Entered as second class mail
matter September 2, 1914, at the
postoffice at Maupin, Oregon, un-
der the Act of March 3, 1879.

THE HARVEST

The wheat harvest, which began several weeks ago in the southwest, has already moved on into the middle west, and is now on in eastern states, and once more wheat is moving from the field to the market.

It should cheer the hearts of Maupin people to know that this year's grain production is above that of 1925, though they will learn with regret that the growers are not going to get as much for it, from all present indica-

tions. It all depends on how much will be sent to other countries, and until their own harvest is over there are no means of telling how much they are going to need. As matters stand, the outlook is for a combined winter and spring wheat production of 768,000,000 as compared with 669,000,000 last year. The carry-over from the old crop, however, is estimated to be only 55,000,000 as against 86,000,000 in 1925, so that is one thing in favor of the growers. The total supply in the U. S. thus promises to be 823,000,000 compared with 755,000,000 in the 12 months coming to a close. Sudden changes in weather may revise these figures a little, but not much.

So Uncle Sam's flour barrel seems safe for another year, and even tho it looked a little blue earlier in the season; even though other crops may still be backward, and even if the usual bumper corn crop fails to turn out as we hope it will, starvation is not staring us in the face by

any means. We are again going to have much to be thankful for when November rolls round.

We heard one Maupin man say yesterday that the time has about come when it is as hard for a rich man to enter heaven as it is for the poor man to stay on earth.

Why is it that every time something is done to relieve the farmer he has to put a new mortgage on the place?

It doesn't hurt to tell the truth once in awhile, so here goes. Maupin men talk just as much as women and say less.

The man who is always blowing his own horn usually hasn't much of ear for music.

Picked Up About Town

"If the New York fad of painting knees hits this community it'll be hard for some of us to recognize the old joints." Such is the observation of Jack Staats.

Doc Elwood is some political reader. Here is his latest: "Talk about 'one-man' tops, what's the matter with Italy's new dictator."

"What makes the farm relief failure so serious with congressmen," declares Bob Wilson, "is because he used to be able to smooth over such things with a lot of garden seeds."

"In the eyes of a young girl the man without a country is sad enough, but the country without a man is sadder," according to Cecil Woodcock.

Clarence Ziggenhagen is a new dad and here is how he sizes things up: "If you really want to know who is the most important around the house when an emergency arises, just notice who has to get out of bed when the baby cries at night."

Billy Heckman is an observing young fellow. He remarked the other day that "farmers do a lot of worrying when their calves are out; but young girls don't any more."

Verne Fischer says that "as a general rule tight nuts cause more fivver accidents than any thing else."

"A good many men like flattery," says Bill Staats, "even though it seldom comes up to their good opinion of themselves."

Doctor Hedger wants to know when and where a person must have a license to breathe. We suggest the county health board and the county seat.

Our son says that when our new typesetting machine is installed, which will be next week, he will be able to "slug" anybody.

Tom Henneghan and ye editor fished at Frieda Sunday. Tom discovered that fish were feeding on moss. One small one he pulled out was covered with river verdure and Tom remarked "it is the first 'mossback' trout I ever saw."

Call For Bids

The directors of School District No. 46, hereby ask bids on a school building 20x28 feet in size, to be built on the L. B. Kelly place on Juniper Flat. Plans and specifications may be seen at the store of E. A. Hartman, Wapinitia, Oregon. Bids will be closed Monday, August 2nd. The school board reserves the right to reject any and all bids.

E. A. Hartman, Chairman.

Eleven Years Ago

From The Times July 30, '15

Ben Gable and Miss Lona Speichinger were united in marriage at the Catholic church at The Dalles on July 24. Following the ceremony a wedding breakfast was served at Hotel Dalles, after which the newlyweds left for the groom's home ranch near Wapinitia.

Oil in quantities from six to ten barrels daily is flowing from the well being drilled near Dufur. Geo. A. Beavis, who is in charge of drilling operations, prophesies a much stronger flow as the hole is driven deeper.

A movement is now on foot to establish a road from the Ridge-way end of the present highway to Kaskalla, South Junction and on to Gateway, thus cutting off 30 miles to the interior of Eastern Oregon from the present traveled route. (That road is now a part of The Dalles-California highway.—Ed. Times.)

In the case of the man arrested here last week, charged with having broken into the Fitzpatrick store at Tygh, the county will be put to an expense of \$200.00.

Ernest Doty of Freewater, arrived Friday and will be employed at the Hunts Ferry warehouse.

Webb Thomas, an uncle of Mrs. D. B. Appling, is spending the summer at the Appling home at Criterion.

Lester Brittain suffered a severe accident on the hill leading to Tygh creek the first of the week. He was on his way to the creek for a swim when his brakes gave way and his bike threw him about 20 feet. In striking his collar bone was broken and he was otherwise badly shaken up. Dr. Brown is attending him.

Attending Convention

W. E. Hunt attended the Wool Growers' convention at San Francisco last week. He was accompanied as far as Portland by his daughter, Miss Genevieve Hunt, who is attending a business college in that metropolis.

We want country correspondents. Who'll volunteer?

I. O. O. F.
WAPINITIA
Lodge No. 209, Maupin, Oregon, meets every Saturday night in I. O. O. F. hall. Visiting members always welcome.

Get The Best!

You Can't Laugh This Off

It has been figured out that if the sum of \$1.00 had been deposited in a saving bank at 6 per cent on the day of Christ's birth, the interest on it up to the present day would pay off all of the national debts of all of the nations in the world.
And interest piles up just as fast today as it has at any time in the history of the civilized world.

Did You Know

that the only reason more people are not saving is because they have not learned how fast interest on money mounts up? Why not start on the one road that leads to Comfort and Happiness—the Thrift Road?
Our time is yours if you will ask for it—Drop in and let's talk over the benefit of a saving account—A dollar will start one.
