old son last Sunday. The child was playing on a bridge and in some manner fell off in about six inches of water and was drowned. The mother was close by and got the body out of the water very soon afterwards but was unable to get life back in the body.

A Ford touring car bearing a late license plate went off the grade a mill above the spring on Tygh grade some time Monday morning and the occupants must have suffered cuts as there was considerable blood on broken glass and stone where the machine capsized. They were going up grade and in making a very sharp turn it seems were unable to get the car back to the road again. It landed about 50 feet below the road and is very badly demolished.

a telephone message from the Crook county sheriff to the deputy sheriff of Wapinitia to stop, arrest, and hold three suspects who were northbound via the Reservation, suspected of being part of the Southern Pacific train robbers, also of thefts and holdups in the Reservation, come in causing quite a commotion. Dee Woodside and N. G. Hedin arrested the three young men who proved their innocence after a good grilling. After phoning for orders they were ordered released. Every highway lane in the west is being combed to catch these desperadoes, who murdered the railroad men in cold blood.

J. Shipfin has gone to Cedar Swamp to cut posts.

Frank Batty and crew are cutting wood at Dane's homestead.

SAVE \$200 EVERY YEAR

One sure way to make money on your farm is to protect your farm machinery. The average annual loss from deterioration alone on farm machinery left out in the weather is \$200.00. A machine shed that will turn this annual loss into a profit can be built for a surprisingly small amount. The shed shown here is only one of many carefully designed and economical plans that our architectural department has ready for your inspection. Our Blue Prints and Material lists are so complete that it is an easy matter for you to do the building yourself during the slack season. Come in and let us show you how little money it takes.
