OxooooooooooooooooooooXO  
o ELEVEN YEARS AGO o  
XooooooooooooooooooooXO

From The Times March 10, 1916  
About 15 inches of snow fell at  
Wapinitia Saturday night. Sunday  
morning a chinook wind removed  
most of the snow, but left the roads  
in an almost impassable condition.

Criterion people are anxious that  
a telephone line be built to connect  
with that of the Maupin switchboard,  
and in order to acquire same held  
a meeting recently to talk the matter  
over. They organized a company  
with Dale Bonney as president, C.  
A. Duus secretary-treasurer, and C.  
A. Duus, Dale Bonney, A. A. Can-  
field, J. A. Miller were appointed to  
draft a constitution and by-laws.

Frank Magill, mail carrier at  
Smock, makes his deliveries on horse  
back, the roads being in such condi-  
tion that traveling with a rig is im-  
possible.

A marriage license was secured at  
The Dalles on March 4th by Ralph  
B. Bailey and Dollie May Ball, both  
of Bakeoven section.

John Donaldson was thrown from  
his wagon while up Bakeoven near  
the Connolly ranch on Monday. A  
culvert gave way, letting the vehicle  
through. One wheel passed over  
John's foot, bruising it badly, while  
he also sustained a wrenched back  
and several bruises on his head.

Sunday night's Oregon Trunk  
trains were both delayed by land-  
slides—one between Sherar and Fall-  
bridge and the other about four  
miles up the river. The ditcher  
came up from Fallbridge and re-  
leased the trains Monday afternoon.

Shattuck Bros. have sold their  
present store building and lots to  
Dr. Elwood. Shattucks will vacate

the two east rooms in a few days,  
and then Dr. Elwood will put in a  
stock of drugs. The doctor is to  
have possession of the entire build-  
ing in two months, by that time  
Shattuck Bros. figuring they will  
have a new 40x90 concrete building  
ready for occupancy.

**BUILDING PROGRAM**

It is estimated new building con-  
struction over the country for 1927,  
will reach \$5,000,000,000, while  
expenditure of more than \$4,000,-  
000,000 will be required to cover  
replacements and ordinary repairs.

**OREGON NEWS NOTES**

Powers—Bray Mountain Dude  
mine claims to have 100 tons of ore  
on the dump, worth \$400 a ton.

Sandy—Cannery at Scenic station  
will be doubled in size this year.

Eugene—Fruit Growers' cannery  
will open early in April, canning  
rhubarb.

Molalla—Eastern & Western Lum-  
ber Company will open logging  
camps here.

Astoria—2,000,000 yearling sal-  
mon released from Klaskanine  
hatchery.

Klamath Falls—Addition being  
built to \$150,000 new Willard Hotel.

Condon—Wool sales here being  
made at 80 to 32 cent a pound,  
lamb's at 10 cents.

Roseburg—Broccoli shipments  
reach seven cars a day, with crop  
ripening rapidly.

Tillamook—County dairymen may  
raise \$100,000 fund for processed  
cheese industry.

Bend postoffice receipts for first  
three months of 1899 were 75 cents,  
for last quarter of 1926, \$12,336.

Portland—Apple exports for 1926-  
27 season pass 1,459,483 boxes, and  
6,500 tons dried prunes have been  
exported since January 1.

Hood River shipped 5185 cars of  
apples and pears, 1926 crop.

**Farm Reminders.**

Bordeaux spray—6-6-50 strength  
—is put on now for peach leaf curl  
if not already applied, says H. P.  
Barnes, plant pathologist of the ex-  
periment station. It will soon be too  
late to control the disease with bor-  
deaux. Lime sulphur is used later  
but cannot always be depended on to  
give good results.

Selection of the best tubers for  
seed potatoes is made now according  
to the Oregon experiment station.  
The best size for seed is 4 ounces.  
Tubers well filled out on the ends  
are desirable. Better results are ob-  
tained when the stem end of the tu-  
ber is clipped. Tubers that show  
discoloration are thrown out of the  
seed stock. Potatoes with deep eyes  
apparently carry less disease than  
smooth ones.

Garden slugs are controlled in  
Oregon by applying a combination  
spray and poison bait, according to  
J. Wilcox, assistant entomologist of  
the experiment station. Plants are  
first well covered with bordeaux  
spray of 4-4-50 strength. Bait made  
of 1 ounce of calcium arsenate mix-  
ed with 1 pound of chopped lettuce  
leaves is scattered around infested  
plants in small heaps. Cutworm  
poison bran mash, with calcium ar-  
senate as the poison, is of nearly  
equal value to the lettuce leaf bait.

Small white insects found on  
house plants in Oregon are control-  
led by spraying, says the entomolo-  
gist of the experiment station. The  
insects are known as green-house  
white flies. A spray of whale oil  
soap 1½ ounces, and water 1 gal-  
lon, is satisfactory. This kills the  
insects by contact, so several applica-  
tions at weekly intervals are  
necessary.

