

Busy smokers of today select Camel as their favorite smoke

PRESENT-DAY people, the fastest workers of all time, claim their right to enjoyment. And they choose Camels for the utmost in smoking pleasure.

Camel is made to please and delight the modern, experienced smoker. It is rolled of the choicest tobaccos grown. It is matchlessly blended for mildness and fragrance in the smoking.

Let Camels demonstrate their goodness and you'll know why the smokers of today choose them over all other cigarettes. For that exalted sense of taste-satisfaction, no other smoke can compare with this one. "Have a Camel!"

 Falls City—Luckiamute Cooperative cannery well under way here.
 Canby—Work begins on the new union high school.
 Coos county to experiment on a large scale in growing broccoli.
 Clatsop county ranchers will harvest record hay crop this year.

Attention, Voters and Taxpayers

Mr. Taxpayer and Voter:

- Do you know that the assessed valuation of Wasco County is \$22,006,815?
- Do you know that your tax levy is 42.88 mills on the assessed valuation above?
- Do you know that your property is now bearing all the tax burden it can carry?
- Do you know that The Dalles' proportion of the equalized tax of \$17,779,007 is \$4,433,606, and that the balance, \$13,345,401, is what you help to pay?
- Are you in favor of increasing your taxes by an extra levy of more than \$22,000 this year, with the same attached to your taxes next year?

These are matters of vital interest to your pocketbook and to your family as well. A certain coterie of men at the county seat have initiated a measure which will appear on the ballot at the election on June 28, calling for the voice of the people of Wasco County regarding the proposed tax levy. Do you want the called-for sum levied against the taxable property of the county? If you do, then vote for the levy. Perhaps you are not aware just why the people mentioned ask for a tax levy. It is for the purpose of providing an additional fair grounds for Wasco County, taking part of the county farm for that purpose, and for the erection of exposition buildings, constructing a race track, grand stand and other accessories of a fair grounds. Perhaps you also know that some progressive men of Southern Wasco County have expended their money and time in establishing a fair grounds at Tygh Valley. That that fair grounds is ample for Wasco County and that the taxpayers are not solicited to give one cent toward its support. If the extra levy carries it will mean the death of the Southern Wasco County Fair Association and a consequent loss of every dollar expended on the fair grounds. Are you in favor of such a plan? Tygh Valley fairs have always been successful undertakings. They always have had displays of farm produce, livestock, as well as many things made in the home. It always has paid its premiums and always has carried out its programs. If the bond issue carries such exhibits will be missing at the so-called county fair, for it is Southern Wasco County which supplies the bulk of fair exhibits.

We are asking your support to defeat the tax measure, not so much because of the damage it will do our fair, but because we believe a majority of property owners of the county realize they are taxed all they can stand, and that an additional tax at this time would be a burden absolutely unnecessary and uncalled for.

We, therefore, ask that you vote NO on the proposition to raise taxes in the sum of \$22,000 at the June 28th election.

Sincerely yours, SOUTHERN WASCO COUNTY FAIR ASSN.

(Paid advertisement by SOUTHERN WASCO COUNTY FAIR ASSOCIATION.)

PROGRESSIVE RED CROSS CAMPAIGN FOR HEALTH

Public Health Nursing, Nutrition and Home Hygiene Work Cover the Country.

Important contributions to public health were made by the American Red Cross through its Public Health Nursing Service, Nutrition Service, and in instruction in Home Hygiene and Care of the Sick. In every State and Alaska, with the exception of Delaware and Nevada, instruction was given by the Red Cross, also in the Philippines, Hawaii, Porto Rico, and Virgin Islands. A total of 57,370 women and girls learned to make a hygienic home, and care for the sick in their homes.

The United States Public Health Service estimates that adequate rural health nursing service would cost \$2,000,000 annually, but would save a billion dollars in value of human life, earning power, and economic observation. The American Red Cross, through its Public Health Nurses, of whom there were nearly 800 on duty the past year, is doing its part in meeting this requirement.

