CLOTHES FATAL TO POLYNESIANS
More Fatal to Natives of Pacific Islands Than Rum or Opium, Says Captain Salisbury.

New York.—Too many clothes is the greatest trouble with the dying Polynesians of the Pacific Islands, according to Capt. Edward Salisbury, who has spent much time among them. Captain Salisbury paused in the task

STATE NEWS IN BRIEF.

Salem.—Samuel A. Elliott, member of the national Indian council, with headquarters at Washington, after visiting the Chemawa Indian school, Saturday announced that he would recommend enlargement of the institution to accommodate 1000 pupils. Its present capacity is 700.

Salem.—Next Saturday the Marion county court will receive bids for the crushing and hauling of approximately 6000 yards of broken stone to be used in the Mount Angel district. Another contract will be awarded for hauling 7000 yards of gravel for the improvement of the roads in the Stayton district.

Hood River.—The case of J. W. Morton, who with his children has sued the state highway commission for an aggregate of \$14,000, claimed as damages to real estate and a water system of their Riverside ranch by construction of the Ruthon hill grade of the Columbia River highway, has been set for April 3.

Clatskanie.—Farmers of the Delta Gardens, a tract comprising thousands of acres of diked Columbia river marshes adjoining Clatskanie, will give spinach-growing a thorough test this year. J. N. Miller, one of the best known farmers of the district, has contracted to raise 25 acres for a cannery at Rainier.

Tillamook.—An issue of \$50,000 bonds was authorized by a vote of 169 to 62 at a special election Saturday. The issue was necessitated by the fact that the city finances for several years have been insufficient to pay expenses. Warrants totalling approximately \$25,000 are outstanding with no money in sight to pay them off.

Hood River.—Frank A. McDonald, superintendent of the East Fork irrigation district, who now has a crew of 25 men engaged in cleaning out the ditch of the big system, anticipates that water will be running by April 1. A crew of flume carpenters will follow the clean-up crews next week, making repairs to damage resulting from the winter sleet storm.

Halfway.—One shot dead and others in the "hospital" is the result of feeding two bucketsful of moonshine mash to a pen of hogs belonging to Henry Leep on Saturday night. The mash was taken in a raid and kept for evidence, but as the barrel of it was too heavy to handle one of the raiders started to throw out part of it. Another proposed to feed it to the hogs and the hogs liked it.

Brownsville.—A brick which was made in the early eighties near Brownsville and then served its day in a pioneer fireplace chimney, is now in the hands of Bob White of this city. Mr. White was working in the brick kiln when this particular brick was made, and when it was still soft he inscribed his name on it. Recently when John Gross tore down the old Kiley Kirk house this brick bearing the name of Mr. White was discovered and returned to him.

Salem.—Deschutes county, according to a report prepared here Thursday, will be the center of irrigation activities in Oregon during the year 1922. Six irrigation districts, two Carey act projects and one private project, all desiring to obtain water from the Deschutes river, are showing marked activity. Some of these desire allotments of water, others ask authority to sell bonds and others to engage in actual construction work. The total area involved is approximately 230,000 acres, of which 70,000 acres are now irrigated.

Portland.—Committees representing the breeders of Idaho, Washington and Oregon recently decided to hold a northwest Guernsey breeders' sale at the Pacific International stock show building in North Portland June 5. Animals to be consigned to this sale will be from some of the best herds in the west and possibly from some of the middle western herds, as some of Wisconsin's best breeders have asked permission to consign some high-class animals. Buyers have declared their intention of attending this sale from as far east as Montana and from southern California and Arizona.

Salem.—Aggregate receipts of the state treasurer's office for the year 1921 were \$34,378,560.62, and disbursements \$35,580,464.98, as against receipts in the year 1918 of \$10,503,177.61 and disbursements of \$10,037,822.65, according to the annual report prepared here Friday by O. P. Hoff, state treasurer, covering the transactions of his department for the 12 months ended December 31, 1921. During the same period, the report said, the number of funds created by law increased from 132 to 231, and the state's bonded indebtedness increased \$29,405,125. Interest on this indebtedness increased \$717,704.48.

Mrs. Wilson Nichols

If You're a Young Woman or Even in Middle Life

Here is Some Good Advice for You From a Prominent Woman.
Seattle, Wash.—"I can say that Dr. Pierce's Favorite Prescription has done me more good than any other medicine. It is the all-round medicine for women for their trials and troubles at most any age. It is a wonderful medicine for the many weaknesses peculiar to women. I am taking it at the present time; it relieves me of gas on the stomach, palpitation of the heart, cramps in the feet and limbs, heat flashes, nervousness, and other symptoms common to women in middle life. I haven't found anything that gives such relief. It gives me pep and makes me feel full of life like I used to be."—Mrs. Wilson Nichols, 1823 3d Ave., West.
Women who suffer from headache, backache, flashes of heat, dizziness, fainting spells, nervousness or exhaustion, should go at once to their neighborhood druggist and get a bottle of Favorite Prescription, in tablets or liquid. Or write Dr. Pierce's Invalids' Hotel in Buffalo, N. Y., for free medical advice.

