Water Contract Signed

Monday evening at a special meeting of the city council with Mrs. Staats in the office of the Maupin State Bank the preliminary contract was signed where by the city obtains of Mrs. Staats a perpetual lease of 300 gallons per minute flow of water. This amount is equal to that of our rights on the Johnson spring, and is conceded to be sufficient for a town of 4000 people.

Reservoir and pumping sites with right-of-ways are included in the deal.

The engineers are now working out specifications preparatory for beginning construction.

The city is promised the first refusal on the balance of the water.

Making these concessions, Mrs. Staats has shown a liberal spirit for the upgrowth and welfare of the town of Maupin of which she is the founder, and it is hoped that now the way out of our water difficulties is found and everybody will pull together and boost for a bigger, better Maupin.

Mr and Mrs Rodney Cooper were Dufur visitors Sunday.

Hotel Struck by Rock

Monday afternoon at 4:45 a rock about five feet in diameter which was being moved by the steam shovel at a point on the highway above the Hotel Kelly slipped from the chains by which it was being lifted and rolled down the hillside, hitting the rear of the hotel, breaking in the storeroom wall and floor and practically demolishing the contents of the room. Mrs. D. R. Williams who was resting in her room in front of the storeroom at first thought the jar an earthquake. She stated that had not the course of the rock been diverted by a pole lying in the back yard, and a board walk, from the kitchen door, it would undoubtedly have broken down the kitchen floor and have crushed their two sons who were at the time in the rear of the basement of the building.

The experience at the hotel recalls the instance fifteen years ago when the O. T. road was being built of a blast opposite the W. H. Williams residence which filled their yard with rock and demolished much of their household goods.

NEWS ITEMS OF LOCAL INTEREST

The managers of the local stores have concluded that they and their assistants require a reasonable period of physical rest and recreation and have placed cards in their windows specifying that their doors will be open only eleven or twelve hours a day for but six days of the week. Probably no other locality has enjoyed the number of hours of service which our merchants have been giving, and it is only right that we should arrange our shopping periods to come during reasonable hours.
