Call or write for booklet. Mention this paper when writing.
DR. C. J. DEAN
 Second and Morrison Sts., Portland, Ore.

CHILD HOSPITAL IN CAUCASUS

Planned to be Biggest in World, With 6,000 Beds to Be Ready Next May.
 Constantinople.—A children's hospital, planned to be the largest in the world, has just been opened at Alexandropolis in the southern Caucasus. It is under the direction of Dr. R. T. Uhlis, of Fitchburg, Mass., and has been financed entirely with funds sent from America by the Near East relief. The hospital has 2,700 beds, housed in 40 wards, but when fully completed next May will hold 6,000 beds. The child patients are drawn from six Russian, Armenian and Greek provinces occupying an area larger than New England, and are all suffering from trachoma, a malignant eye disease, which has become the scourge of child-life in this part of the world.

DOES LAUNDRY WORK AND HOUSEWORK TOO

Surprised to Find Her-self Feeling So Well

Taunton, Mass.—"I used to have pains in my back and legs so badly, with other troubles that women sometimes have, that my doctor ordered me to stay in bed a week in every month. It didn't do me much good, so one day after talking with a friend who took Lydia E. Pinkham's Vegetable Compound for about the same troubles I had, I thought I would try it also. I find that I can work in the laundry all through the time and do my housework, too. Last month I was so surprised at myself to be up and around and feeling so good while before I used to feel completely lifeless. I have told some of the girls who work with me and have such troubles to try Lydia E. Pinkham's Vegetable Compound, and I tell them how it has helped me. You can use my testimonial for the good of others."—Mrs. BLANCHE SILVIA, 59 Grant St., Taunton, Mass.

It's the same story—one friend telling another of the value of Lydia E. Pinkham's Vegetable Compound.

Hint to Precautious.

Take a piece of heavy copper wire 11 inches long and bend it in the shape of a hairpin. Lock the door, leaving the curved angle of the wire over the shank or spindle back of the knob and put the two ends of the wire through the head of the key. The key cannot be pushed out nor turned. This is a light device which one can carry in a handbag if so desired and use in hotel rooms when traveling.

Celebrating Derby Night.

On Derby night the waiters in one of the fashionable restaurants in London are dressed as jockeys and the head waiter as a bookmaker.

What Kind of Pipes?

The Literary Digest prints an article on "No Smoking in Shakespeare." What about the "piping times of peace?"—San Francisco Bulletin.

Jaw Pressure 534 Pounds.

Those who study these matters say that the average human jaw can exert a force of 534 pounds.

Woman's Tears.

A woman's tears are the greatest water power known to man.—Atchison (Kan.) Mail.

Women Careful With Letters.

Women, as a rule, are more careful in addressing their letters than are the men, according to a veteran attaché of the dead letter office in Washington.

Seems So.

One reason why it would be a waste of money to maintain a chorus girls' home is that no chorus girl ever gets old enough to retire.

Surely Would.

The optimist says to remember that even if your mother-in-law has the gift of tongue, it would be a lot worse if she was a mind reader.

Mrs. Esther Wolfe

When You Have a Cough or Lose Weight and Appetite Take This Advice

Fresno, Calif.—"After an attack of scarlet fever I was in a weak, anaemic condition. My appetite was poor and I had no interest in anything. My friends did not expect me to live as with the weakness I had a bad cough. I had heard my parents speak of Dr. Pierce's medicines, so I got a bottle of the 'Golden Medical Discovery' and began to take it. Before I had used all of the first bottle I knew it was doing me good, for I felt a desire for food, my cough ceased and I began to have color and to take an interest in life. I continued to take the Golden Medical Discovery until I felt strong and well. Today I am enjoying the best of health."—Mrs. Esther Wolfe, 2311 Tyler Ave.
 As soon as you commence to take this "Discovery" you begin to feel its bracing, appetizing effect. Buy it of your druggist, in tablets or liquid. Write Dr. Pierce, President Invalids' Hotel in Buffalo, N. Y., you desire free medical advice.

STATE NEWS IN BRIEF.

