This place has had very warm weather the past week and the giran and growing vegetables has felt its enlivening influence.

While in The Dalles last week we had the pleasure of attending the Wasco County Pioneers Association, an event of charming interest. People were there from many parts of the County and the meeting and handshakin of old time friends was a rael pleasure to be long remembered.

The friends of our youth hold in our hearts a charm and warmth of feeling that brings to us the sweet remembrance of the happy and sublime part of our

lives that instills an ardor and makes us forget the worry of care and hardships we find along lifes path of duty. The meeting was presided over by Judge Fred W. Wilson, President of the Association with Mrs. Benton Mays who is the vice president. The meeting was held in the gymnasium of the Auditorium building and the large crowd gathered there was treated to a delicious lunch, long tables were spread with the best of dainties served with coffee, all were seated and enjoyed the appetizing repast. An interesting program followed and many told of their early experiences here when Wasco County extended over the eastern part of the state. Among the unique and historical relations was that of one who had lived in four counties and had not moved from the original home. An effort was suggested to have a general picnic, some place, where, all the old timers could gather and exchange the interesting events of their lives during the many changes that have come to Wasco County.

Ship your livestock to the Mays Livestock Comission Co. in North Portland. I handle shipments from the producers point of view —Edwln Mays.

The thunder storm of Tuesday night was a welcome relief after the intense heat of the day, enough rain falling to thoroughly soak the ground.

Union Pacific to Talk to Patrons Through Newspaper Advertisements

The Union Pacific realizes that the good-will of its patrons is its greatest asset. It also believes that a successful railway is the greatest asset of any region or community which it serves.

The Union Pacific wants its patrons to feel that the railway is intimately interested in their welfare, and that the road is built, equipped and operated especially to serve their transportation needs.

The railway, like any other business has its problems, some of which are not always thoroughly understood by the public. For that reason, the Union Pacific will present certain of these problems from time to time, and endeavor to explain them, using only such statistics as are readily understood.

Some of the topics suggested are:

- The Misunderstood Railroad Earning Guaranty.
- New Equipment and Capital Improvements for the Union Pacific.
- What the Union Pacific Pays in Taxes.
- The Railroad and the Farm.
- Preventing Accidents at Grade Crossings.
- Who Owns the Union Pacific?
- Expediting the Movement of Freight Cars.
- The Facts About Freight Rates.
- Where the Union Pacific Dollar Goes.
- Railroads—Safe to Ride On, Unsafe to Walk On

It is planned to publish one of these short talks in the form of an advertisement about the first of each month in Newspapers along the Union Pacific lines. It is hoped that this method will tend to clarify some of the misconceptions about railway operation, and that it will serve to inform the public of the constructive things the Union is doing.

Constructive suggestions will be welcomed.

C. R. GRAY,
President.
