Service Our Watchword!

We offer our experience and advice to those considering building a home. Very often a person is greatly handicapped by not being able to procure the exact home he wants, because of not fully understanding the problems commonly met with. We will help you solve problems, and to the best of our ability, assist you in securing a desirable home for your family.

If you have nowhere found a house plan to suit you exactly, let us prepare an original set of plans. We want you to have precisely the house you have pictured in your mind. A special plan drawn from your ideas may be the way.

If you have a photograph or a cut of a house that appeals to you, bring it to our office and let us quote you a price on the materials. Again we say "Service is Our Watchword."