Redmond.—The Farmers' Warehouse & Milling company stockholders have virtually decided to rebuild the warehouse destroyed by fire Christmas eve.

Seaside.—A movement is on foot among the residents of Seaside and Gearhart to build a bridge across the mouth of the Necanicum river connecting the two cities.

Salem.—C. Stanfield, employed for the past few months on a ranch five miles east of Salem, was killed Saturday while repairing a woodsaw. There were no eyewitnesses to the tragedy.

Astoria.—With the hills on both sides of the river covered with snow to a depth of from six inches to a foot, many of the logging camps have been compelled to suspend operations temporarily.

Salem.—When the time for filing declarations of candidacy for the primary elections to be held May 19, expired Friday night, seven republicans and four democrats had entered the gubernatorial contests.

Monmouth.—The Willamette Valley Flax and Hemp Growers' Co-operative association has purchased three acres on the west side highway at Rick-reall, six miles north of this city, and will erect a modern plant.

Bandon.—The machinery of the Bandon Woolen Mills plant formerly operated here has been sold to the Brownsville Woolen Mills of Brownsville, Or., and is now being packed for shipment under the direction of J. Cordingley, master mechanic.

Redmond.—The \$25,000 bond issue of the Squaw creek irrigation district was bought Monday by Guy E. Dobson for the First National bank of Redmond. The price paid was 90, the highest mark reached here by irrigation bonds in several years.

Eugene.—Bad weather during the last week has been responsible for idleness in the county bridge and road-building departments. It has been impossible to work the roads or to start on new projects and the bridge crews have been unable to haul the materials from the sawmills.

Bend.—County Commissioner Knickerbocker Saturday afternoon wired the state highway commission to accept the bid of \$65,000 for the completion of 25 miles of road on the Redmond-Sisters and Sisters-Tumalo highways. Of this amount Deschutes county will have \$12,500 to pay.

Nyssa.—Large acreages will be planted to potatoes and other crops in this vicinity. A crop survey made by the Nyssa Commercial club shows plantings as follows: To potatoes, 893 acres; to lettuce, 96 acres; onions, 62 1/2 acres; other vegetables, 23 acres; grain, 2467 acres; red clover, 347; alfalfa, 2195.

Eugene.—The law prohibiting the practice of allowing camp fires to remain burning in the forests will be strictly enforced this year, according to N. F. McDuff, supervisor of the Cascade national forest. Mr. McDuff said that two dozen or more fires in the Cascade forest were started from camp fires last year.

Stayton.—The outlook for having a cannery ready to operate here by the time the canning season opens is very good. R. D. Hope of Medford, who has been manager of the cannery there for several years will be the factory manager here. The cost of the plant and the matter of financing its erection, etc., are under discussion.

Salem.—The world war veterans' state aid commission, at a meeting held here Saturday, approved 386 applications for cash bonus. These applications aggregated \$96,500 and averaged \$250 each. The commission also passed upon 83 applications for loans. These aggregated \$207,500. The loan applications approved averaged \$2500 each.

Monmouth.—Lad's Iota, owned by S. J. McKee of Independence, which won the best record for a Jersey cow kept by the American Jersey Cattle club, produced 1047.94 pounds of butterfat for the year which closed April 7. Confirmation of the record was telegraphed this week to Mr. McKee. This exceeded by 7.88 pounds the previous world's record, held by Plain Mary, a Maine cow that had produced 1040.8 pounds of butterfat.

Salem.—Initiation of a land settlement plan in many ways similar to that now in effect in California probably will be attempted in Oregon within the next few years, according to Percy A. Cupper, state engineer, who returned here Saturday from Corvallis, where he held a conference with Elwood Mead, professor of rural institutions at the University of California and one of the foremost colonization promoters in the United States.

THIS IS YOUR OPPORTUNITY

If you have been waiting and hoping for the day when you could get better tires for less money, now is your time.

Goodyear Tires are at their best. They are bigger, heavier, and more durable than ever. Their quality is at its highest level.

And these better Goodyear Tires today sell for less money than at any previous time in our history.

