Squirrel's Curiosity Results in His Death
Washington.—A gray squirrel, reconnoitering for food, wandered into the capitol building recently and became entangled in an electric fuse. In consequence several miles of corridors and many inside rooms were thrown into complete darkness. Two senate committees, hearing evidence on weighty public controversies, grouped dimly over their documents in a semi-darkness that seemed to make

O. M. AKERS
Designing and Drafting, 511-12 Couch Building, Portland, Oregon.

Origin of the Dollar.
The dollar was introduced into America by the West India trade before the Revolution. The coinage act of the 2nd of April, 1792, legalized it and established it as a unit of American currency. The inconvenience of the English system of money led congress in 1781 to instruct Robert Morris to devise a system of national coinage. His suggestions were not adopted, but those proposed by Jefferson were approved. He proposed the dollar as a unit to be equivalent to one hundred cents.

Catches Strange Sea Monster.
Hampton, Va.—Probably the most remarkable deep sea creature ever landed in this section was caught by hook and line off Ocean View. The creature has a body like a flounder and wings that measured an even six feet from tip to tip. It has a head like a hog, with a sharp, long bone protruding from the snout and a whiplike tail that measured 65 inches from the body to its tip. At the end of the tail two bony horns protruded from each side. The body was 11 inches thick.

Bruin Stages Parade.
Benton, Pa.—A large black bear staged a parade on Main street, the first time in years a bear actually has invaded the town. The bear shambled along the street fearlessly for half a block, went down an alley and into a corn field.

The Sea.
With all its treacherous, snaky, slaughterous habits, there are people who "love the sea." We love to look at it ourselves.

Apple Tree Spreads Fifty Feet.
Sullivan, Ind.—What is believed to be the largest apple tree in the county stands on the farm of West Eaton, four miles west of Sullivan. The tree measures eight feet in circumference and the spread of its branches is fifty feet. It is loaded with blossoms and from appearances will bear a record crop.

The city of Vienna once bartered a railway bridge for a large parcel of bog fat.

Fisheries of Canada Prosper.
Ottawa.—Canadian fishermen had better "luck" in 1922 than in 1921. The various concerns fishing the sea and inland waters of the Dominion produced \$42,000,000 worth of fish last year, as against \$35,000,000 the year before. The salmon catch alone was sold for \$13,500,000.

Strength of Mind.
Artemus Ward used to say that he had a gigantic intellect, but "at the time he didn't happen to have it with him." Which is much like common sense. One may have plenty of it, without the strength of mind to use it.

Grouch and Jag.
A man with a grouch and a man with a jag is apt to be troublesome, but with both in combination, he becomes a menace.

Stole 70 Hens but Lost \$750.
Stanton, Minn.—Seventy hens were stolen from the henhouse of Mrs. Robert Radtke, near here. At the same time she discovered the loss, the woman found a pocketbook containing \$750 on the floor of the coop. Later in the day she saw two men enter the coop and search the floor. She smiled and said nothing as they departed empty handed.

Man's Inhumanity to man has made the heavens of lawyers rich.

Charles Jones

Vincennes, Ind., was the place where Charles Jones, the "movie" star, first saw the light. Starting his career as a cow-puncher on the Triangle-Bar ranch, he enlisted in the United States cavalry, went to the Philippine islands, helped put down the Moro rebellion, came back and joined a Wild West show. Overseas, before the United States entered the war, he was attached to a French replacement camp for horses. His remarkable riding won the attention of Premier Clemenceau and the King of Belgium. At the close of the war he was engaged by a prominent producer to enter western pictures.

