The Harry Lewis family spent Sunday in Maupin with their daughter, Mrs. Geo. Tillotson, and husband. They reside at Wapinitia.

E. Gramse, game warden for Hood River county, was investigating rumors of poaching in the Deschutes Tuesday. He went from here to North Junction.

Mrs. Jesseline Morrison, former publisher of The Times, called on Rev. and Mrs. J. I. Parker at Manor, Wash., Sunday. This we glean from a communication from Rev. Parker.

Harvey D. Slusher came over from Dufur Friday and when he returned on Sunday his mother, Mrs. W. H. Staats, went with him, remaining in Dufur until Sunday evening.

Mrs. Geo. L. Morris departed for a month's visit with her parents at Grangeville, Idaho, Sunday. George will try and eat his own cooking for a time, whether he likes it or not.

E. O. Martin, who has been in Maupin the past 10 days receiving treatment for blood poisoning in his right hand, left for his home at Gateway Tuesday. His hand is much improved.

The Staats fish pond now sports a fine boat, the handiwork of Gene Pratt of Wamic. Bill says that when he takes a ride all the smaller trout in the pond follow him around like trained hunting dogs.

Billy Heckman came in from the Connolly lambing camp Monday, after being away from town three weeks. Billy has been troubled with rheumatism in his feet and concluded to take a lay-off for a few days.

Andrew Crabtree, who has been visiting relatives at Scio the past 10 days returned to Maupin Tuesday. While away Mr. Crabtree attended the funeral of a niece, whom he had not seen for 35 years.

Mrs. Geiser has gone to the southern part of the state and will be engaged in work for the Degree of Honor during the remainder of the month. The professor says he is getting so he can almost eat his own cooking.

Among those gathered in by the traffic squad at The Dalles last week were a Hood River man and a former Dufur citizen. The Hood Riverite was assessed \$200 and given 10 days in jail, and the other paid \$150 and spent 10 days in the hoosegow.

Anyone finding auto license plate bearing number 163-783, are requested to return it to this office. We want to enjoy our car but do not want traffic officers to pick us up for driving with but one license plate. Believe it was lost between Maupin and Dufur last Sunday.

Charley Kramer indulged in another auto wreck Saturday night while on his way home from the dance. He ran head on into the car driven by Than Cavan, completely wrecked his Ford coupe and tore the fenders and running board from the Studebaker.

Shoemaker Wanted

Maupin needs a shoemaker and needs him bad. As it is now people wanting shoes fixed are compelled to send to The Dalles and pay postage two ways and add the price of the fixing. We believe a real shoemaker, not a mere cobbler, would do well here, as everybody wears shoes and they wear out occasionally and need fixing.

Picked Up About Town

Cecil Woodcock was recently heard to exclaim that "after a man has reached 40 he finds there is little else to expect except more of the same."

"Maybe the reason why girls always kiss and make up," says Hank Harpham, "is because the makeup is so easy to put back on."

According to "Dad" Fischer one thing that will cure vanity is to show a woman the proof of her picture before the photographer has retouched it.

Jimmie Chalmers says "it is a sure sign of spring when the small boy hides the hoe and rake, also the carpet beater."

In speaking of a quick worker Bob Wilson says "he was so fast that when he had the seven-year itch he scratched himself out of it in a year and a half."

John Confer is authority for the statement "that if the grown-up men of Maupin would show the same willingness to dig in the dirt that is manifested by the kids, food products wouldn't cost so much."

Jack Staats says "older residents of Maupin will probably recognize the new 'Charleston' dance as the old 'hoe-down' made over."

French Butler has arrived at the conclusion that this is a queer world—"banks have policemen to guard their money, but a grocer trusts his deliveryman with bushel of potatoes."

Prof. Geiser advises the good little boys to be like Jack Dempsey and never get into a fight.

Jim Woodcock is an ardent "wet." He wants to see water on Juniper Flat—and lots of it.

Kitchen cabinet for sale—in good condition, \$15.00. J. M. Morrow, at Butler's store. 22-12
