Secure money through your bankers from the War Finance Corporation.

The War Finance relief should be taken advantage of by farmers.

The banker can take the farmers notes for one year with the privilege of renewing the note for two more years, thus giving the farmer three years to pay, and this note can be turned over to the War Finance Corporation and in this way the bank can get its money back.

The bank can then use this money to repay its loans or to loan the money out again to other customers.

There is no reason why local banks through out the entire country should not take advantage of this financial relief which would be a great help to the farmer and it would likewise be a big relief to the country banks in thus helping them to "thaw out" their frozen credits.

The War Finance Corporation recognize farmers notes given on payment for agriculture implements and falling within the re-loan and re-discount privilege.

Uncle Sam carries the loan, instead of the local banks, until agriculture matters take a turn upward.

"Talk to your Banker"

It doesn't look very much like we were going to have a "Plowing Season" Never the less we are ready to supply your Plow needs.

The Oliver Plow has long been recognized as the "one best" and we are trying to give you the best service possible on extra and parts.

If you are in the market for a tractor. We are now offering a very attractive proposition on a Case, come in and let us explain it to you. A talk to Case owners will convince you that they are "satisfied customers." The terms are very easy.

"I reckon," said Farmer Cornstassel, "as how mebbe barbed wire ought to be counted as one of most useful inventions of the age."

"For what reason?"

"When there's a lot of work to be done barbed wire makes it impossible for a feller to sit on the fence and look on."

If you are in the market for barb wire, hog wire, or poultry wire, we believe we are in a position to quote you a lower price than you can get elsewhere.

Ladies—Please Read.

Men—Please Don't.

"Jim," she said, as he settled down for a comfortable smoke. "I've got a lot of things I want to talk to you about."

"Good," said her husband. "I'm glad to hear it. Usually you want to talk to me about a lot of things you haven't got."

The above joke called to my attention the fact that when my farmer customers are gathered around "Fraleys big stove" the topic of conversation usually turns to the different modern conveniences that lighten his work in the field, etc. but rarely to modern conveniences that go to lighten the work of the women folks in the home. There surely is some little convenience you would like and if you will put it up to "him" that purchases of conveniences ought to be 50-50 I believe he will listen to you. It may only be some little change in your home arrangement that would require only a little work or it may be something that "Wilson" has to sell or something he can get for you. I assure you in advance he will be glad to help you decide what it shall be.
