

Climb Mt. Hood

Rev. J. I. Parker and son, Oran, recently climbed Mt. Hood alone and without stopping over at Camp Blossom to rest. At one steep place they lost their footing and both tobogganed a hundred feet until Rev. Parker fortunately caught a protruding point of rock, and held on, the rope saving his son.

They made the top in good time and returned to Summit Prairie at dusk, a very unusual feat. Oran is twelve years old,

while Mr. Parker has demonstrated his athletic ability before in baseball. Last winter Mr. Parker labored unceasingly through the deep snows, ministering to the wants of his parish, bringing them hope and good cheer and the membership of the United Brethren church are sincerely glad to find that he has returned from his recent attendance at the annual conference of the church in Portland to continue his work at Wapinitia Plains. —Chronicle

School Notes

A regular meeting of the student body was held Monday, Oct. 2, at four P. M. The problem of a debating team was brought up and discussed. After discussing pro and con, it was decided that a debate will be held at every meeting of the Literary Society, and the program committee will select the question, choose the debaters and place them on the sides they see fit. We have a double purpose in this plan; first, to give each student a chance to display his oratory powers, and second, to select "timber" for a real debating team to challenge local high schools. Such lines of business as the placing of a bulletin board athletic work, Glee Club, etc., were discussed.

Mrs. Fiske Bothwell visited the school Monday to test some of the students voices for work in the Glee Club. Although no organization of the Glee Club has yet been effected, we hope to receive the music sent for soon and begin with regular meetings.

The high school students have entered the athletic work with great enthusiasm. The Basket Volley Ball and Volley Net were received Monday and the students are now trying out for the main teams. A foot ball and rule books have been sent for and are expected soon.

A new pupil, Melvin Fulkerson makes the enrolment of the grammar grade room twenty-seven.

Miss Bump's room has organized a literary society, and will have their first program a week from Friday.

Margaret Dees was absent from school a few days on account of her sprained ankle.

Mr. and Mrs. George Cunningham and family, Mr. Frank Dyer and Mrs. A. H. Philmlee went to The Dalles last Friday.

Atty. E. B. Dufur left for Portland Monday morning.

Too Long Without Paint

Are You Insuring Against Depreciation

THERE'S no middle ground. Either your buildings are well protected by paint or they are going to require costly repairing or rebuilding within a few years.

Paint saves your property. It is an investment in long service—not an expense. The expense results from allowing buildings to rot. Paint now. Save repairs.

The next question is what paint to use. Use the best. It costs less in the long run. It spreads easily—saves labor cost. It covers more surface per gallon than "cheap" paint.

And the best paint will serve you five or more years longer than "cheap" paint.

The best paints are scientific in formula and preparation. We've made them for 73 years—to meet the weather conditions in the West.

The best materials—PIONEER WHITE LEAD, pure linseed oil, pure zinc and pure colors—are combined in Fuller's Paints in scientifically exact proportions with long-time skill.

Free Advice on Painting

Ask our agent for advice, color cards, etc. Ask the Fuller Specification Department about the most desirable color schemes, color harmony and any other details.
