Subscription: One year, \$1.50; six months, 75 cents; three months, 50c

Entered as second class mail matter September 2, 1914, at the post-office at Maupin, Oregon, under the Act of March 3, 1879.

BACK TO BOOKS

The sound of the school bell is once more heard around Maupin, and while it doesn't come as sweet as music to the ears of every boy and girl, we believe it finds more of them anxious to get back to their studies than was the case with youngsters of the older generation. That may be accounted for from the fact that they have brighter and more comfortable schoolrooms, or more convenient ways of getting to school. Or it may be that text-books are not as dry as they used to be and that new methods of teaching are more interesting.

These help some to take the sting out of school routine, of course. But we candidly believe the present generation of young people realizes the serious side of life more fully than did the older generation when it was in school. Today's boys and girls know that the greatest handicap that can befall one is the lack of education; they know that the better they employ their hours in the schoolroom the greater will be their opportunity for enjoying the comforts and even the luxuries of life when they have finished their studies and out in a world, where everyone must fight his own battles and where the fighting gets harder and harder every year.

At any rate school days are here once more and every word of encouragement you can speak to the youngsters as they pass, books in hand, will help to lighten that which they consider a heavy load. They are doing their part in getting ready to carry on when you have finished. Show them you have confidence in their ability to do a good job of it by cheering them on their way with a smile and a kind word or two.

THE BEST LOSERS

They give the farmer credit for being the world's champion complainer and yet he isn't entitled to that reputation. A farmer will complain when a hot spell wilts his corn or when a hailstorm beats down his wheat, but a city crite makes more noise when the same sun wilts down his collar and the same hailstorm interferes with the ball game. A farmer may get discouraged at crop failures and low prices but there are more farmers who can crack jokes over their luck than there are city men can get a chuckle out of a real estate slump or a dull merchandising season. Somebody has pictured the farmer as a "chronic complainer" when the fact of the business is he is a far better loser than the city chap. And if you think he isn't just stand around and listen to the city man squawk when the weather isn't just exactly what he would have it if he had the job of making it.

Maybe if Maupin men took as good care of their complexions as women do nature would give them better looking faces to work on.

Uncle Sam's figures show that each American should have \$2.01 but some of us miss this amount by several hundred dollars.

Henry Ford is now building airplanes. When it comes to transportation the sky is the limit with him.

Some men live to a ripe old age and others go out hunting and pull the gun through a fence.

ON THE SESQUI LAGOONS

Here are Americans, visitors to the Sesqui-Centennial International Exposition in Philadelphia which celebrates the 150th anniversary of the signing of the Declaration of Independence, riding about the lagoons in an Italian craft, a gondola, from which they view the buildings and displays from many lands. In the distance can be seen the mammoth Sesqui Stadium; to the right is the signal tower of the United States Coast Guard building and exhibit, and to the left is one of the Japanese pagodas which dot the exposition grounds. The Grecian pavilion is one of the permanent structures on the site before the city government decided to build the Sesqui at the front door of the great Philadelphia Navy Yard. The Exposition continues until December 1.

More Deer Hunters.

W. H. Staats, W. H. Williams and Grover Slusher left today for the Cascades, where each will try and bag a deer. Williams took a gun along to shoot his wish.

Measured City Springs.

T. Leland Brown, county water master, took the measurement of the flow from the city springs Wednesday. The measure was taken at the foot of the rams and showed a flow of 3.8 second feet. The springs were measured in 1923 and the flow at that time was about the same as now. This shows that about the same amount of water flows from the springs at all times.

Sold Many Articles.

The booth conducted by the Ladies Aid of the local U. B. church at the fair was very well patronized, goods to the amount of \$26 having been disposed of.

Will Attend University.

Miss Winifred Kaiser is preparing to attend the state university at Eugene this school year. She will leave for the big Willamette Valley town the latter part of next week.

Campers at Olallie Lake.

Many have camped at Olallie Lake the past week. Some very good catches of eastern brook trout have been made, as the heads left on the ground near the lake testify.

Make your start to school a pleasant one by getting the right kind of supplies at the Maupin Drug Store.

Pine Grove School to Open.

The Pine Grove school will begin its sessions on Monday next, Miss Overman will again serve as teacher. The school will have an enrollment of 25 and all courses, from the

first to eighth grades, will be taught.

Killing Native Grouse.

It is reported that hunters are at work near Coyote Butte and on the Flat killing native grouse and Chinese pheasants. Of course the season is not open, but to some people there is no such thing as an open or closed season on game, and the hunters spoken of are of that class.

Another Deer Hunting Party.

Bates Shatteuk, Joe Kramer, Johnnie Williams and E. E. Selert composed a party who left for Wolf Creek after deer this morning. Their grounds lie in the Blue Mountains. Mr. Serlet is a brother-in-law of Bates and hails from Vancouver, Washington.

Returns to Mulino Home.

J. J. Mallatt, father of George Mallatt of the Bakeoven district, and who has been visiting with his son and family for some time, has left for his home at Mulino, Oregon. The elder gentleman is a civil war veteran, he being one of the youngest in the United States of record.

Fertilizing Wheat.

We have received an interesting article on wheat fertilization from F. M. Gill of Dufur, which will be published next week. Mr. Gill says he has applied the fertilizer himself and knows, from experience, just what beneficial effect it has on growing grain. Watch for it, ranchers.

Card of Thanks

The Ladies Aid wishes to thank the fair board of the Southern Wasco County Fair for the booth at the Tygh Valley Fair.

Mrs. Lester Kelly, Pres.
Mrs. Everett Richmond, Sec.

For Sale.

Vaughn woodsaw, light weight. Has cut but 35 cords of wood. May be seen at Richmond's Service station. \$65.00 takes it. 44-42

For Sale.

One hundred and fifty-seven ewes and 127 lambs. E. H. Ashley, 43-42 Tygh Valley, Oregon.

You Can't Laugh This Off

It has been figured out that if the sum of \$1.00 had been deposited in a saving bank at 6 per cent on the day of Christ's birth, the interest on it up to the present day would pay off all of the national debts of all of the nations in the world. And interest piles up just as fast today as it has at any time in the history of the civilized world.

Did You Know

that the only reason more people are not saving is because they have not learned how fast interest on money mounts up? Why not start on the one road that leads to Comfort and Happiness—the Thrift Road? Our time is yours if you will ask for it—Drop in and let's talkover the benefit of a saving account—A dollar will start one.