The sheen on properly mercerized  
cotton is permanent. True mercer-  
ization makes cotton fabrics strong-  
er, and very attractive in appear-  
ance. For summer dress goods mer-  
cerized cottons are hard to equal.  
They are durable, cool, and easily  
laundered.

**Rabbit Skins**

More than 100,000,000 rabbit  
skins are now utilized annually in  
this country, about 98 per cent of  
which are imported. Of this num-  
ber about 55,000, dressed and dyed,  
are made into fur garments and into  
trimmings for women's coats, suits,  
and dresses. The remainder, not  
suitable for garments, are used as  
linings for men's and boys' gloves  
and in the manufacture of felt, used  
chiefly for making hats. With the  
disappearance of many of the fine-  
pelted fur bearers from many parts  
of the United States, the use of rab-

**One Death Per 1000 Autos  
in a Year Is Record of U. S.**

**1 Person is Killed and 28  
Injured annually for every 1000 Auto-  
mobiles in this Country**

ONE out of a thousand is the relationship between the annual automobile fatalities and the number of motor vehicles in this country, according to the Stewart-Warner Safety Council for the prevention of automobile accidents, which has undertaken a strenuous campaign of automobile safety and accident prevention.

And for every fatality there are at least 28 accidents serious enough to get on record. This does not take into consideration minor sprains and bruises or people suffering from nervous shock as the result of being in an automobile accident.

To appreciate what a vast army of killed and injured is annually conscripted by the reckless motorist and careless pedestrian, a comparison may be made with American casualties in the great war. Over a third as many people are killed annually by the automobile as there were American soldiers killed on the field of battle during the entire war, while the number injured each year is nearly three times as great as the number of our boys who were wounded throughout the war.

bit skins is steadily increasing. Aid-  
ed by modern processes, American  
fur dressers and dyers have become  
so expert in changing the colors and  
appearance of furs that in many in-  
stances the pelt of the rabbit, under  
a variety of trade names, is replac-  
ing other skins more costly and at-  
tractive, as ermine, seal, beaver, and  
leopard.

**Information For The Housewife**

Unbleached muslin makes excel-  
lent slip-on covers for mattresses.

Try hot gingerbread, split and  
spread with cream cheese mixed  
with chopped dates and nuts.

**Starting The Calf**

A 50-pound calf at birth should  
have about 8 pounds of a gallon of  
milk a day, and one weighing 80-90  
pounds should have about a gallon  
and a half. It is better to start to  
give too little than too much. Feed  
the milk at the same temperature—  
about 90 degrees—all the time.

**THE BANK HOTEL**

The one place in The Dalles to  
make the rancher and out-of-  
town fellow feel at home.

Hood River—24 cars of aspara-  
gus to be shipped from here this  
year.

**Quake Destroys "Golden Rule Orphanage"**

CABLED dispatches from Ar-  
menia indicate that "Golden  
Rule Orphanage," one of the  
Near East Relief institutions in Leni-  
nakan, formerly Alexandropol, Ar-  
menia, has been destroyed by the  
series of earthquakes that cost hun-  
dreds of lives and made thousands of  
persons homeless.

The above picture was taken a short  
time before the earthquake and was  
intended in the nature of an appeal  
to the people of America to observe  
International Golden Rule Sunday  
again this year in order that funds  
might be provided for the maintenance  
of the orphanage.

The building in the picture has been  
wrecked and the six hundred chil-  
dren who framed the message are  
living in tents—with snowstorms rag-  
ing and the temperature at zero.

More than a million dollars will be  
required to aid the earthquake victims  
and to care for the 9,000 children in  
Near East Relief care in Leninakan  
until June.

To aid them people are asked to ob-  
serve Golden Rule Sunday by serving  
the simple menu of a Near East Relief  
orphanage in their homes and then  
contributing to the organization at 151  
Fifth avenue, New York City.

Official reports confirm a total of at  
least 500 dead, 80,000 homeless, the  
destruction of 12,000 homes, much  
property and a large part of the coun-  
try's food supply. Again the Armenians  
win their sad distinction to the title of  
the "martyr nation." But al-  
ready the work of reconstruction has  
commenced, under American leader-  
ship.

**Modern smokers enjoy the  
mellow fragrance of Camel**

THE smokers of this modern age appreciate the smooth,  
mellow fragrance of Camels—that taste and goodness that  
come from the choicest tobaccos grown. Camel's steadily  
growing popularity with modern smokers has given it the  
greatest preference any cigarette ever had. In quality and  
in fame Camel is supreme.

Meet the cigarette that has won the modern world. There  
is not another like it—regardless of the price. Always mel-  
low, always mild—the smoothest smoke ever made.

"Have a Camel!"
