superintendent of the Oregon State School for the Blind here, has been employed by the state board of controi to supervise construction of the

The Appealing Charm of Health!

Portland, Oreg.—"I can speak in terms of highest praise of all of Dr. Pierce's remedies, especially the 'Favorite Prescription' for woman's ailments and as a tonic and nervine, and the Pleasant Pellets for stomach and liver ills. While bringing up my family, whenever I have been in a run-down weakened or nervous condition. I have always been strengthened and helped by the use of the 'Favorite Prescription'. And strengthened and helped by the use of the 'Favorite Prescription'. And in later years when my stomach has become disordered, and my food seems to disagree with me, then Dr. Pierce's Pellets give me immediate relief."—Mrs. E. L. Henson, 768 E. 6th St., North.

One hundred scouts at the Westfield (Mass.) Sanitarium for Tuberculosis compose Troop 4, which has the distinction of functioning as a troop 24 hours a day, the boys eating, sleeping, working and playing together as a unit. These lads march to their meals; on patriotic occasions they carry the ting to the sound of music. They go to school a few hours each day, but the greater part of their time is consumed in out-of-door activities in which scoutcraft plays a vital and most interesting part. The troop sleeps in the open in a shelter especially made for the boys by the men patients.

As to the twelfth law, "A scout is reverent"-these boys say their prayers in common morning and night. The boys kneel together and remain kneeling until each group, Protestant, Catholic and Jew, has recited its devotions. Three chaplains, representing the three faiths mentioned, are in attendance at the sanitarium.

As to the eighth law, "A scout is cheerful ; he smiles whenever he can" tree is a bride's dowry."-Boston Tran--these boys have become famous in swript. the institution for their pluck and "I saw the cutest little hat this afternoon." "Did you buy it?" "Not we have had two deaths within the past few months. Both boys who died were members of Troop 4, and to the end each played his part 'every inch a scout.' Their cheerfulness throughout their illness was so marked that the other patients would come in not only to visit the boys, but to bolster up

> The boys have built a dam on the grounds to bank water in a swimming pool. Only a few of the stronger boys. however, are allowed to undertake swimming. In basketry, Troop 4 is extremely skillful. In 1921 at the Eastern States' exposition, the boys received a blue ribbon in recognition of the excellence of their work. The scouts' good turns are often manifested in their thoughtfulness for one another. For instance, these boys are much devoted to papers containing scout news. When such papers arrive, the scouts make a grand rush for this section, but the boys always pass it On retiring gently rub spots of danhappens that day to be confined to

what these fellows are doing !" "Although these boys can never become first-class scouts in actual rank," continues the chaplain, "for the rules of the doctor forbid their taking hikes or attempting scouts' pace, etc., in true turing it 10 per cent allowance is scout spirit they can reach the top. In made for "slack." That is, a cable their work, the boys like to keep in mind this thought on how to play the game:

"For when the One Great Scorer comes To write against your name. He'll write not what you've lost or won, But how you played the game."

## HAS NATURAL TASTE FOR SUGAR

### Desire for Sweetstuffs Implanted in Humanity as Indispensable Adjunct to Good Health.

Fruits, vegetables, nuts, roots, grains, fish, flesh and fowl are examples of natural foods. Sugar is a good example of an artificial food, Arthur R. Reynolds, M. D., writes in the Health Builder. Nowhere in nature does free sugar exist. It is an extract. Every living creature likes sugar. To like sugar is not an acquired taste. Nature gave it to us, but nature produces no commercial sugar with which to satisfy that taste. Why was the taste for sugar given to us? That we might seek it in those foods where it is stored, and stored in a form easy on the digestive organs and in addition obtaining other elements indispensable to good digestion and good health. Sugar cannot be di-

gested in its commercial form, The digestive apparatue is compelled to convert sugar when swallowed into another substance before it is of any law .-- Washington Evening Star.

value to nutrition. All natural foodstuffs contain sugar. It is most abundant in fruits.

How Freezing Affects Canned Stuff. The United States bureau of chem-

istry says "Most canned goods will stand a little freezing without apprecinble change. Repeated freezing and thawing causes the foods to become flabby and gives a flat taste. Such a change, however, does not alter the neness or food value of the whole material, but it may change the texture, appearance and palatability. The pansion campaign. actual damage varies with the differ ent kinds of canned foods and in general is somewhat similar to damage done by freezing the same food in the fresh condition."

### Limit to Personal Liberty.

Jud Tunkins says his idea of personal liberty doesn't imply permission to take all kinds of liberties with the

## Against Law to Work on Sunday in Utah

the law to work on Sunday in Utah. This fact came to light when a com-

plaint was received at the governor's office from one of the Mormon bishops of one of the wards in Carbon county to the effect that men are compelled to work on the roads on Sunday. In

searching the Utah laws it was found that chapter 31 reads as follows: "Every person who performs any many as 1,500 or 1,000,
