six months, the drone four months and the female bee four years.

The sea bug holobates is the only insect living on the surface of the ocean, and what it eats is unknown.

MURINE'S Rests, Refreshes, Soothes, Heals—Keep your Eyes Strong and Healthy. If they're Smart, Itch, or Burn, if Sore, Irritated, Inflamed or Granulated, use Murine often. Safe for Infant or Adult. At all Druggists. Write for Free Eye Book. Murine Eye Remedy Company, Chicago, U. S. A.

Are You Satisfied? BEHNKE-WALKER BUSINESS COLLEGE is the biggest, most perfectly equipped Business Training School in the Northwest. Fit yourself for a higher position with more money. Permanent positions assured our graduates. Write for catalog—Fourth and Yamhill, Portland.
