THE PEDDLER AGAIN

Maupin is one of the best towns
in this state, and one of the best
smaller towns in the United
States. Her merchants are ag-
gressive, honorable men whose
promises can be accepted at par.
Their stocks of merchandise are
well assorted and ample to meet
the requirements of the town
and surrounding community.
We venture the assertion that
practically every article needed
in the home or on the farm can
be found right here in our
home stores and bought as low
as it is priced elsewhere.

Our merchants are without
exception always ready with
their time and money to do any-
thing that will make this a bet-
ter community in which to live
and raise a family. All of which
brings us to this point: The
country is now flooded with ped-
dlers, selling everything from
patent collar buttons and new-
fangled sleeve supporters to
kitchen ranges and traction en-
gines. Some of it is standard
merchandise—most of it is not.
But whether it is or not, the fact
remains that the most expensive
merchandise in the long run is
that sold from door to door; that
the cheapest and most satisfac-
tory is that you get thru regular

channels and with the guarantee
of a dealer you know. The auto-
mobile has brought several things
that are not for the best interest
of our smaller towns, regardless
of the blessings that have come
with it. One of the things it
has brought that isn't going to
be of any benefit to us is the
"auto hobo." And another is
the house-to-house peddler.

When a Maupin woman starts
on a trip she can have a good
time worrying over how terrible
it would have been if she had
forgotten to bring along some-
thing that she hadn't forgot.

It is estimated it costs \$6801 to
rear a girl until she is 18 and
\$6761 to bring up a boy. The
difference represents about four
trips to the hair-dresser.

A Washington newspaper has
discovered that Speaker Long-
worth wears a nightcap. The
Anti-Saloon League should look
into that.

A government report says the
average size of an American
family is 4.9. Every Maupin
father knows who that nine-
tenths is.

After a Maupin man has done
a whole lot of it he doesn't care
whether you call it "perspira-
tion" or just plain sweat.

Business may be getting back
to normal but the cotton stock-
ing factories will never be work-
ing over-time any more.

A Big One

Little Mary's father is a teacher
and keeps pretty close tabs on her
school work.

Her arithmetic gives him more con-
cern than anything else. At lunch
time on the day when she had her
final examination in arithmetic he
asked her what mark she got.

To which she mournfully replied:
"The biggest nought I ever saw."

Picked Up About Town

"One way a woman can keep
from worrying about getting
fat," says Bob Wilson, "is to
have a half-dozen children to
worry over."

We happened to remark the
other day that any fool can drive
fast, nowadays, and Bill Staats
finished it by saying, "Yes, and
and any fool does."

"Even at that," declares
Verne Fischer, "it is safer to
have a woman on the back seat
driving than one in the front
seat hugging the driver."

Carl Dahl, in speaking of the
sheep business, says the success
of that calling depends upon
ratio and proportion—a heavy
ratio of wools and a corre-
sponding proportion of wool.

"From the number of people
going to the north pole," is the
way Konrad Hauser puts it, "it
looks like a hot-dog stand up
there would be a paying propo-
sition."

"When a person deliberately
sets out to poison his neighbor's
dog," comments Jack Staats,
"it shows the poisoner has less
common sense than the poison-
ed."

Maybe our radio gets on some-
one's nerves and to render it
noiseless for the time being that
person deliberately cut the
ground wire.

Bates Shattuck says "things
are about even in this country.
What a man saves on federal
taxes he has to pay out in in-
creased local taxes."

Jim Woodcock says that "if
they didn't have company once
in a while some couples never
would say anything nice to
each other."

Scientists say that of all noises
a baby's cry has the gaeatasat
carrying power. And Dad is
usually the carrier.

Eleven Years Ago

From The Times July 9, '15

Maupin baseball team played
three games at Shaniko on the
Fourth, winning all of them.
The first was against Shaniko,
which the Maupinites took by a
15-6 score; the next was with the
Manhattans of The Dalles and
our boys won by a 19-14 score.
The concluding game was with
Shaniko. Maupin was winner by
a score of 21-7. Those games
concluded the season for Maupin.
That team has played 10 games
and of that number the scores
in seven games were in their
favor.

Wednesday, June 23, a son was
born to Mr. and Mrs. T. F. Far-
low of Wamic.

B. D. Fraley and family re-
turned from Portland Sunday
evening. They were there a
couple of weeks having little
Cyril's eyes treated.

G. W. Mallatt and bride ar-
rived from Portland on the eve-
ning train Tuesday. L. E. Kelly
took them out to their Bakeoven
ranch that day and upon nearing
home the newlyweds were es-
corted to the ranch by several
friends and neighbors. They
were married at Vancouver on
July 1st.

Mr. and Mrs. Ellis took up
residence in the parsonage Wed-
nesday and are at home to their
friends.

The Slusher Bros.' threshing

machine arrived from Dufur the
first of the week and is attract-
ing much attention at the rear of
the Staats store.

From now on every public
spirited citizen should preach
prevention of forest fires. (That
sentiment of 11 years ago is op-
erative today as it was then.)

Several showers of rain and
strong winds were experienced
last week in this part of the
county. The rainfall on the
east side was very heavy one
day the first of this week.

Among local citizens taking in
the games at Shaniko on the
Fourth were Dr. Francis, E. J.
Styer, R. S. Slusher, E. J.
Fischer, L. D. Kelly and E. A.
Mayhew and families.

Rev. G. D. Wood has been ap-
pointed pastor at Wamic and
preached his first sermon there
last Sunday.

Miss Maude Smith, daughter
of L. M. Smith of Dufur, was
drowned at Salem Sunday. She
attempted the rescue of another
girl who had stepped into a deep
hole while wading in the river.

L. D. Kelly made a trip around
on the Columbia Southern to
Shaniko this week, looking after
baseball interests, returning
with E. J. Fischer Wednesday.

Hank Harpham and wife left
this morning for their ranch.
Mrs. Harpham returned a few
days ago from the hospital, and
is now able to be up.

AID TO BEAUTY

Under this young woman's skillful
hands the front of the Administrator
Building of the Sesqui-Centennial In-
ternational Exposition Association
quickly takes on a delightful aspect.
She directs gardeners where to place
the small trees and shrubs about the
great stucco building. She is doing
her share to make the big celebration
of the 150th anniversary of the sign-
ing of the Declaration of Independ-
ence a success.

HOGS

In 1925 Oregon and Washington brought
in from the east of the Rocky Mountains,
live hogs and pork products to the value
of \$9,000,000.00

It is estimated that each year, Califor-
nia consumes pork products to the value of
\$50,000,000.00 of which 90% is brought in
from outside that state.

This money is being sent away from the
Pacific Coast territory because our farms
are not producing sufficient hogs to supply
the Pacific Coast market.

Here is a home market for a home pro-
duct that is being overlooked. A few more
hogs on each farm will keep a lot of this
money in the west. Think it over.
