To Build Church

Money has all been collected for the erection of a Catholic church in Maupin. Construction will be commenced on their property across from the high school building as soon as arrangement is completed for the lumber. A convenient structure 24x42 feet is planned. For the past two years the members have attended services in the apartments of Mr. and Mrs. Griffin in the O. T. depot building and all realize the need of larger place of worship.

Criterion

The highway contractors here are quite busy. The sub contract to Haneys by Bauers & Bauers is nearing completion. Striking a difficult rock cut prevented it having been completed some time ago. H. M. Greene who has a sub-contract from Sharen & McCall is progressing nicely. Mr. Greene's contract starts slightly south of the Criterion school house and extends a mile north. He has struck rock in one of the cuts. This may delay him some. Mr. Kelly

who has the two miles south of Mr. Greene is making good head way. He expects to finish in the next thirty days and intends to take another contract. Above him are two other contractors, D. B. Appling and B. Kennison, both of whom are reported getting along nicely.

It seems probable that this strip of road between Maupin and Cow canyon will be completed before that road adjacent Maupin on the north.

Mrs. W. E. Hunt has a continued bad cold.

Allen Greene who has been cooking for her father has returned to school at Maupin. Clair is now doing the cooking and hauling water.

Conditions here in regard to the future water supply do not look optimistic. Several contractors are now hauling water for stock and household use. Some of the old residents have been heard to remark that the water in the wells is lower now than ordinarily by the 15th of July.

Sunday night was accompanied by an extreme change in the

Smock News

Cecil Mayfield is helping his

brother Virg. saw wood for a few days.

Callie Duncan is making ditches for Farlow Bros.

Claude Roberts, living near Wamic, was taken ill Friday, caused by eating canned fruit.

Sohn Cervin and Olaf are plowing for I. T. Courtright.

Miss Zeta Watkins of Tygh, accompanied by some young friends, was canvassing in this section Monday for the Chronicle contest now on.

Edward Disbrow made a trip to Maupin Friday afternoon. Mrs. Bradway accompanied him.

Quite a freeze on Tuesday morning. We're hoping it did not kill the fruit.

Master Richard Pierson came from Portland on Friday to make his home with Mr. Bradways.

Mrs. Kester went to Portland Saturday, returning Wednesday.

The ditch leading from a point near the head waters of the south canyon on H. M. Greene's fruit farm north of here is being repaired and put into service. G. W. Vanderpool built this canal several years ago, before selling the property, but its use had been discontinued. Practically all of the south side of this place is thus put under irrigation.

Highway work is now over the hill out of sight from Maupin.

In Far East

Following a tour of duty with the American fleet of destroyers in the vicinity of Canton, China, Francis Joseph Paquet, formerly of Wapinitia, Oregon, is now with the U. S. Marines in the Philippine Islands, according to recent advises to Marine Corps Headquarters at Washington.

Francis is a member of the U. S. Marine detachment of the Cruiser Hdron, which has a roving commission to patrol the waters in the Far East. During the last few weeks the Marines of the Huron were temporarily assigned to duty with the fleet destroyers, and have been cruising about in the vicinity of Canton and Hongkong. They recently returned to the Philippines to resume their duties on the U. S. S. Huron, now lying in the harbor at Manila. That vessel will probably steam for other ports very shortly.

Francis lived at the home of his father, Mr. Oliver L. Paquet of Wapinitia, before he joined the Marine Corps at Portland, in July, 1922. Later he left for the Far East and was assigned to duty on the Huron.

Woodcock Bros. and crew have nearly completed set the light and power poles in Maupin.

weather; ice here was about half an inch thick, and though the sun shone Monday the ice thawed but meagerly.

Generally speaking, the farming in this community is not much more than half done. Some of the farmers who got at the plowing as soon as conditions would permit are now finished but very little harrowing has been done.

The annual Wasco county grade and high school track meet will be well attended from here. The Criterion school though having a scanty number of athletes to draw from, expects to give competition in nearly all the grade events.
