Regarding Irrigation

Strange as it may seem the Wap-
initia Irrigation company did not
run so much more water over Wap-
initia Plains this year than during
a normal or average season. One
reason for this is the respect of the
farmers generally for the regula-
tions of the water, which has made
the same flow go farther and often-
er.

Where this spring seven feet of
snow lay in the forest, it has been
seen at 11 feet. Under co-operation
with the ditch walker things are as
they should be. Proper conserva-
tion of water and working together
to the end that all who need are en-
abled to secure their proportion,
speaks for greater production and
better crops. Time is coming when
the Wapinitia Irrigation company
will be able to supply more water
than it now is doing, and when that
time arrives the Wapinitia Plains
will be most attractive to settlers,
and they will come without invita-
tion.

It has been proven that alfalfa
yields bountifully on those lands;
that the value thereof far exceeds
that of wheat raised per acre, and
that it is a yearly crop. Dairying is
on the increase in that section, and
The Times makes the prediction that
before many years Wapinitia Plains
will take their place among the lead-
ing dairy sections of the west.

Another thing conducive to a gen-
erally great settlement of the Plains
is the road program. Our new roads
will open up markets and provide
a means of reaching markets with
produce. With the completion of the
present road program and the

construction of a few market roads
this section will blossom like the
proverbial rose and ultimately be-
come one of the richest sections of
Oregon.

The Wapinitia Irrigation compa-
ny has greater possibilities than
any other irrigation system in Ore-
gon. None are larger under private
management; none closer to the
large market of the state—Port-
land—while none have lower land
values.

Extending Rural Service

Farm electrification has passed
the experimental stage in this
country. In the past year a total
of 227,500 farms in 27 states were
supplied with electricity and 175
uses for electricity on the farm
were found. The number of farms
now served represents an increase
of almost 87 per cent in three years.

In view of the agricultural dep-
ression of the last three years, the
extensive electrification of rural
districts is a remarkable achieve-
ment, and it is predicted that by
1932 about 1,000,000 farms will
have the service, and that by 1938
the total will reach approximately 3-
000,000, or half the farms in the
United States.

Wheat Harvest Approaching

In a few days now the hum of the
big combined harvesters will be
heard in the wheat fields of Ore-
gon's "Inland Empire" east of the
Cascades, and from all accounts a
splendid yield of grain will be re-
alized. Another cheering fact is
that everything points to a favorable
market, with good demand and good
prices, although latest reports indi-
cate that there will be a bigger crop
in all the wheat growing sections
than was expected a few weeks ago.

Connecting Phone Line

George Tillotson put up an individ-
ual phone line Tuesday, connecting
directly with the central station.
Heretofore he has been on The
Times line.

Painters in Town

Messrs. Wilson and Miller, paint-
ers, decorators and paper hangers
from Silverton, Oregon, are in town
and are prepared to do work in their
line. Orders left at The Times of-
fice will receive their prompt at-
tention.

Hauling Lumber

Tim Linn in hauling lumber from
Maupin to be used in repairing the
Hedin mill, which the Linn's have
leased, and which they will start op-
erating next week.

Prohibition Inspectors Call

A couple of inspectors in the pro-
hibition service called on the Mau-
pin Drug store Tuesday morning and
checked up on the quantity of alco-
hol in stock by Dr. Stovall.

Ready to Cut 800 Acres

Ed Bothwell and sons are prepar-
ing to get into their wheat and other
fields. They began heading opera-
tions today and before completing
cutting will go over 800 acres of
grain.

Abbott Sheep in Hills

J. P. Abbott has dispatched two
bands of sheep to the hills and to-
morrow will send the rest of his
flocks there. The Abbott bands
number 3,000 old sheep and 2,500
lambs.

Taken to The Dalles Hospital

Among those told of as being
admitted to The Dalles hospital in
Monday's Chronicle the name of
J. H. Kistner was mentioned. Mrs.
Kistner lives at Tygh Valley and
went to the hospital on Sunday.

Dance in Honor of Visitors

Mr. and Mrs. Sam Carlisle of
Klamath Falls are guests at the
home of Ben Richardson at Pine
Grove, visiting Ben with other
friends. A dance was held in their
honor Tuesday night at the home of
Ed D. Davis.

Visitor From Kentucky

Mrs. Rose Shearer, mother of Mrs.
H. E. Wray of Wapinitia, and cousin
of M. I. Shearer, is a visitor with
her relatives on the Flat. Mrs.
Shearer comes from Monticello,
Kentucky, and will remain in this
part until spring.

Hauled Power Poles

Cecil Woodcock has been busy the
past week hauling poles for the new
power line from Oak Springs. The
poles were cut in the mountains and
are of cedar. About 200 poles have
been cut and hauled and strung
along the right-of-way.