The prices listed below established a new low level for Goodyears, averaging more than 60 per cent less than the prices of Goodyear Tires in 1910.

These would be low prices for any good tires. They are almost unbelievably low for Goodyears.

You have never had such an opportunity before to buy fine and lasting tire performance at such low cost. Call on your Goodyear Service Station Dealer, and take advantage of this opportunity today.

SEX OF EGGS AND CHICKENS

Department of Agriculture Says There is No Dependable Method to Determine Sex.
 (Prepared by the United States Department of Agriculture.)

Raisers of poultry have long wished for a reliable means for determining the sex of chicks and of eggs to be used for hatching, but, in spite of the promise of various manufacturers of devices, the United States Department of Agriculture says there is no very dependable method for determining the sex of chicken that a certain egg will produce, and that it is extremely difficult to determine the sex of chicks of most breeds.

The department has made tests of a number of devices claimed by the makers to give good results in sorting out male, female and infertile eggs. In all cases they have been found to be useless for the purpose, as two persons could never get the same result with a lot of eggs, and hatching tests showed that one could do just as well by closing his eyes and picking out the eggs at random.

On account of the difference in the color of the down of the sexes it is often possible to select with considerable accuracy the hens and cockerels of the Barred Plymouth Rock as soon as they are hatched, but in the case of most other breeds and varieties this selection cannot be made with any certainty until some time later. Those

Barred Plymouth Rock Cockerel.

who know the breed well are able to distinguish between the sexes of Leg-horns when they are three to four weeks old. The sexes of the medium-weight breeds, with the exception given above, have the same appearance until the chicks are 10 or 12 weeks old. The surface sex differences in the Asiatic breeds are not as apparent until the birds are three or four months old.

There may be differences that will make it possible to sort the sexes earlier, but so far poultrymen have found no reliable basis for selection.

Speed of Railroad Locomotives.
 The modern high-grade express passenger locomotive can run at the rate of 112 miles an hour on a heavy-rail, straight track, provided it is hauled by a train behind it, to keep it from jumping off. The heavier the engine and train, the smoother they ride. In actual practice, on account of curves and switches, the big coal consumption at high speed, and the fractional wear on the equipment, fifty miles an hour is not often exceeded by railroad trains over any considerable distance.

Mountain of Sulphur.

By looking on a map of the South seas, one can find the New Hebrides, about 900 miles east of Queensland, Australia, and southeast of the Solomons. At the north end of the group is an island called Vanna Lava. This island is a mountain, a big one, 1,600 feet high and covering an area of 100 square miles. But the remarkable thing about it is that it is composed wholly of sulphur. Nothing like it is to be found anywhere in the world.

Common and Preferred Stock.

Holders of preferred stock are entitled to dividends in advance of common stock holders, and also to a claim on the property ahead of the common stock. The customary way is to provide for a limited dividend on preferred stock, which must be paid before common stock holders are entitled to any profits.

The Right Sequence.

"A topline quotation in a contemporary runs: 'Tell me my faults and mend your own.' Before starting any other mending, neighbor, suppose we first mend the motto so as to get the proper sequence. Isn't this better: 'Mend your own faults and then tell me mine.'"—Boston Transcript.

The First Laugh.

Some authorities say that the first laugh wasn't a laugh at all, but an exclamation of triumph. Prehistoric man, having emerged victorious from an encounter with his neighbor, emitted the sound "ha" to express his satisfaction and relief, and from this first "ha" our laugh has grown.

All Privacy Goes.

If that X-ray contraption for taking pictures through walls works, the gold fish won't have much on us for privacy.—Minneapolis Tribune.

Leather Used for Fertilizer.

The greater part of the scrap leather from the New England shoe factories is shipped to the south, where it is used for fertilizer.

CALIFORNIA CHOCOLATES (fresh) for particular people. Sent anywhere post paid \$1 the box. The best in the world. CALIFORNIA CHOCOLATE CO., 5424 Miles Ave., Oakland, Calif.

Make a Dollar an Hour.

Start a business of your own in your home, giving scalp treatments, shampoos, facials and manicuring. Very little equipment required.
