Second and Morrison Sts., Portland, Ore.

## WAS FAMED AS GREAT AMERICAN

John Winthrop Figures in History as the "Father of Massachusetts"—Leader in All Things.  
John Winthrop, rightly called the Father of Massachusetts, for 19 years the guiding spirit of the colony, and for 12 of those 19 years its governor, died at his home in Boston, March 26, 1649.

The passing of Winthrop marked the end of a distinct era in the history of the Massachusetts Bay colony. The era of Winthrop was an era of progress, of construction; an era of Puritanical intolerance held constantly in check by the moderation and kindly spirit of the chief magistrate himself. It is told that when Winthrop was on his death bed he was visited by Thomas Dudley, then deputy governor, and pressed to sign an order of banishment against a person holding false religious opinions. "No," said Winthrop, putting the paper aside. "I have done too much of that work already."  
**Gastronomic Affinities.**  
The reason for ham and eggs, frankfurters and kraut, corned beef and cabbage and other kitchen couples is directly traceable to Yuan Mei, ancient Chinese philosopher, who wrote, centuries ago: "Cookery is like matrimony—two things served together should match."  
**For Bucket-Shop Victims.**  
Sign in Store Window—"Fleeced Men's Underwear, Greatly Reduced." Very properly, too. After being fleeced the poor fellows can't pay much.—Boston Transcript.

## ENVOY IS BIG HIT WITH DANES

Doctor Prince, American Minister, Talks 20 Languages and is Skilled Musician.  
Copenhagen.—John Dymley Prince, America's new minister to Denmark, has made a hit with the Danish people by his versatility.  
Soon after his arrival here the Copenhagen newspaper men swooped down on him for an interview, having previously brushed up on their English, but Doctor Prince took them off their feet by speaking fluent Danish. They learned that the new minister, formerly a professor at Columbia university, had 20 languages at his tongue's end.  
Soon afterward Doctor Prince delivered a lecture on oriental music and illustrated ancient musical technicalities by playing various instruments.

## Gladys Walton

Handsome Gladys Walton became famous through her acting in a popular picture which recently absorbed the interest of the motion theater patrons. As a "movie" star Miss Walton is well at the top of the list.

## ROMANCE OF WORDS

### "SABOTAGE"

THE spread of strikes and the resultant efforts of certain disaffected elements to cripple industry in every way possible brought into use the French word "sabotage" in such a way that it may be said to have been Anglicized, such as "valet," "barrage," "ballet" and "camouflage" have been Anglicized.  
By "sabotage" as currently used, is understood the act of producing poor work or other damage either to machinery or to the good will of some commercial organization. The workman who is deliberately careless in the manufacture of some article, is as guilty of sabotage as is the workman who wrecks the machine itself—for both of them tend to injure the company for which they are working, either in its reputation or in its operation.  
In its original French sense the word was a harmless one, entirely unconnected with crime of any kind, and meaning the cutting of shoes or sockets for rails in railroad ties, "sabot" being French for "wooden shoes." During the strikes which paralyzed internal commerce in France toward the end of the last century, many of the strikers tore up the railroad tracks or loosened the shoe so that the rails spread, thus giving the word its new application and the significance under which it has slipped into the language on this side of the Atlantic.

**GETTING POSTED**  
Lord De Broke: I say, old dear, what is the usual procedure in catching an American heiress?  
Very simple, old chap. Tell the girl how much you love her, and her father how much you owe.  

## USED FRANKLIN FOR SALE

Strike Rockefeller in the Pocketbook. Buy Our Franklin Car—uses less gasoline, gives better mileage and rides easier than any car you ever saw.  
The full elliptic springs takes the bumps out of the road—you arrive at your destination fresh as a daisy at minimum cost. You can buy another car with the amount you will save in tires and gasoline if you run a Franklin long enough.  
Bargain at \$650—Cash  
AMERICAN NEWSPAPER ASSOCIATION  
420 U. S. Nat'l Bank Bldg., Portland, Oregon

## A LINE O' CHEER

By John Kendrick Bangs.  
**A PARADOX**  
I N CASTING up accounts last night, After a day of sheer delight In which I'd spent a fund of cheer Upon the highways dark and drear, And squandered stores of love on ways Clouded with Evil's murky haze, I found not a diminished score, But really an increasing store.  
A glad surprise? Well, I don't know, For, as along my way I go, Squandering love and sympathy On all who look for it from me, I find the more I chance to spend The greater is my dividend, And giving cheer, and giving peace, Is surely of Love's increase.  
(Copyright.)

