## The Oliver Chilled Plow Works Service

A most valuable feature to be seriously considered in buying farm implements is service.

The large Oliver organization is capable of rendering this effectively by giving important agricultural information and mechanical assistance, also by maintaining complete stocks of implements and repairs at Oliver branches and transfers located at convenient points throughout the country.

An unequalled reputation gained by sixty five years of faithful service building for the world till age tools that have an undisputed record of satisfactory performance in soil preparation.

The name Oliver on a farm implement denotes dependability that insures 100 per cent results.

## Oliver No. 19-B Gang

The No. 19-B gang is built especially to meet the unusually difficult plowing conditions of the Northwest, being designed for the work of plowing high stubble such as is left by combined headers, and threshers and header binders. These and other plowing conditions that demand an exceedingly strong plow with high beams and wide rake are satisfactorily met with the Oliver No. 19-B gang.

### Adjustable Cut

Three different widths of cut 12in., 14in. and 16in. per bottom may be secured by adjustments in the frame. This adjustable cut feature permits the farmer to reduce the size of his plow and use his available horse equipment when the soil is hard.

When the soil is mellow condition the plow can be widened, allowing the same horse equipment to plow a larger acreage. It is not necessary for the owner of a No. 19-B gang to maintain extra teams that are used only when the plowing conditions are difficult.

### Long Powerful Levers

The lifting and leveling levers are exceptionally long and powerful. Strong coil springs assist in the operation of levers. The leveling lever has an unusually wide range of adjustment, making the plow particularly adapted to steep hillside work.

### Foot Lath Locks Rear Wheel

The rear furrow wheel axle is locked into correct position when plowing. When the end of the furrow is reached, the operator releases a conveniently placed latch lever. This unlocks the rear wheel axle so the wheel can freely caster in either direction while turning. This allows the rear bottoms to retain their full width to the turn making evenly plowing corners. When the wheel resumes its plowing position the axle is gain automatically locked.

The seat is placed so the drivers weight is evenly distributed over the bases.

The No. 19-B gang can be used either as a walking or riding gang.

## SENATOR CHARLES HALL

I submit my candidacy to the Republicans of Oregon for the nomination for Governor. Following are some of the principles for which I stand:

1. I have made no pre-election promises and I will make none, except those herein stated.
2. Taxes on general property must be reduced. I favor substituting not to exceed ten departments for the seventy or more existing State Commissions. (Illinois System.)
3. Not only reduction of taxes, but improved marketing facilities and increased credit are essential to insure the prosperity of the farmer.
4. A more equitable adjustment of the automobile license tax with due regard to the actual value of the car. Gasoline tax for highways only.
5. As to my attitude on the labor question, I refer to my employes, and my legislative record.
6. Completion of the State Highway System with special attention to market roads.
7. The public school is one of the fundamental factors in our system of Government. I favor compulsory attendance in the primary grades. Teach pure Americanism to all pupils, beginning at an early age. Continue to strengthen and build up this typical American institution.
8. Strict enforcement of all laws.
9. I am against Japanese land ownership or control.

Senator Charles Hall of Marshfield, who has long been mentioned as one of the strongest prospective candidates for Governor, has announced definitely that he will enter the gubernatorial race. This announcement has been expected by his friends for some time, as strong pressure has been brought to bear upon the Cooe and Curry Senator since his name was first mentioned as a prospective candidate.

He was born on a farm in Jefferson County, Pennsylvania, and came to Oregon in 1901. Shortly thereafter he began his business career as a clerk in a drug store at Clatskanie, Oregon. Eventually he acquired ownership of the drug store, sold it and bought a drug store in Hood River, where he lived until 1914. In Hood River his ability for organization asserted itself. During the eight years he spent in that town, he was one of the builders of the telephone system there, the Oregon-Washington Telephone Company, and built the Central Building, Oregon Hotel and the Hall Building, and owned and planted a number of orchards in the Hood River Valley. He also served as Director and President of the Hood River Commercial Club.

His activities were transferred to Coos Bay in 1914 and immediately thereafter a number of new organizations in that district came into being. He organized the Cooe and Curry Telephone Company of which he is President today; organized the Bank of Southwestern Oregon in 1917 and was President of that institution until 1921.

Outside of his business activities in Marshfield, he soon became one of the prominent citizens of that district. He was one of the original promoters of the State Highway program. He was elected Senator from the Eighth Senatorial District comprising Coos and Curry counties in 1920.

Senator Hall soon became one of the leaders in state-wide politics as a fearless exponent of the highway program. As a Legislator he played a prominent part in all important legislation during both sessions in 1921. He risked censure from the exponents of the 1925 Exposition Bill when he refused to listen to any proposed inroads into the road funds for the purpose of financing the Fair. Hall's undeviating course in this latter action brought forth the highest praise from all parts of the State.

Since his debut into state-wide politics, the leadership in various non-political movements has gravitated naturally to him. He is a member of the Oregon Land Settlement Commission and served for three years as President of the Oregon State Chamber of Commerce and fellow a director of that organization.

Friends of Senator Hall proclaim him as a natural leader, and point with pride to his record of achievements in public and private life. Others concede that his judgment is sound and admit that no outside pressure or logrolling can swerve him from any program or movement to which he has dedicated himself.

Mr. Hall was married in 1906 in Portland to Ann English. They have three children, two boys thirteen and seven, one girl nine.

### Ethel Long Newman Writes of Life in Armenia, Where She Manages Great Orphanage.

Some vivid pictures of life in Russian Armenia, where gaunt famine stalks in the wake of devastating war, are given by Mrs. Samuel Newman, formerly Miss Ethel Long, graduate of Oregon Agricultural College, class of 1920, in letters to friends in Oregon.

Mrs. Newman and her husband, the latter a graduate of the Idaho Agricultural College, were married in Portland last spring, and soon after left for Armenia to join the staff of Near East Relief workers in charge of two large orphanages near Alexandropol, where an extensive agricultural reconstruction project is being inaugurated by the Near East Relief organization. The Soviet government, unable to cope with the appalling conditions following the warfare waged in that region almost continuously since 1914, last year turned over to the Near East Relief three mammoth military posts which had been converted into orphanages, together with 118,000 acres of land to be put under cultivation.

"It is a staggering task the Near East Relief has undertaken," writes Mrs. Newman, "but we are working hard and making progress in the face of overwhelming odds. Some 20,000
