Seed Time

The seed is in the ground and all that is to be
done now is to wait for harvest. Those people
who have been planting seed in the form of de-
posits in this bank are the ones who will ulti-
mately be sure of the right kind of harvest—
one which will provide ease and comfort in their
declining years. That is the right sort of seed
to sow. There never is a short crop when such
is put in the bank, for the longer it remains in
that soil the larger the crop. Come in and let
us explain the matter to you.
