Entered as second class mail matter September 2, 1914, at the postoffice at Maupin, Oregon, under the Act of March 3, 1879.

THE DANGER OF CREDIT

There appears to be a growing fear among the business men of this country that the public is "going credit mad," and that we are fast getting into a habit that is sooner or later going to cause a serious state of affairs throughout the entire country.

In a talk with a Maupin business man a few days ago he admitted that the tendency to over-use credit is growing in this community and that he understands the same thing prevails all over the country. More and more the public is growing away from the pay-as-you-go policy, and more of them are refusing to realize that as a general rule buying on credit grows into a habit that can easily become dangerous.

We understand that so serious has credit abuse become that a number of organizations in our larger cities are beginning to discuss a remedy. We hardly know what they will eventually suggest, but for the people of our community we believe a little more care in asking credit will prevent disaster. If you can pay cash, do so by all means. But if you must seek credit, then do so only after you are absolutely sure you will be able to meet all obligations. And then keep your credit good by paying those obligations promptly.

A TIMELY SUGGESTION

In order to clear the Sherar section of predatory coyotes a drive on those animals is projected. It is not proposed to kill the beasts, but drive them across the river, where hunters are stationed and who will kill them off. The scheme might work out all right, but what about the sheep the same coyotes might kill in their new hunting ground. The Predatory Animal department has been advised of the situation, but has done nothing to alleviate the destructive attributes of the animals. Drastic measures may have to be resorted to and the proposed drive may be the only means whereby the Sherar section can be rid of the coyotes.

PAVING GETS TIRED

It seems that there are some things that will make a concrete highway go to pieces other than poor materials, bad underlying drainage and too heavy loads. A professor of a Maryland university explains one of them. He calls it "fatigue."

If you bend a thin metal bar back and forth it will finally break in two. The molecules lose their tenacity. The crystals of the metal are pulled apart.

Under heavy traffic, parts of a concrete road may be made to rise and fall thousands of times in a day. At the center of this bending there is a strain exactly as there is a strain when you bend a metal bar. A crack develops and that is the beginning of disintegration—Toledo Blade.

If any Maupin man has a family with porthouse appetite when he is working on a soup-bone salary, our advice to him is to sing the doxology and turn out the lights.

Two things the average Maupin woman hates—knowing she is fatter than some other woman and knowing some other man makes more money than her husband.

NEWS OF PINE GROVE

Ernest Leaf and wife and Hanna E. Hedin of Portland were guests at the N. G. Hedin home at Pine Grove the past weekend.

Herb Hammer has severed connections with the Sam Brown ranch and is now making hay for B. L. Forman.

Charles and George Davis are working for Ed. Mathews on the Sam Brown ranch, stacking hay.

Pine Grove is showing great activity these days, as many road builders are making this place their headquarters.

Fred Laughlin is among those cutting wood on the new highway. He is using a new Vaughan wood saw.

School being out for the summer vacation there is a consequent lapse in sending items to The Times. However, Pine Grove items will appear as often as happenings merit publication.

Hankering For Revenge

Madras baseball team suffered defeat at the hands Maupin players last Sunday. The teams will play a return game next Sunday on the Maupin grounds. Madras will try to allay the sting of defeat by winning the game. Of course Maupin won't let them. Be at the game and help us win.

Married at The Dalles

Miss Lucile Shear and Clifford Palmateer, young people of Wamic, were married at The Dalles yesterday afternoon.

NOTICE FOR PUBLICATION
Department of The Interior
U. S. Land Office at The Dalles, Oregon, May 15, 1926.

Notice is hereby given that **SEPHUS V. GOTT**, of Shaniko, Oregon, who, on May 3, 1924, made Homestead Entry under Act of Dec. 29, 1916, No. 023471, for s1-2nw1-4, el-2sw1-4, s21-4, s22-4, Township 7-South, Range 16-East, Willamette Meridian, has filed notice of intention to make final three year proof, to establish claim to the land above described, before F. D. Stuart, United States Commissioner, at Maupin, Oregon, on the 30th day of June, 1926.

Claimant names as witnesses: Tom Miller, Thomas Jones, W. H. Lang, Arthur Wallace, all of Shaniko. Oregon. m20-j17 J. W. Donnelly, Register.

HOGS

In 1925 Oregon and Washington brought in from the east of the Rocky Mountains, live hogs and pork products to the value of \$9,000,000.00

It is estimated that each year, California consumes pork products to the value of \$50,000,000.00 of which 90% is brought in from outside that state.

This money is being sent away from the Pacific Coast territory because our farms are not producing sufficient hogs to supply the Pacific Coast market.

Here is a home market for a home product that is being overlooked. A few more hogs on each farm will keep a lot of this money in the west. Think it over.

This information by the Livestock State Bank of North Portland, Oregon.
