**A HARDING TROOP.**  
 Troop number 12 of Kewanee, Ill., has been reorganized and is now known as the Harding troop. On organizing, the scout scribe wrote to President Harding asking for an autographed photograph if he cared to send one to the troop that was named after him. The President "came across" and the troop is now the proud possessor of a large photograph which bears the inscription "With Salutations to Harding Troop, Boy Scouts, Warren G. Harding."

**DRAFT CAUSE OF PNEUMONIA**  
 Just as Essential to Have Hog Houses Well Ventilated as to Avoid Closing Tight.  
 Drafty hog houses are frequently the cause of pneumonia but it is just as essential to keep hog houses well ventilated as it is to avoid closing the house up tight. If the hogs are shut up in a warm building where they become too warm and then subjected to cold drafts, they are very likely to contract pneumonia.

**Silage-Fed Cattle.**  
 Silage-fed cattle do not finish quite as well as those strictly dry-fed. Adding corn to the silage produces a better finished animal, that usually brings a better price, and it also results in better gains on hogs that follow the cattle.

**Ox Warble Loss Big.**  
 The ox warble causes a loss of \$50,000,000 in this country, due to spoilage of hides, lessened flow of milk and slow gains in beef cattle. It is always time to swat the ox warble.

**Practice of Flushing Ewes.**  
 The practice of "flushing" ewes or feeding them a liberal grain ration just before breeding has been found to be profitable by owners of farm flocks.

**Sheep Need Much Salt.**  
 Pregnant ewes require a considerable amount of salt, and while suckling their lambs they will need still more.

**Much Scrub Cattle.**  
 Of American cattle, 97 per cent are scrubs.

**Successful Poultry Raising.**  
 One of the secrets of successful farm poultry raising is keeping new blood in the stock. Inbreeding, unless thoroughly understood, is most dangerous. This is an excellent month to buy young cockerels for the spring flock.

**Great Waste of Fertility.**  
 Remember that the barn lot is one of the greatest wasters of fertility of anything on the farm. Keep the stock out of it as much as possible.