Took Baby Pictures

L. V. Broughton took his picture
taking outfit to Tygh on Wednesday
and made several negatives of the
babies at the clinic held there that
day. Broughton's pictures are all to
the good and he has about all the
work he can do in that line.

Will Photograph Shaniko Babies

Photographer Broughton will go
to Shaniko tomorrow and there will
photograph the babies at the baby
clinic held there, at which the
youngsters of Shaniko and Antelo-
pe will be examined by Miss Sena
Peterson, county health nurse.

Delivered Farm Machinery

On Monday Bates Shattuck deliv-
ered an International combine to
Dee Talcott and a tractor of the
McCormick-Deering make to Don
Miller. Shattuck Bros. have sold
three combines to ranchers in this
section this season, as well as much
other machinery for haying and har-
vesting.

Gypsies in Town

A band of Gypsies blew into town
Wednesday afternoon from up the
highway. One of them had a mon-
key on a string and when remun-
erated to his satisfaction put the ani-
mal through a few tricks. Other
members of the band peddled bask-
ets around town and some of the
women solicited money by telling
fortunes.

Took In Circus

George Tillotson and wife and
Gus Derthick, wife and Miss Alda
Pugh went to The Dalles Tuesday
evening for the purpose of seeing
the Al. G. Barnes circus. George
says he went to take the baby, so
the young hopeful might see the ele-
phant, while Gus' chief object in go-
ing was to learn exactly what a sea
lion and a zebra looked like.

Leased Maupin Garage

Charles LaPlant, from Kelson,
Washington, yesterday entered into
an agreement with B. D. Fraley
whereby he will take over the Mau-
pin garage and conduct it for a pe-
riod of three years. Mr. LaPlant is
an electrician and auto mechanic
and comes here with the best of
recommendations. He will arrive
here next Tuesday with his house-
hold goods and will occupy rooms
in the Ben Cook building, taking
over the garage the next day.

"That's the best camp ground on
The Dalles-California highway," is
the oft repeated expression of those
who have stopped at the Maupin
Camp Ground.

BORAH AND MOSES SAY IT'S
COOLIDGE AND McNARY

New Hampshire Senator Has Change
of Mind—Declares for McNary
as Vice-President Candidate

The National Farm News speaks
thusly regarding presidential timber
and mentions the fact that both Sen-
ator Borah and Senator Moses say
that President Coolidge may have
another term if he so desires, also
that Senator McNary of Oregon is
looked to as a possibility for the
vice-presidency. The Farm News
says:

Recent statements by Senator
Borah of Idaho and Senator Moses
of New Hampshire are to the effect
that President Coolidge, will, if he
so desires, be nominated for a third
term and, furthermore, that he will
be elected.

Senator Moses, however, did not
confine himself to presidential pos-
sibilities, as he is quoted as giving
an interview in Portland, Ore., in
which he expressed the opinion that
Oregon would furnish the vice-presi-
dential candidate as Mr. Coolidge's
running mate next year.

It is presumed that the Senator
was referring to Senator McNary of
McNary-Haugen fame, chairman of
the Senate Agricultural committee,
and co-author of the farm relief bill
which President Coolidge vetoed at
the last session of Congress.

It has been reported that Senator
McNary is attempting to effect a
compromise for presentation at the
next session of congress that will be
agreeable to both the farm bloc and
the administration. Should he be
able to engineer this compromise it
is figured that it will add consider-
ably to his strength.

The West, however, appears to be
holding on tenaciously to the Mc-
Nary-Haugen bill principles and it
seems doubtful if they will agree to
a compromise. Then, too, the Low-
den boom seems to be gaining mo-
mentum in that section.

Dr. Clarke in Maupin

Dr. Clarke of the Clarke Optical
company, Portland, was in Maupin
on his regular monthly visit on Mon-
day. Dr. Clarke is a old-time friend
of The Times man and while he was
here the two indulged in reminis-
cences of old times.

Quarreling with his fellow flier
made Levine, Chamberlain's fellow
passenger in their recent European
flight, look like the dirty deuce when
it came to passing out honors.

Attention

CAN YOU FIND YOUR PAPERS
—in an emergency?

Have you ever suddenly needed
certain papers for some business
emergency, and have hunted through
your desk, vainly seeking them?

This has happened to many with
losses in dollars and opportunities.

A safe deposit box for storage
and safety would have prevented all
such losses. Many men and women
are now keeping their valuables in
safe deposit boxes in this bank. We
highly recommend that you, too,
adopt this plan.

The cost is trifling and your valu-
ables are absolutely safe.