## How Copper is Hardened.

There are several known methods of hardening copper, the most common being to combine with it a small quantity of cuprous oxide. The metal is also hardened by mechanical working.—Popular Science Monthly.

## STATE NEWS IN-BRIEF.

**Eugene.**—Between 1100 and 1200 carloads of pears will be shipped out of the Rogue river valley this season, according to the first estimates of the experts of the Southern Pacific company as announced at the district freight and passenger offices here.

**Salem.**—Jersey breeders of Marion county have completed arrangements for their annual jubilee, to be held this week. Frank B. Astroth, field agent of the American Jersey Cattle club, will be the guest of honor, and will accompany the breeders on their trip to different parts of the county.

**Salem.**—The case brought by Hale Gould of Portland to determine whether the world war veterans state commission can be compelled to award a loan to an ex-service man after he has made application and had been issued a voucher for a cash bonus, was dismissed in the circuit court here Saturday.

**Eugene.**—The farmers of Lane county are cutting their wheat and one thresher has begun near Irving. They report that the yield will be lower than usual, owing to the extremely dry weather. Spring-sown grain especially will be short. Some of the fields will not be cut because the grain is not high enough.

**Fossil.**—The city council has purchased a 500-gallon water sprinkler from the city of Portland and has put Marshal Laird in charge. The streets will be wet down twice daily for the present. If the use of city water in the sprinkler is found to decrease the water supply for other uses, the sprinkler will be filled from the creek.

**Marshfield.**—Fire which caused a loss estimated at \$200,000 swept both sides of the blocks along Front street Sunday morning, burning 28 buildings. The razed section was in the old part of the city, and the heavy losses will be felt more because the fire hazards prevented the business men and real estate men from carrying insurance.

**Prineville.**—Construction on Prineville's new hotel will begin on or before August 1, is the announcement from the architect, John V. Bennes of Portland. The plans are nearly completed and will be submitted to contractors at once. The block where the old hotel stood has been deeded to the new corporation by Mrs. C. E. McDowell, former proprietor of the hotel.

**Prineville.**—Crook county's wool clip will exceed a quarter of a million pounds when the clip of Kerns Brothers of Ize, is completed and the 1922 wool season comes to a close. This clip, aggregating more than 35,000 pounds, formerly was shipped from Prairie City, but improvements in Crook county roads and more favorable shipping conditions at Prineville have induced them to truck their wool to this direction.

**Eugene.**—Two sections of timber land west of Walker station and 20 miles south of Eugene have been sold by the First National bank of Eugene and the First National bank of Cottage Grove to the Ajax Lumber company of Portland. The tract contains 50,000,000 feet. The new owners announce that three small mills will be built on the tract and operation will begin at once. Some of the machinery has already arrived.

**Bend.**—Fire, believed to have started from a short circuit in an automobile, caused \$6000 damage Saturday night at the Bend garage and threatened a loss of more than \$100,000. The blaze was extinguished in an hour's time by the Bend volunteer fire department, five lines of hose being used in combatting the flames. Water pressure in the mains was increased 80 pounds by use of pumps at the Brooks-Seánlon mill.

**Salem.**—The Portland Railway, Light & Power company Saturday was authorized by the Oregon public service commission to establish a rate of 2 1/2 cents a 100 pounds on rough lumber in carload lots from all stations on its line to Cameron Spur, when transported for milling and dressing. This concession was necessary, the order said, to keep in operation the Cameron-Hogg planing mill, which otherwise would be put out of commission because of a lack of working material.

**Lakeview.**—The Goose Lake Valley Irrigation company is constructing a dam and reservoir 12 miles northwest of Lakeview on Cottonwood creek to store the waters from the Cottonwood watershed. The dam will be 610 feet long and 40 feet high and will furnish water for irrigating the lands in the north Goose lake valley. This will add to the plant constructed some seven years ago when a dam of 65,000 acre feet was built on Drews creek

## Companion to the Goodyear All-Weather Tread

By long wear, superior traction, freedom from skidding, and ultimate economy, the Goodyear All-Weather Tread has won unquestioned leadership.

