PICKED UP ABOUT TOWN

Now that we are going to have a city election we suggest that a change in government be made. Let's adopt the city manager style and elect Al. Kennedy as manager. A says he has tamed all the horned toads on his ranch and thinks he is qualified to tame the wild people of Maupin.

Politics seem to have a bad effect on some people. The democratic candidate who was too much occupied to note the speed of his auto and who turned his machine over on the west hill last Thursday, would have done better to have that of the road instead of his chance of election to a state office.

A certain officer who lately "grabbed off" a couple of bottles of hooch and who says he has them sealed as evidence, without having

STAR

The New Star with Timken Tapered Roller Bearings

Timken Tapered Roller Bearings are regular equipment on the new Model 24 Star. Running in oil, these bearings afford a light, free running windmill which will pump water efficiently in an 8 to 10 mile an hour wind.

Wheel arms and braces are of angle steel, wheel parts are galvanized after completion, turn table is ball-bearing, rubber stem is of angle steel, and an effective brake is provided.

This new Star will provide you with dependable pumping power, operating in the lighter breezes, and save you the annoyance of frequently climbing the tower. Good for years of service.

We have one of these new Stars on display. Come in and see it.

arrested the owners, seems to lack those qualities which made the Pinkertons famous.

We'll bet more lead has been packed into the hills during the present deer season, in the form of bullets, than will be mined in the next decade. And the number of deer killed contains but a small fraction of the soft metal.

The editor of this great family journal was summoned before the Water board last Friday night to answer to a charge of having turned water on after the marshal had shut it off. We had an iron-clad alibi, therefore escaped shooting at sunrise.

Fishermen of Maupin are in arms against the proposition to turn 10% of the hunting and fishing license fees into the general fund of the state. The consensus of opinion is that the proposed measure is iniquitous, confiscatory, diabolical, outrageous, damnable and stinks to heaven of unripe politics.

Some of the subscribers cannot read writing and not much that is printed. We have joggled their memories regarding their delinquencies on subscriptions, but have failed to see but little of the coin they owe us. We are thinking seriously of printing a list of such, and if we do there'll be some squirming.

Link Harpham says his boys, Jimmy and "Buck," are working hard down on the farm. "They get up in the morning, milk the cows, drink the milk, and then go back to bed."

Vote the Republican Ticket

ELECT
Frederick Steiwer
U. S. SENATOR

The election of Steiwer as U. S. Senator from Oregon is of national importance. By virtue of republican control of the senate Senator McNary holds the chairmanship of the important irrigation and agriculture committees. If the voters of this state should go so far afield as to elect a democrat it might mean a loss of republican control of the senate and a consequent surrender of Senator McNary's vital committee chairmanships.

A vote for Steiwer, the regular republican primary nominee is a vote for republican control of national affairs.

ELECT
I. L. Patterson
GOVERNOR

Patterson is familiar with the problems that would confront him as Governor of Oregon. A farmer, he understands the problems of the farmer. A business man he knows the needs of business. He promises fair and just treatment for all. He will seek to lower taxes through a reduction of the cost of state government. He will not follow established precedent and spend most of his time away from the state capital.

Patterson will be your Governor, on the job, attending to the business of the state as it accrues.
