EDUCATION BILL WILL RAISE TAXES

Thousands of Pupils Now in Private Schools Would Increase General Levy.

One hundred per cent Americanism is a fine thing—we all want it and nearly every one stands for just that. But there are a good many people who want to define the other fellow's Americanism.

Some think 100 per cent Americanism just now means to close up all of the old established private schools in Oregon, in which several thousand pupils are being trained for life's work and to force their parents, through the so-called compulsory education bill to be voted on in November, to go to the public schools.

There is now in force and has been for many years, an educational bill which compels parents to educate their children; but, following the constitution of the United States and of Oregon, it gives parents the right to say whether they shall educate those children in private or public schools. But that doesn't satisfy a certain element, members of which have now initiated a proposed law to close the private schools and deprive the parents of any choice of educational agencies.

Should this bill become the law of Oregon, it would add more than \$1,000,000 to the tax rolls by throwing thousands of private school pupils into public schools and onto the general tax rolls. Large sums would have to be expended for buildings and equipment, for the private school buildings would be scuttled by this act. Taxpayers would therefore have to shoulder this additional burden without gaining anything worth while.

School Bills

By Dean Collins in Oregon Voter

In killing a cat, 'tis a popular way
To coat with sweet sugar the pill.
So the kitty all purring and eager and gay
Will gulp it and get very ill.
In killing a school, it is sometimes the rule
To use not the brutal sand-bag,
But to make exhortation about education
And flap the American flag.

CHORUS:
School bills, school bills,
Dear old freak and fool bills.
Make it "compulsory," that's the plan,
Teachers are scarce but of course we can
Help things along by cutting short
All private schools of every sort.
Will that make things nice? Well, we
Should snort!
Though it would make trouble for kids.

The camouflage art we learned in the war
Will help in political play,
And a camouflaged bill is a splendid thing
For
The stowing of rivals away.
All faiths and all creeds we may tolerate
Without any quibble or fuss—
We may tolerate—but we beg here to state
They must think precisely with us.

CHORUS:
School bills, school bills,
Dear old freak and fool bills.
Bring out the standard they used to raise
Back in the witch-burning bygone days.
"Freedom shall flourish—but we'll flay
Whoever thinks some other way
Than we, when they vote." (Signed
K. K. K.)
Though it may be hard on the kids.

Every Woman Loves to Paint

when she knows how—let us tell you

PAINTING is really fascinating work. Once you are started you'll probably not want to stop until you have refinished many things you did not intend to do at first.

Of course there are some simple directions that must be followed if the work is to be successful, for we have a special "Home Service Paint Department" which was organized just to tell you how to paint.

Perhaps some of your furniture, floors, woodwork or walls are beginning to look a little old—just on the surface. Pick out one or two things to refinish. Tell us about them and how you want them to look when finished.

Our experts will tell you what materials to use, how to do the work step by step, what brushes you'll need, and everything about it.

For 73 years we have been making paints, varnishes, enamels, wall fin-

ishes and stains for women to use. They are the finest materials of their kind that we know.

Write for Fuller's Free Advice and refinish a few home things. You'll be surprised how fascinating the work is and how much you can save, too.

Rubber-Cement Floor Paint