BIG MAIL FOR YOU FREE

Would you like to receive many good propositions, interesting offers, papers, circulars, catalogs and advertising literature? Write your name and address on a postcard, mail it today and we will have business firms all over the country send you big packages of mail matter free. Address J. E. SMITH, 26 Staples St., Bridgeport, Connecticut.

Weather Affected by Sun Spots.

A Dutch meteorologist has studied the winter temperatures in western Europe from 760 to 1916 A. D. He has found that greater activity of sun spots is accompanied by winter setting in harder and earlier than usual, while less activity of the spots corresponds to late, mild winters.

Some Good in Forest Fires.

Fire-weed, which invariably springs up after forest fires in the Northwest and covers large areas, is a source of large amounts of honey that can profitably be gathered by bees.

Anachronism in "Ben-Hur."

One of the star names given to Arabian horses in "Ben Hur" is Mira. This name was introduced into astronomy about sixteen centuries after the period of the story.

Better Than Using Sand.

They have found that sugar can be made from sea weed. We are suspicious that they have found it can be made from a lot of things besides sugar cane. When the family sugar has to be sweetened before using, its virtue may be suspected.—Los Angeles Times.

Blood to Spare.

Persons with high blood pressure, if otherwise perfectly healthy, are excellent donors of blood when this is needed for transfusion. And the resultant loss of blood may save the life of a man or woman of 60 by preventing apoplexy.

The Cuticura Toilet Trio

Having cleared your skin keep it clear by making Cuticura your every-day toilet preparations. The soap to cleanse and purify, the Ointment to soothe and heal, the Talcum to powder and perfume. No toilet table is complete without them. 25c everywhere.—Adv.

Co-operation Necessity of Today.

Some one once said: "Half the people know not how the other half lives." This is truer today than ever. There is need of knowledge that will give co-operation. People cannot longer live unto themselves alone if the country prosper as it should.

Odd Scents of Wood.

The scent of the West Indian satinwood suggests coconut oil, says the American Forestry Magazine, while the paper-bark tree of Australia is said to smell like Brazil nuts while being worked.

Gregorian Calendar Made Trouble.

The adoption of the Gregorian calendar in England in 1752 led to violent riots, especially at Bristol, where several people were killed.

Adventures of the Soul.

The good critic is he who relates the adventures of his soul among masterpieces.—Anatole France.

RAINCOAT
Agents three to five dollars an hour full or spare time. Commission in advance. Our beautiful line of guaranteed rainproof topcoats, going great. Outfit and sample coat free. P. & O. Raincoat Co., 1215 N. Robey Street, Chicago, Illinois.

PRACTICE REQUIRED IN HANDLING TOOLS

Gardener Knows How to Manipulate Spade or Fork.

Soil is Carefully Cut in Thin Slices and Clods Broken Up as Work Goes On—English and French Are Ahead of Us.

(Prepared by the United States Department of Agriculture.)

There is an art in handling a spade or spading fork and it is only the gardener who knows this art who gets his garden soil in the best possible condition. A great many gardeners have an idea that the only thing necessary is to work the surface up into huge chunks and then pound these into pieces with the back of a hoe, but, says the United States Department of Agriculture, the gardener who really knows how, spades his soil very carefully, cutting it in thin slices to

Simple Tools Essential in the Cultivation of Bumper Crops.

the full depth of the spade, then breaking up each spadeful as he goes, using the edge of the spade or spading fork for breaking the clods.

No matter how much work is done on the surface a poor job of spading can never be remedied and, while the surface may be loose and mellow the underlying soil will be rough and cloddy so that vegetables planted upon it will not do well. A good plowman turns over the furrows evenly and of uniform depth. The same principle holds in spading, and the spadeful should be of uniform thickness and depth and every one be turned evenly.

The gardeners of England and France are far ahead of our American gardeners in the matter of soil preparation, and we could well learn a lesson from them. In preparing their land for planting they fork it over very carefully and mix with the soil considerable quantities of manure. This mixing, however, is so well done that the manure disappears in the soil and becomes an intimate part of it. There are no slippish methods in the work of these English and French gardeners and they are enabled to grow more on an acre than some American gardeners grow on five acres. A little land well prepared, the Department of Agriculture believes, is better than a large area improperly fitted. Get the habit of doing things well, it pays in the long run.

