## RUPTURE

### Expert Here

SEELEY, FAMOUS IN THIS SPECIALTY, CALLED TO THE DALLES

F. H. Seeley, of Chicago and Philadelphia, the noted truss expert, will personally be at The Dalles Hotel, and will remain in The Dalles Thursday Only, January 25th. Mr. Seeley says: "The Spermatic Shield will not only retain any case of rupture perfectly, but contracts the opening in ten days on the average case. This result effected during the day—the repair continues of itself throughout the night during sleep while all strain is removed. Being a vast advancement over all former methods—exemplifying instantaneous effects immediately appreciable and withstanding any strain or position no matter the size or location. Large or difficult cases, or incisional ruptures (following operations) specially solicited. This instrument received the only award in England and in Spain, producing results without surgery, injections, medical treatments or prescriptions. Warning—All cases should be cautioned against the use of any elastic or web truss with understraps, as same rest where the lump is and not where the opening is, producing complications necessitating surgical operations. Mr. Seeley has documents from the United States Government, Washington, D. C., for inspection. He will be glad to demonstrate, without charge or fit them if desired. Business demands prevent stopping at any other place in this section.

P. S.—Every statement in this notice has been verified before the Federal and State Courts.—F. H. Seeley.
