Our Pine Grove correspondence arrived too late for this issue. We go to press Wednesday night and to insure publication in the current issue we ask correspondents please to mail their items so they will reach us Tuesday.

Large size flashlights complete with battery, \$1.00 each. Maupin Drug Store.

**Eleven Years Ago**

We will have to ask the indulgence of our readers for the absence of items from the January, 1915, column of The Times, but the reason therefor is the failure of the then publisher of the paper to include papers of dates including January up to February 19 in the files. We will again take up the printing of "Eleven Years Ago" when we reach February 19 and will continue that column indefinitely.

**Minstrel Show Saturday**

Sew your buttons on tight, grease your laughing apparatus, secure your seats early and then prepare to put in an hour of real enjoyment at the minstrel show at Legion hall Saturday night. The Dufur Legion minstrels will hold forth on that date and will put on a show worth anyone's while to attend. The local Legion will hold a dance after the show, which begins at 7:45 sharp. Music for the dance will be furnished by a \$600 "Panatrop" a new fixture for the Brunswick phonograph, said to be the very best mechanical dance music purveyor extant.

**Gets His Patent**

A. Lincoln Hartman has been notified that his application for a patent on his improved ironing board has been granted by the Canadian patent office. Mr. Hartman is sanguine of having his application for patent in this country granted soon. The board is an improvement on any on the market and when he receives the necessary protection from Uncle Sam the inventor proposes to enter into the manufacture and sale of the boards on a large scale.

**Power Company Prosperous**

The Maupin Power company has figured up profit and loss for the year just closed and find a healthy sum on the right side of the ledger. The owners estimate a depreciation of 5 per cent on their investment of \$15,000, amounting to about \$721.00. Taxes on the plant and lines amounted to 18 per cent of profits. By not allowing salaries a dividend of approximately 8 per cent on stock was made.

If the irrigation system is extended on the Flat it is the intention of Woodcock brothers to extend their power lines to that section. If that is done "juice" will be carried from the plant to be installed at Oak Springs, work on which line has already been begun.

**Philip W. Knowles Dead**

Maupin people were shocked Monday morning when word reached here of the sudden death of Philip W. Knowles, a resident of Dufur and a man well known to many here. Death occurred early Monday morning, being caused by a paralytic stroke.

Philip W. Knowles was one of the early settlers of the Wamic section, having homesteaded a tract of land there many years ago. About 20 years ago he sold his holdings in the Wamic neighborhood and moved to Dufur; there he entered the mercantile business and later retired. For the past several years he had been living the quiet life, enjoying the competence he had accumulated.

Decedent leaves a wife and several other relatives to mourn his taking off. He goes to join his daughter, an only child who died in early womanhood. This whole section will mourn at the passing of this good man.

Carl Doll of Tygh Valley was doing business in Maupin yesterday evening.
