BETTER BOYS

We believe every Maupin father and mother will be interested in a statement made by "Uncle Joe" Cannon a few days ago, and now going the rounds of the press. "Uncle Joe," for many years leader of the lower house of Congress, says the world is growing better because records of institutions for the correction of juveniles shows a steady decrease in population. He has studied the reports from not only his own state, Illinois, but from many other states and finds that fewer boys are being sentenced to reformatories, industrial schools and houses of detention than at any time in recent years.

"Uncle Joe" argues that this reflects better home conditions and also a more general determination on the part of parents to see that their boys are not permitted to spend all their time in idleness when they are not in school. He feels sure parents are coming to realize that it is their duty to encourage their boys in learning a trade, with the result that more and more of them are showing a desire, at an early age, to earn money.

"Uncle Joe" is optimistic, and sees a generation ahead far more skilled in industrial and commercial life than any generation that has gone before. That certainly ought to be good news to fathers and mothers who have boys growing up to take their places in the ranks of that generation.

In the matter of mixed farming we call attention to the profits of one rancher living near Criterion. Last year this man milked 14 cows, had a profit of better than \$1,000 from them. He sold hogs to the amount of \$500, had a lot of chickens to turn off, besides clearing a neat sum on his grain. Ranchers on the Flat, where a little water is available, can do even better.

The Bend Chamber of Commerce sends out an interesting little pamphlet descriptive of the scenic beauties surrounding that city and invites the editors, who will go to Prineville next week, to make a side trip and take in Bend and environments. The suggestion is a good one and no doubt will be accepted by many of the visiting newspaper men.

The old pessimistic cry of "no

but the fishermen on the Deschutes cannot be too fly, for they get their flies of me."

Jack Staats says "what makes life so hard is that the fellow with a small salary always has big bills."

"If every woman was as keen about keeping sweet as she is about keeping young," sings Ben Fraley, "divorce lawyers would starve to death."

"Why is it," asks Bob Wilson, "that beauty and work never are never close companions?"

Since John Confer has been shearing sheep he says "the 'blah blah' of some men sound like 'bah bah' to him."

Julius Shepfin says, "some men are so crooked that the only way they can walk in a straight line is to hike backward."

"Shorty" Foster usually maintains an even disposition, but when a man brings in a Ford of the vintage of 20 years ago, and wants it converted into a Cadillac, "Shorty" waxes wroth. He says "the Lord made the heavens and earth in six days, but it is beyond the power of man to accomplish what the customer asks to be done in a lifetime."

Eleven Years Ago

From The Times, June 18, '15

Dufur defeated Maupin in the baseball game here last Sunday. Up to the eighth inning Maupin was scoreless, but in that inning they gathered two. The game ended in Dufur's favor, 3-2.

N. W. Finn had the misfortune of getting his limb broken and badly crushed last Tuesday while logging for Chas. Walker. He was taken to The Dalles hospital.

The new road just completed by H. M. Greene and Earl Tunison makes travel over the Criterion-Maupin route shorter, and allows adjacent land owners to straighten their fences.

James H. Brown, who had a homestead two miles east of Bakeoven, was found dead Monday by a comrade, heart failure being supposed to be the immediate cause of death. Interment was made Wednesday in the Buzzan Cemetery, Rev. R. G. Ellis of this place conducting the services.

Mr. and Mrs. R. F. Smith have taken charge of the River-view hotel, having opened for business the first of the week.

Plank was delivered on the steel bridge Wednesday, to replace that in present use, which is becoming somewhat worn.

E. J. Fischer says he has about sold out his last carload consignment of autos and is ready for another carload.

Mrs. Roney, who has been visiting with her aunt, Mrs. Johnson, went over to Jim Cook's for a short visit Sunday and will soon return to her Spokane home.

There is some talk of celebrating the Fourth at Wamic or at Smoek. Some favor a joint celebration of Smoek, Wapinitia and Wamic at Gate creek, while others want a picnic and ball game at Wamic.

Grazing Research

Local forest rangers have fenced off two sample areas on which there is less than 25 per cent ground cover. These tests are being made to determine why feed does not grow in cer-

tain favorable sections of our cattle and sheep ranges. The tests will spread over a period of five years and are expected to disprove belief that the cause is from overgrazing.

Mills Closed Down

Local forest rangers have closed the Wasco Pine and the West-fall sawmills, and they will be kept closed until the operators comply with the fire protection clauses in their contracts. These require the piling of logging slash as well as supplying tools with which to fight fires in the areas controlled by them.

Evil Spirit of Sea

Fear'd by Sailors

Punta Flechas, a promontory on the northeast coast of Palawan, Philippines, has become a well-known landmark to Yankee skippers voyaging to minor ports of the Philippines to pick up cargoes of sugar, coconuts dried into copra to be shipped to vegetable oil mills, and Manila hemp and other fibers for the cordage industry. An interesting superstition of Filipino sailors attaches to the name Punta Flechas, which means in English Arrow point. The granite cliff figures in Philippine mythology as the dread abode of an ogre of the sea who could conjure winds and typhoons to trouble the water of Dumarang channel and wreck the little navies of those who refused to pay him homage. He demanded prows in his worshippers, and the way to appease his wrath was to sail close under the cliff and launch arrows into it. Shots falling short were an evil omen—if they are not yet.

HOGS

In 1925 Oregon and Washington brought in from the east of the Rocky Mountains, live hogs and pork products to the value of \$9,000,000.00

It is estimated that each year, California consumes pork products to the value of \$50,000,000.00 of which 90% is brought in from outside that state.

This money is being sent away from the Pacific Coast territory because our farms are not producing sufficient hogs to supply the Pacific Coast market.

Here is a home market for a home product that is being overlooked. A few more hogs on each farm will keep a lot of this money in the west. Think it over.