"What's in a Name?"
By MILDRED MARSHALL
Facts about your name; its history; meaning; whence it was derived; significance; your lucky day and lucky jewel

STEPHANIE
A VERY unusual name is Stephanie. Of late it has had great vogue and represents a revival of interest in the old Greek names which had far more significance than our modern versions. Stephanie, for instance, originated with the Greek games when the wreath of the conqueror was an appropriate allusion to those games where the Greek youth delighted to contend. The wreath was called a stephanos, and it is more than likely that the first proper name Stephanos was so called by a proud family whose representative had returned with a leafy crown on his brow.
Stephan, the contraction, was an old Greek name borne by the son of Thucydides, before it was given to the Hellenist deacon who achieved the greatest of all victories and won the spiritual crown. Old Greek hymn writers celebrated this accordance of name and destiny:

Thou by name a crown impliest
Mekly then in pangs thou diest;
For the crown of righteousness.

Stephanie is the feminine form approved in Greece; it also signifies a crown. It received a sacred prominence since no less than seven saints bore the masculine form of it, including the great Saint Stephen the martyr. The English gained its use, it is said, through William the Conqueror, who dedicated to Saint Stephen the abbey built at Caen to expiate the marriage with the already betrothed Matilda.
The English have placed the stamp of their own spelling upon it, and while using Stephanie to a large extent, also favor Stephanie. The French call her Estephane, Stefanie, Etienne, and Tiennette. Stephanie is the Portuguese form and Stephanina, the German. Russia changes her to Stephanida and Stepanida.

Stephanie's Jewel is the sapphire which will protect her from all harm, and is said to attract divine favor to its wearer. Her lucky day is Wednesday and 3 is her lucky number.

A LINE O' CHEER
By John Kendrick Bangs.

EVOLUTION
IF SO my Forebear was an Ape,
As is suggested by my shape,
And if it can be proved that he
Was always climbing up a tree,
I'll be content, for it is clear,
Despite his habits rather queer,
He evidenced a strong desire
In what he did to climb up higher.
And that's a mighty worthy plan
For anybody, Ape or Man.
(© by McClure Newspaper Syndicate.)

STATE NEWS IN BRIEF.

Salem.—Glen Southwick, who lives on a ranch near Salem, won the ribbon for the best single ear of corn exhibited at the annual Marion-Polk corn show which opened here Thursday.

Salem.—There were five fatalities in Oregon due to industrial accidents during the week ending November 23, according to a report prepared here Saturday by the state industrial accident commission.

John Day.—John B. English, expert mining authority, who passed through this city a few days ago, declared that there are bright prospects for the mining industry throughout this section. Mr. English once operated the famous Golconda mines.

Salem.—Assessed valuations of public utility properties in Oregon for the year 1923 aggregate \$229,250,528.21, or approximately \$40,500,000 in excess of the apportioned value of \$189,359,984.60 of last year, according to a report completed by the state tax commissioner here Saturday.

Albany.—George Ray, a prominent farmer of the Scio district, has a 60-year-old pear tree on his farm that has borne two crops this year. The second crop is now mature, and although the pears are not so numerous nor so large as the first crop, they are of a delicious flavor.

Salem.—Members of the state board of forestry held a meeting here Saturday and discussed plans for next year's operations. Reports received by the board indicated that this year's operations were successful and that the activities of the department had been kept within its appropriation.

Eugene.—Captain A. E. Burghdoff, state game warden; Matt Ryckman, superintendent of state trout hatcheries; Harold Clifford of Prairie City and Ben F. Dorris of Eugene, members of the state game commission, left here Saturday for Bend to select a site for a hatchery somewhere in Coos county.

Salem.—Success has marked the operation of the boys' and girls' club work in the various schools of the state during the past year, according to a report prepared here Saturday by J. E. Calavan, industrial field agent for the state department of education. The report was filed with J. A. Churchill, state superintendent of public instruction.

Dallas.—Considerable reduction is contemplated by the Polk county tax supervising commission in the county budget, which it has now under consideration. Increases in salaries of deputies in some of the offices, which were provided in the original budget, will doubtless be eliminated, and the various road funds are also said to be slated for a general slashing.