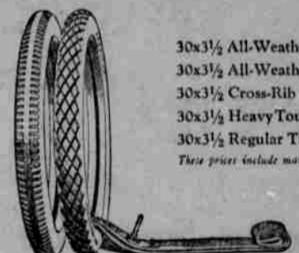

As a companion to this tire there is the Good year 30 x 3 1/2 Cross-Rib Fabric.

Built of the same high grade Egyptian fabric and with a long wearing but differently designed tread, this tire offers unusual value.

Over 5,000,000 of these tires have been sold in the last five years.

Their quality and serviceability have proven to thousands of motorists the folly of buying unknown and unguaranteed tires of lower price.

Ask your Goodyear Service Station Dealer to explain their advantages.

30x3 1/2 All-Weather Cord \$16.25  
30x3 1/2 All-Weather Fabric 13.50  
30x3 1/2 Cross-Rib Fabric 10.95  
30x3 1/2 Heavy Tourist Tube 2.80  
30x3 1/2 Regular Tube . . . 2.25  
*These prices include manufacturer's excise tax*

**GOODYEAR**  
"Western Made for Western Trade"

## YOUNG MOTHER NOW STRONG

Her Mother's Faith in Lydia E. Pinkham's Vegetable Compound Led Her To Try It

**Kenosha, Wisconsin.**—"I cannot say enough in praise of Lydia E. Pinkham's Vegetable Compound. My mother had great faith in it as she had taken so much of it and when I had trouble after my baby was born she gave it to me. It helped me so much more than anything else had done that I advise all women with female trouble to give it a fair trial and I am sure they will feel as I do about it.—Mrs. FRIED, P. HANSEN, 562 Symmonds St., Kenosha, Wisconsin.  
A medicine that has been in use nearly fifty years and that receives the praise and commendation of mothers and grandmothers is worth your consideration.  
If you are suffering from troubles that sometimes follow child-birth bear in mind that Lydia E. Pinkham's Vegetable Compound is a woman's medicine. It is especially adapted to correct such troubles.  
The letters we publish ought to convince you; ask some of your women friends or neighbors—they know its worth. You will, too, if you give it a fair trial.

**Indian God's Many Names.**  
India, according to W. G. Sibley in the Chicago Journal of Commerce, has 30,000,000 man-made gods existing in the Hindu pantheon. They are all given shape and substance in images. Ganesha, god of plenty and mirth, has an enormous paunch and the head and trunk of an elephant. Hanooman, the holy monkey god, is the patron of home life.

**"Grateful and Comforting."**  
William Webster Ellsworth, grandson of Daniel Webster, tells this on Edmund Gosse, the English critic, Mr. Gosse married the mature heiress of Epps, the cocoa merchant, whose commercial slogan is "Grateful and Comforting." His witty friends immediately christened Mr. Gosse "grateful" and the bride "comforting."

**Indian Cotton Cloth.**  
Indian cotton cloth is mentioned by Herodotus and was known in Arabia in the seventh century. In Spain cotton was quite extensively grown and manufactured in the Tenth century, but its manufacture was not introduced into other countries until some centuries later.

**Don't Forget Cuticura Talcum**  
When adding to your toilet requisites, An exquisitely scented face, skin, baby and dusting powder and perfume, rendering other perfumes superfluous, You may rely on it because one of the Cuticura Trio (Soap, Ointment and Talcum). 25c each everywhere.—Adv.

**Careful Listeners.**  
"When the eyes are shut, the hearing becomes more acute," says a medical authority. We have noticed people trying this experiment in church.—London Opinion.

**Dig for Your Vitamines.**  
There is something about bread we have earned that puts vim into our bodies and fire into our hearts. If you are looking for vitamines in your rations, step out and dig for them.

**Poet and Plowman.**  
Poets in all ages have sung of the plowman. And there is much poetry in plowing, if the poet can sit under a tree at a sufficient distance from the plowman to make the latter's language to the mule inaudible.—Houston Post.

**The Air We Breathe.**  
Every time we breathe we draw 30 cubic inches of air into our lungs; supposing that we take 15 breaths in a minute for a whole day, we use 648,000 cubic inches of air, weighing over 30 pounds.

**Oriental Cynicism.**  
"Music," says the Times of India, "is now declared to have great curative values. Yet many attribute much of their pain and anguish to Mendelssohn's 'Wedding March.'"—Boston Transcript.

**Red Cross**  
BAL BLUE  
is needed in every department of house-keeping. Equally good for towels, table linen, sheets and pillow cases. Grocers
