Service Our Watchword!

We offer our experience and advice to those considering building a home. Very often a person is greatly handicapped by not being able to procure the exact home he wants, because of not fully understanding the problems commonly met with. We will help you solve problems, and to the best of our ability, assist you in securing a desirable home for your family.

If you have nowhere found a house plan to suit you exactly, let us prepare an original set of plans. We want you to have precisely the house you have pictured in your mind. A special plan drawn from your ideas may be the way.

If you have a photograph or a cut of a house that appeals to you, bring it to our office and let us quote you a price on the materials. Again we say "Service is Our Watchword."

ONE thousand and thirty of Chicago's 11,785 auto accidents last year, according to the Stewart-Warner Safety Council for the prevention of automobile accidents, occurred between five and six o'clock, just when congestion is at its worst in the home-going rush. Only 47 of these 1,030 accidents were fatal.

Four o'clock is the children's zero hero. Thirty-three of the 182 children killed by autos in Chicago last year came to grief at four o'clock, playing in the streets after school.

Seven to nine is the dangerous time for adult auto fatalities, according to Chicago's 1924 record. Eighty-six of 353 such deaths occurred around the theater-going hours.
