Each farmer has probably said to himself at some time, "What has the Union done?" The Union has saved for the farmers through different lines thousands of dollars in this community, and it has only started. The Union can be credited with most of the honors of having the Standard Oil Company located here, which most of us do not realize how much it will benefit the community in the future. That is only one thing that I mention; numerous other things have been done.

If you are not keeping step with the Union now is the time to get in and see how much we can help ourselves.

How many industries of today are not cooperating? There are only a few, and they are beginning to see what it means, that is the object of the Union, cooperative buying and selling.

The next meeting will be on March 24th at 1 o'clock sharp.
