

Chain Store Prices

WE have completed arrangements with a Grocery Jobber in Portland whereby we are enabled to buy on the same basis as any chain store. This will enable us to give you prices and quality that no one else in Maupin can give you. Every where obsolete business methods are giving way to the modern. Long credits, which tend to raise costs—make the man who pays help to pay for those who fail to pay their bills.

We believe there are enough people in this vicinity who want their dollars to purchase all they possibly can. At the prices we will make you, you can afford to borrow money to pay your grocery bills each month.

Bob Wilson III

Bob Wilson made a business trip to Portland last week, returning on Saturday evening. On the way home he contracted a cold and for a couple of days was confined to the house. He suffered some with the prevailing sore throat, but Bob has so far recovered as to be able to be at his duties at the store.

Good Pork

Hogs weighing between 180 and 230 pounds will ordinarily produce the best and most economical cuts of meat for family use. Hams and shoulders from such hogs will weigh 12 to 15 pounds, with loins and bacon strips at about 9 or 10 pounds. If the pig has been well fattened, not only will he produce more lard but also the flavor of the meat will be improved. If the pig is given a 24-hour fast before slaughter, with plenty of water available, the carcass will drain more thoroughly and produce a better product.

Shed Horses At Tygh

James Chalmers was called to Tygh Valley last Thursday to shoe several horses on the Mays ranch. Such is Jim's work that his services are in demand in the horseshoeing line all over this section.

At The Dalles Hospital

Mrs. Wm. Beckwith went to The Dalles hospital on Sunday last in the hope that treatment there will have the effect of restoring her to health. Mrs. Beckwith has been under the weather for some time, and instead of getting better continued on the decline. Her many friends join in the hope that she soon may be restored to good health.

Had Finger Mashed.

Last Sunday, Willie C. G. Mater was working on his Ford he was so unfortunate as to get his hand caught between a spoke and the brake drum. The result was the Mater is carrying around a very sore digit, one of his fingers having had to bear the brunt of the squeeze.

Wiring Tygh Valley Hall

J. W. Temple was at Tygh Valley several days this week, engaged in wiring the Odd Fellows hall there. Temple is an all around workman and his services are in demand whenever a really fine job of work is required. Tygh recently was connected up with the White River power plant and nearly every business place and residence in the town is now enjoying power and electric lights.

Fressie Martin Ill

Fressie Martin is the last Maupinite to join the ranks of those who are suffering with the prevailing sore throat and hard cold. Monday morning this last victim found it almost impossible to swallow, while an intermittent cough attested the fact that a cold had him in its grip. As we go to press Fressie is somewhat better, although still confined to the house.

Shattuck Down Again.

Bates Shattuck suffered with quinsy several days during the past two weeks. His ambitions caused him to be around the store Friday, but on Saturday he suffered a relapse. Consequently he was confined to the house from that day until Tuesday, when he showed up for a short time. He's better, but somewhat weak.

Carl Pratt Around Again

Carl Pratt wrenched one of his limbs severely about three weeks ago and for most of the intervening time has been confined to the house. He has so far recovered as to be able to be around again and expects to soon resume his mail route.

Shakespeare said "The Play's the Thing," and that saying was aptly proven Friday night at the school auditorium. When the underclass students show theaptitude for dramatic as was shown that evening old Shake was right in his declaration, according to the verdict of Jim Woodcock.

"Well, Mary, I'm glad you proposed to me anyway," said Grandpa. There are some men in Maupin who would be pleased to say the same words to some women had they the chance.

Rev. Hazen says the efforts of a minister to instill christianity into the hearts of the people has its compensations. He is holding a series of evangelistic meetings at the church and the attendance is increasing nightly, which makes him feel good.

Joe Kramer had good cause to cuss Sunday night. Just as he was ready to throw a picture on the screen one of his machines went haywire. At that he did not cause any long waits by using a single projector.

A Bakeoven sheepherder came to Maupin Saturday and caused many of our people to think he was the stranger, searched for all over the country. He made himself conspicu-

ous by calling at residences and, when admitted, proceeded to make himself at home.

"Good goods come in small packages." Frank Stuart received a small package the other day, containing several thousand dollars, and Frank stated each bill was as good as gold, being backed by Uncle Sam. We could have stowed the whole away in one of our pockets, so small was it.

L. V. Broughton has reason to be proud of his chess playing. One evening recently he "took in" the acknowledged champion of this section, E. W. Richmond, and at that he is no player, but just a student of the game. Some student.

Similarities of slogans occur in Maupin garages. Fischer says that "when Fischer fixes your car it stays fixed." Temple's slogan is "if your car can be fired Temple can fix it." And at that both make claims that borne out by their work.

A certain county commissioner says it is the intention of the county board to make a new grade and fix up the Bakeoven-Shaniko road. It might be a good idea to carry out that intention and begin actual work. A drive over that highway at the present times makes an auto driver hold tight to the steering wheel and watch his curves if he wants to keep out of the canyon.

From The Times Jan. 14, 1916

The cold weather of the past two weeks still continues, accompanied by snow, which is now about six inches in depth. The thermometer reached zero the past two nights. Sleighting is fine, the snow being dry and sifty.

The snow of the past three weeks has been more like the real article since 1911-12, when the snow over the Criterion section was nearly four feet deep and lay on the ground for several weeks.

Saturday night the I. O. O. F. lodge held its first business meeting since moving from Wapinitia. Quite a representation from Wapinitia was present and greatly helped in the work. After the business meeting Mrs. Job Crabtree, while at the spring for water Wednesday morning slipped on the ice and sprained one hip quite severely.

ing a dance, free for all, was held, with music furnished by the Maupin orchestra. During the evening a delicious luncheon consisting of salads, pie, cake and coffee was served.

Last Monday morning, while enroute to school Miss Herrling was thrown from her cart, her head hanging downward until Gertrude

Mathes jumped out and stopped the horse. Miss Herrling was compelled to go around on crutches several days after, owing to having a badly sprained ankle.—Criterion Cor.
