Sugar Coated Pills

You read the "head line talks" of the various stores in the papers, and by them are led to believe that in order to sell for less than some other store you must have at least TWO, or still better, a chain of stores. This is misleading propaganda. Your home merchant more than offsets the "bigger buys" by his Very Much Lower cost of doing business. Also your country merchant nearly always has several different lines, so that the overhead is spread so much that it is practically nothing as compared to the high rent chain or city store.

Our overhead is very low; we carry small surplus stocks and are able to buy for cash on the lower market. Take advantage of these specials

M'CORMICK-DEERING HARVESTER-THRESHERS

Specially Built for Hillside Harvesting!

ONCE OVER AND IT'S ALL OVER" yearly becomes the harvest slogan of a rapidly increasing number of practical, deep-thinking grain growers—men who know that low production cost is the surest guarantee of grain profits. These men are buying M'CORMICK-DEERING HILLSIDE HARVESTER-THRESHERS! First, because the McCormick-Deering is a proved success, both at home and abroad. Second, because they realize the value of dependable, close-at-hand Harvester Company service.

The M'CORMICK-DEERING Hillside Harvester-Thresher is a remarkable machine. Built for 12-ft. cut, this combination harvester and thresher cuts the grain, threshes it thoroughly, separates it from straw and chaff, and delivers it into wagon box or sacks. Straw is scattered at the rear as fertilizer for future crops.

eliminating use of twine, healing of shocks, and losses due to handling. "Once over" harvesting saves time and labor, and puts the grain in shape for immediate marketing when prices make this advisable. Grain cut and threshed with the McCormick-Deering is in every way equal to in quality or better than that cut and threshed with separate machines!

Plan Now for Harvest Time!

We suggest that you consider investment in one of these thoroughly modern and practical machines this year. Fully illustrated literature will be sent on request. Call on the McCormick-Deering dealer and learn more about this machine.
