PARENTAL AMBITIONS

Parents in these days of jazz and flappers are probably more prone to higher ambitions concerning their offspring than were the old folks of years ago.

Regarding their daughters many desire them to qualify for the concert stage, as stenographers, beauty specialists, teachers of music, etc.

A STRONG PLEA FOR A COMMON HUMANITY

(concluded from first page) Wasco county knows that the good officers of law, order and protection to humanity and animals are only pruning at the evil instead of laying an axe to the root of the matter.

Lets us use our influence to see that the \$14,000,000 to \$19,000,000 poured into the Indian service annually buys something besides numberless fuztills.

THE more I think about it the less I like the idea of having two outsiders at our Christmas dinner.

"They were given to understand that it was a family dinner when they were invited. They are friends of one of the members of our family, Mary, and out of courtesy to that person I think it is the least we can do to entertain them."

The great day dawned upon a house decorated with Christmas tree, wreaths, holly and mistletoe, and occupied by two busy, enthusiastic persons.

Represented Undertaking Co. Bert Thomas, well known undertaker, was in charge of the burial of Mrs. Ernest Doty last Sunday.

Slide On White River. Sometime during Sunday night a mass of dirt and rock came down off the hill side on the White River grade, a short distance from the bottom.

Good Bookings At The Movies Joe Kramer has booked two fine western stories for his shows on Sunday and Wednesday of next week.

He will when some one suggested that he sing. Thus putting himself and the family at ease with his sociable manner, by the time the dinner was served the family no longer felt stilted or restricted by the presence of these strangers in their midst.

After dinner Ross was urged to sing again. He persuaded or rather insisted that Eddy assist him with his tenor voice. They made a great pair. They kept the party going. Their entertainment was decidedly successful.

Mary met her mother going into the kitchen to prepare supper. "Mother, aren't they grand? What would we have done without Eddy and Ross? They have simply made the day."

THE HONORED COLORS

WE ARE the colors red and green. How we are honored! How could Christmas be Christmas without green and without red to help in the gay decorations?

Algernon Noseup—the Bundle That Cured Him

IT WASN'T his real name, but people thought he deserved it. Like a top, he carried a swelled head upon a small foundation.

It was a bundle that cured him. As he stalked to his door with his eyes on the church steeple he fell over it, and as he opened it that Christmas Day and found that a number of his neighbors had conspired to warm his heart with tokens of kind consideration.

"SAVINGS CLUBS BETTER THAN INSTALLMENT PLANS"

"People, instead of warning their friends against the installment buying, should harness the principle behind it into a constructive force. They can do this by urging them toward the habit of installment saving instead of installment spending."

"The first place for the average person's surplus money is in a savings bank. The primary investment which he should make is in a bank book. Today there are so many high pressure schemes for capturing the surplus income of the worker that we are apt to forget the fundamental principle which is represented by the savings account."