GET EARLY CABBAGE PLANTS

They Can Be Grown Indoors or Shipped in From Points in Warm Climates.

Early cabbage plants for setting in the garden can be procured in two ways, suggests the United States Department of Agriculture. They can either be locally grown indoors by some plant grower or they can be shipped in from a southern point where the climatic conditions are such that the plants can be grown in the open ground. Plants grown out-of-doors are often advertised as "frost-proof" plants. While this term is rather misleading, the plants are really very hardy and will withstand considerable cold. The great difficulty with cabbage grown in greenhouses, hotbeds or in the home is that they are soft and easily injured either by wind or cold when set in the garden. This difficulty, however, can be to a considerable degree overcome by properly hardening the plant to outside conditions before setting them in the garden.

PLANT EARLY IRISH POTATOES

Put Them in Ground Just Before Time for Last Spring Frost to Get Good Start.

Early Irish potatoes may be planted a little before or about the time the last spring frosts occur. This will give them an opportunity to make a start and reach the surface of the ground by warm weather. Irish potatoes require frequent cultivation and should be gradually hilled up to form a bed. Large quantities of manure should not be used. Great care should be taken to avoid seed affected by scab, as this disease develops rapidly and greatly injures the quality.—United States Department of Agriculture.

MOTHERS AND DAUGHTERS

Read This Letter from Mrs. W. S. Hughes

Greenville, Del.—"I was under the impression that my eldest daughter had some internal trouble as ever since the first time her sickness appeared she had to go to bed and even had to quit school once for a week. I always take Lydia E. Pinkham's Vegetable Compound myself so I gave it to her and she has received great benefit from it. You can use this letter for a testimonial if you wish, as I cannot say too much about what your medicine has done for me and for my daughter."—Mrs. Wm. S. Hughes, Greenville, Delaware.

Mothers and oftentimes grandmothers have taken and have learned the value of Lydia E. Pinkham's Vegetable Compound. So they recommend the medicine to others.

The best test of any medicine is what it has done for others. For nearly fifty years we have published letters from mothers, daughters, and women, young and old, recommending the Vegetable Compound. They know what it did for them and are glad to tell others. In your own neighborhood are women who know of its great value.

Mothers—daughters, why not try it?

Traffic Cop Amazes Amir.

Of all the sights he saw on his recent visit to London the amir of Katina declared the crossing policeman to be the most wonderful. To be able to stop all the traffic of a street with the lifting of one hand amazed him, and he thinks, he told an inquirer, that the policeman must have four eyes.

The Damage.

"No, sah," replied Brother Buckatoo. "It didn't fraction no portion of muh 'natomy when dat automobile done run over me straight across. And den diagonal, but I'm bruised and bungled twell I'm all de colors o' de rainbow."—Kansas City Star.

Lines to Be Remembered.

The origin of all mankind was the same; it is only a clear and good conscience that makes a man noble for that is derived from heaven itself.—Seneca.

An Unnecessary Addition.

One old-fashioned citizen likes to remark that it is not necessary for dead men to tell tales—the live ones are better a good average.—Hot Springs New Era.

Vitamines in Vegetables.

Green vegetables and certain fats are the chief containers of vitamins in our ordinary diet. They are also very prevalent in lime juice. That is why lime juice is always issued to sailors on board ship.

Objection to Smoke is Old.

In the seventeenth century, during England's first smoke agitation, it was recommended that all factories be moved from the city to a distance of eight miles to remove the nuisance.

Realistic.

Overheard while coming out of the movies—"That was a wonderfully realistic rainstorm. Why, the scene hadn't been running ten seconds before my corns began to ache."—Boston Transcript.

Porcelain in Europe.

It was not until 1708 that a German chemist, Boettger, working for the elector of Saxony, discovered the true ingredients of porcelain, and in 1710 the Royal Saxon Porcelain manufactory at Meissen was founded.

Point for Picnickers.

The sting of a bee, according to a scientific journal, is only one-thirtieth of an inch long. Your imagination does the rest.—Boston Transcript.

Sun Affects Only White Races.

Only the white races tan or blister from the action of the sun.

Clear Baby's Skin With Cuticura Soap and Talcum
Bead, Ointment, Talcum, 25c everywhere. For sale by all druggists. Cuticura Laboratories, Dept. 2, Malden, Mass.

Red Cross BALL BLUE
is needed in every department of house-keeping. Equally good for towels, table linen, sheets and pillow cases. Greases
