Farm in Family 103 Years
Little Rock.—Washington county farm land is worth keeping, or at least that is the belief of R. M. Morton, who lives near Farmington. Records show his farm has remained in the possession of the family since 1818, or 100 years. The land was acquired by the Mortons eighteen years before Arkansas was admitted into the Union.

The present-day Norfolk jacket is a reproduction of the chain-mail hauberk.

Rural Girls Best
Sacramento.—Girl students in rural schools far surpass the athletic records of their urban sisters, according to Dr. Herbert R. Stolz, state supervisor of physical education, in his annual report. Athletic proficiency in sports during the last few years has been particularly marked among the girl students generally, said the director.

A light lunch may be the result of a blond hair in the butter.

Insures Against Blindness
Little Rock, Ark.—The state secretary has just granted a charter to a Fort Smith company that will insure persons against blindness and deafness, and it is said to be the only concern of the kind in the world. Senator Claude Thompson of Fort Smith is president of the new concern.

German Plane Shows Economy.
Munich.—German manufacturers, limited by postwar regulations, are making very few airplanes. Nevertheless, a machine built in Munich recently flew from Rosario to Buenos Aires, Argentina, 265 miles, in one third of the time for the distance and at a cost for gasoline equal to the price of railway ticket.

The famous roads of Italy still mark the glorious days of the mighty Roman empire. The great Appian way was built in 312 B. C., and is still a wonderful road.

The grand total of mileage over improved highways aided by federal roads appropriations is 24,536 miles. This means that the motorist can now travel a distance equivalent to the circumference of the earth over highways which have been assisted in their construction by government funds.

STATE NEWS IN BRIEF.

Newport.—When the new link of the Roosevelt highway between Otter creek and the Siletz river is completed it will open to the tourist one of the really beautiful scenic routes of the state.

Salem.—The automobile caravan of the Oregon state grange, which was to have started on a tour of the state from here Monday, has been postponed indefinitely, according to a telegram received by local grangers Saturday.

Salem.—The Salem school board Saturday sold \$220,000 of bonds, issued recently, to Freeman, Smith & Camp company of Portland at \$100.696. The bonds will bring a premium of \$153,120. There were eight bidders for the bonds.

Salem.—The work of obtaining data for the biennial budget of estimated expenditures affecting state institutions and departments was started here under the direction of Carl Abrams, who recently was appointed secretary of the budget commission.

Freewater.—According to Commissioner Beah of this city, the county court at a recent meeting set a standard of wages to be paid by Umatilla county for the remainder of the year as follows: For man and team \$5 a day, day laborers \$3 a day, teams \$2 a day.

Hood River.—The center of gold mining activity in this section centers around Spirit lake, north of Stevenson, Wash., in Skamania county. Otto Fiest, who is packing for miners engaged in the region of Niglerhead mountain, says that 200 claims will be worked this summer.

Eugene.—The state highway commission has its portable paving plant at work on the new section of the Pacific highway just north of Cottage Grove and will move it from there to the overhead crossing at McVeigh Point, between Eugene and Goshen, the approaches of which will be paved.

Mill City.—Several million of salmon which have been in the ponds of the hatchery at Mehama for several months, have been released into the river and the hatchery will now be placed in readiness to receive the new eggs, which will be taken from the salmon at the racks near Detroit next fall.

Medford.—Miners have staked mining claims 17 miles from Rogue River, between the towns of Gold Hill and Rogue River, and are now mining the sites. Owing to the extreme low stage of Rogue river bedrock is easily reached and mined for gold. Rogue river is now the lowest ever seen by residents here.

Salem.—Sam A. Kozar, secretary of state, has announced that he will go to Salt Lake city, Utah, early next month, where he will attend a meeting of the secretaries of state from all sections of the United States. A number of important matters will be discussed. Mr. Kozar will give an address during the convention.

Hood River.—Reports from Stevenson, Wash., and Cascade Locks are to the effect that work on the interstate bridge, to cross the Columbia river below the Cascades, near the site of the mythological Bridge of the Gods, will be resumed in August. Borings for a pier on the Washington bank, it is stated, will be started next week.

Salem.—Attorney-General Van Winkle Friday sent to Stanley Myers, district attorney of Multnomah county, notice of appeal to the United States supreme court of the so-called compulsory school bill case. The necessary bond accompanied the appeal notice. The appeal is on the case brought by Hill Military academy of Portland.

Pendleton.—Several initiated petitions have been filed with the county clerk during the last few days. One asks that the state income tax law be repealed. Another would repeal the law creating the public service commission, and a third would make compulsory the workmen's compensation law in practically all hazardous occupations.

Astoria.—The majority of the logging camps in the lower Columbia river district are planning to close down for the summer holidays on June 28, and will reopen about 10 days later. The intention was a few weeks ago to start the midsummer shutdown about the middle of June, but since then there has been an improvement in the lumber market, and as a result the demand for logs has increased.

Salem.—The time for paying the second installment of the state income tax, which under the law is June 20, has been deferred until July 20, according to announcement made at the office of the state tax commission here. Members of the commission said the time for paying the second installment of the tax was deferred because of a suit now pending in the supreme court in which the constitutionality of the act is under attack.

Are Your Days A Pleasure?
Health Will Make Them So

Salem, Ore.—"For some years I have used Dr. Pierce's Golden Medical Discovery as a spring tonic and have never found it to fail in cleansing the system, stimulating the blood and giving a feeling of healthy life. At one time I was weak and run-down, felt all worn out and ready to go to bed, but the help I got from the 'Golden Medical Discovery' brought back to me a feeling of strength and new life. I shall always have a good word to say for this wonderful remedy for I have always found it good when a tonic was needed. I have also used the 'Pleasant Pellets' for the stomach, liver and bowels, and can say they can be depended upon to clear and regulate these organs."—Mrs. M.