Hood River.—So successful was the first annual show of the Hood River County Poultry association, closed Saturday night, that C. D. Nickelson of the organization announced that it would be made an annual affair. C. S. Brewster, who came from Portland to act as judge, declared the Hood River fanciers had made a remarkable showing on less than two weeks' notice.

Pendleton.—The sum of \$940,000 as the estimated need of the greater Umatilla project for the coming fiscal year has been turned in by Senator McNary, according to a telegram received by the Pendleton Commercial association from Senator McNary. The money is for continuing the construction of the McKay creek dam, work on which was started last summer.

Medford.—A telegram Saturday from United States Marshal Hotchkiss notified the city officials that the United States district court at Portland, at the request of the Southern Pacific company, had issued a temporary restraining order against the city of Medford, prohibiting the city from constructing the proposed Sixth-street grade crossing in accordance with the order of the public service commission of some time ago.

Salem.—The total assessed valuation of property in Marion county for the year 1923 is \$37,962,330, according to a report prepared here last week by Oscar Steelhammer, county assessor. The levy for 1924 will be based on this valuation. Public utilities, the valuations of which are fixed by the state tax commission, aggregate \$4,739,989, which will swell the grand total valuations in Marion county to something more than \$41,000,000.

Damage Done by One Rat.
Fire caused by a rat eating through the insulation of an electric cable caused about \$7,500 damage and threw about 600 men out of work temporarily at a steel factory in Sheffield, Eng. The electric installation was badly damaged, and the power plant put out of action.

WRIGLEYS

Take it home to the kids.
Have a packet in your pocket for an ever-ready treat.

London's Ivory Warehouse.
One of the most wonderful places in the London docks is the ivory warehouse, where tusks to the value of half a million pounds are usually in stock. About 50 tons of ivory are used every year for making knife handles and for decorative work. The value of the material is about £1,000 (\$5,000) per ton.

Wolverine Fur Prized.
The natives of the North wear the furs that stand the hardest wear, and wolverine is the most prized fur among Eskimos, as they trim their parka hoods with it on account of the hairs shedding water, or rather the moisture of respiration.

How About the Kidneys?
Portland, Ore.—"I am glad to recommend Dr. Pierce's Anuric (kidney and backache) Tablets as a safe and reliable remedy to be given to little children who are afflicted with weak kidneys. My little daughter (between five and six years of age) was troubled greatly, especially at night. The doctor said he could do nothing for her, but that she might outgrow it. I then decided to give her Dr. Pierce's Anuric, just one-half a tablet each night, until one bottle had been taken. It strengthened the organs so that we have had no further trouble with her. I feel sure that Dr. Pierce's Anuric is a safe remedy to be given to children, if given intelligently."—Mrs. L. I. Ellis, 717 E. 48th St.
Help weakened kidneys by obtaining this "Anuric" of Dr. Pierce's at your nearest drug store, or send 10c for trial pkg. of tablets to Dr. Pierce's Invalids' Hotel in Buffalo, N. Y., or write for free advice.

Man to Be Watched.
The man who is really good never gives one the impression that he knows he is good. The man who tells you how good he is, like the man who boasts of his honesty, may be a pretty good counterfeiter, but he certainly isn't legal tender.

The Fly in the Ointment.
No matter how famous a man may become in art, the professions or in business in after years, there will be some in the old home town who will remember him chiefly for the part he played in an amateur show.

One of Life's Chief Lessons.
How hard a lesson it is to wait! Our life is brief, and how much of it is spent in teaching us only this.—Nathaniel Hawthorne.

Importations From China.
Porcelain was introduced into England from China about 1531. Tea followed about 1600. Oranges were first brought into Europe from China in 1547.

Those Dear Girls Again.
Stella—"Laura says she is going to have her voice cultivated." Maud—"Well, I hope she goes out on a 40-acre farm to have it done."

Red Cross BALL BLUE
It is needed in every department of house-keeping. Equally good for towels, table linen, sheets and pillow cases. Grocers