The Red Cross, through its nutrition service, taught thousands what to eat for health. In this country, 24 States were served with from one to ten Red Cross Chapter nutrition programs in each State. In 35 States, nutrition instruction was given either through the regular nutrition instructors or through volunteer dietitians. During the school year an average of 15,413 individuals a month, including parents, teachers, pre-school, and school children, were assisted to a better knowledge of food in its relation to health, and how to apply it to their daily lives. In March, 111,313 individuals received this instruction, while during the year 3,588 classes were conducted and 6,450 conferences and home visits were given by nutritionists, thus reaching thousands of individuals.

The Annual Roll Call for Membership from November 11 to 25 is an invitation to all persons to assist in maintenance of such services through another year by enrolling in the American Red Cross.

RED CROSS SERVICES SHOW UPWARD TREND

Disaster Relief, Veterans' Aid Foremost in Fiscal Year. Services All Vital.

Expenditures by the American Red Cross for the last year showed a mounting curve as compared with those for the preceding year—\$11,892,869.35 as against \$10,321,679.80. The outstanding appropriations were for disaster relief and assistance to disabled veterans. For disaster relief the American Red Cross expended \$3,871,827, of which the National Organization contributed \$3,642,827, and the Red Cross Chapters \$229,000. For disabled veterans, a total of \$3,628,178 was called for, of which National Headquarters appropriated \$1,641,178, and Chapters, \$1,987,000.

The disaster relief figures do not include the Florida operations, which occurred after the end of the fiscal year, in addition to the work for disabled veterans, the Red Cross continued its work on behalf of men in the Regular Army and Navy and Marine Corps, which called for a total appropriation of \$509,451.

The enrolled nurses' reserve, from which nurses for disasters and other emergencies are called, cost \$47,382, borne entirely by the National Headquarters. Public Health Nursing, a part of the Red Cross program of national health work, cost \$866,323; instruction in home hygiene and care of the sick required \$152,466 in nutrition instruction, \$164,167 was expended.

The Red Cross campaign to reduce deaths from accidents and drowning, conducted by the First Aid and Life-Saving Service, called for \$352,355, and has shown tangible results in lives saved annually.

The Junior Red Cross, one of the foremost peace influences in the world, was carried on at a cost of \$31,053. All local Chapter activities of the Red Cross cost \$823,000, while other domestic operations of the Red Cross, borne by National Headquarters, amounted to \$264,040.

Read The Times. \$2.00 the year.

INSTRUCTION IN RED CROSS FIRST AID SAFETY FACTOR

Its Industrial and Educational Service Spreads Throughout the United States.

Signs that the United States is awake to the menace of its increasing accident toll are apparent in the growing interest in first aid instruction as offered by experts of the American Red Cross.

Approximately 20,000 juniors and seniors completed the First Aid course during the fiscal year, passed rigid examinations and received Red Cross First Aid certificates. This represents an increase of 2,500 over the preceding year, and this gain is attributed to the emphasis on health education by various public bodies including not alone the American Red Cross and Government agencies, but life and accident insurance companies, and athletic and recreational groups.

In Dallas, Texas, playground supervisors are required to hold First Aid certificates. In many high schools the subject is included in the regular curriculum. In order to assist in training instructors for this phase of the work, special courses have been conducted in the summer schools of such leading institutions as the University of Maryland and the University of Virginia. Instruction was continued during the year at Loyola University, New Orleans; University of California, San Francisco; University of Kentucky; Temple University, Philadelphia; Peabody Teachers' College and similar educational centers.

Work with the public utilities group has shown an exceptional increase during the year. Classes conducted by fourteen of the associated Bell Telephone companies were continued with increased interest and a number of the companies sponsored intensive courses in First Aid for instructors.

The First Aid Instruction Car of the Red Cross was busy throughout the year. In the 125 cities visited by the car 900 meetings were held with an aggregate attendance of 94,000 persons.

Membership of the people in the American Red Cross makes such services possible, the annual opportunity of pledging support through membership being offered in the Roll Call from November 11 to 25 this year.
