GOING FISHING

Along about this season of the year the average Maupin man begins to feel the effects of the warmer temperature. He rolls out of bed minus the "pep" he feels when he gets up from a good night's rest in the fall and winter months, and by the time the sun climbs to the center of the sky and sheds its warm rays straight down he feels the temptation to yawn, to lessen his speed in working and walking—he sort of wishes he had a good excuse to go fishing.

Man, you don't need any excuse—just pick up and go. The fact that

you are going to be where you won't be able to fish is excuse enough for doing a little of it now. Pres. Coolidge once said he couldn't see anything to it, and yet since he caught a fish a few weeks ago they can't get him up as early in the morning as he would like to get up—just to go fishing. It isn't the fish a fellow catches that does him the most good, it is the fact that he is, while he is fishing at peace with the world and with himself. Fishing brings a fullness of heart and a quiet, peaceful joy of living that no other outdoor sport can produce. It is restful—and that is what the average man needs for both body and mind along about this time of the year.

Don't wait for an excuse to turn up—take a day off and go fishing now. You'll be worth twice as much to yourself and your community tomorrow. You may not catch any fish—but that doesn't make much difference. You'll get rest and rest is often far better than medicine.

MAKE STANFIELD TRAITOR

The efforts of a certain coterie of politicians to compel Robert N. Stanfield to come out as an independent candidate for the office of United States senator to succeed himself, savor of treason. Mr. Stanfield was before the electorate of Oregon as a republican; he was defeated and accepted the nomination of Fredrick Steiwer with good grace. He even went so far as to promise his successful rival all the assistance in his power, showing he was mindful of clean politics. Those who failed to accept the result of the primary election, and who seek to place Senator Stanfield in the field as an independent candidate must be striving to accomplish the election of Bert Haney, the democratic candidate. To split the republican vote in this manner would throw the balance of power toward the party of Bryan and Wilson, and would seem to prestage the defeat of both Mr. Stanfield and Mr. Steiwer.

We do not believe Robert N. Stanfield would so demean himself as to accept a nomination at the hands of the so-called "Independents." He was elected as a republican; sought nomination at the hands of the republicans, and we believe is still a republican. He is a true American and has about as much use for a traitor as has all true citizens of this great republic. That he would accept a nomination which would stamp him as a traitor to his state and party, as well as to himself is beyond belief. Sober thought on the part of those who would cause him to be classed with Judas and Arnold, should lead them to realize that the man they would force to accept a nomination at their hands, is too patriotic and too sensible to be deceived by their stultifying efforts.

Any Maupin married man can tell you that before he was married he hated it if his socks wrinkled at the ankles but after he got married he didn't care if they didn't have either heels or toes.

We heard a Maupin woman say recently that moths are no more plentiful than they used to be but that with present styles it only takes one moth to eat up a whole dress.

A Maupin man never realizes what a big boob he is until he goes into a big city store with his wife on a shopping tour and the first place she stops in the underwear department.

The old days were those in which the Maupin man who happened to get a little too much liquor didn't have to take a friend along to identify him at his own front door.

When you see a man kicking a stray dog you can bet he is the kind of fellow whose wife and children hate to see him come home at night.

HISTORY IN CAKE

This replica of historic Independence Hall in Philadelphia is a fine example of the baker's art. It was made by the chef of one of Philadelphia's leading hotels to advertise the Sesqui-Centennial International Exposition, which will open in that city June 1 and run to December 1 to celebrate the 150th anniversary of American Independence. The "State House" stands on a table at the entrance to the main dining room of the hotel.

You Can't Laugh This Off

It has been figured out that if the sum of \$1.00 had been deposited in a saving bank at 6 per cent on the day of Christ's birth, the interest on it up to the present day would pay off all of the national debts of all of the nations in the world. And interest piles up just as fast today as it has at any time in the history of the civilized world.

Did You Know

that the only reason more people are not saving is because they have not learned how fast interest on money mounts up? Why not start on the one road that leads to Comfort and Happiness—the Thrift Road? Our time is yours if you will ask for it—Drop in and let's talk over the benefit of a saving account—A dollar will start one.
