## Girl's Own Story Clears Maupinite of Charge of Law Violation

The following from Thursday's Chronicle will inform our readers regarding the disposition of the case in which The Times man has figured since the adjournment of the May grand jury, and about which there has been much speculation around Maupin since that time.

C. W. Semmes, Maupin publisher, was a free man today following a verdict of not guilty of a statutory charge involving 12-year-old Marie Seifert, voted on the first ballot by a circuit court jury at about 9 o'clock last night.

The jury was out a little more than 10 minutes, just long enough to elect a foreman and prepare and cast ballots. The first ballot was variously reported as being unanimous for acquittal and 11-1 for acquittal, at all events, the sentiment of the jury was overwhelming in favor of the accused man.

The ability of the defense to successfully prove that Semmes was occupied away from home on the day stated by the prosecution and the girl as that on which the alleged immoral relations occurred, proved overwhelming to the jury.

**Dismissal Asked**  
Failure to convict in the Semmes case caused District Attorney Francis V. Galloway today to move to dismiss the case against Anton Seifert, father of the girl, indicted by the grand jury for a statutory crime against his daughter. Evidence in the Seifert case would be less likely to convict than in the first trial, it was declared.

An interesting fact, which was not made known until after the verdict was brought in, was that E. D. Germain, defense attorney with John L. Gavin, is a half-brother of Semmes. An attorney at Longview, Wash., he came to The Dalles at his own volition to take part in the defense of his brother.

As a result of the jury's action we will say for the edification of a certain Maupin person there will NOT be a new editor in Maupin next week.

### Sheep Nearly All Out.

Sheepmen of this section have about moved their flocks from the mountains to the home ranges. W. E. Hunt's sheep are all out, the Troutman flocks are at home, while the sheep of the Farghers will be on Bakeoven this week. John McMillan left Swim with the last of the Fargher sheep on Wednesday and should reach the home corrals by Saturday.

### Crandalls Improve Quarters.

The Crandall Undertaking company of The Dalles have greatly improved their facilities for handling cases coming to their establishment. Heretofore it has been the practice to take cases through the front door, which exposed their entrance to the public. Now the alleyway has been placed in condition so that entrance can be made at the side of the establishment. A door has been cut for entrance to the private parlor and another for the reception of cases in the preparation quarters.

### May Go To LaGrande.

After working on the ranch during a part of the summer Lewis Derthick is in charge of the Dufur drug store this week. Lewis has an offer to accept a position in a drug store at LaGrande and is seriously thinking of accepting. He is a capable pharmacist and drug store man and whoever secures his services may be sure they have a man who knows his onions and who will draw trade to the store.

### Oyster Supper.

The Ladies Aid will serve an oyster supper in the dining room of the Rainbow restaurant on the evening of Wednesday, October 12. Supper will start at 5:45 in the afternoon, and all Maupinites are asked to extend the Aid their patronage.

### First Frost Thursday Night.

The first frost of the season occurred Thursday night. Friday morning the ground was covered with a white coating, but the day was as bright as any in June.

### Looks Like New Paper.

The Dufur Dispatch came to us last week wearing a new dress, Messrs. Evans and Blain having discarded the large 10-point type for a modern face of 8-point. Under the new arrangement the Dispatch is enabled to print more news and at the same time greatly improve the appearance of the paper. The Times congratulates the Dispatch men on their enterprise in thus making their paper one of the best looking on the coast.

### Farlow in Wreck.

Leonard Farlow's Star coupe is a thing of the past. It is in the scrap heap, having been thoroughly dismembered in a wreck near the junction of the Tygh Ridge road and the highway. Leonard was on his way to Arlington, via The Dalles last Monday and attempted to give leeway to a car coming from the market road. He did that little thing, but in so doing swerved his Star from its orbit, going into the ditch and tearing his auto to pieces. Leonard was badly shaken up, receiving severe strain in his lower extremities so that he was compelled to receive treatment at the home of his parents in The Dalles several days during this week.

### Tonsils Removed.

Everett Richmond and wife were at The Dalles a few days this week, and on Tuesday had the tonsils removed from their little son. The boy withstood the operation with the stoicism of an Indian and at this writing has about recovered from the shock.

### New School At Frieda.

A new rural school will be started at Frieda station, an isolated district 12 miles southwest of Maupin, next week, County Superintendent A. E. Gronewald said today. The school will be conducted in a two-room building owned by the railroad company. Lawrence Swearingen, Monmouth graduate, has been selected to teach the school. Seven pupils will report Monday, it is understood. Pupils from this district have previously been sent to the Maupin school.

### Fattening Up Residences.

Joe Kramer and Job Crabtree are at work putting up the superstructure of Joe's new residence. They have nearly all the outside walls up and will hurry up the rest of the work, as it is necessary that Mr. Kramer's family move into the house as soon as possible.

### Early Morning Service.

Friday French Butler, with an officer of The Dalles went up Mill creek and served papers on a man who was owing the Maupin grocer. The fellow had just risen from his bed, and rather than have his wages attached proceeded to give a check for the amount owed along with costs of the trip and justice's costs.

### Bargenholt Auction Sale.

Mrs. M. E. Bargenholt will sell her stock, farming implements and other articles at public auction on Friday next, being the 14 of October, the sale being held at her hanch near Wamic. F. C. Butler will cry the sale and F. D. Stuart serve as clerk.

### Visiting Brother.

Mrs. Strawn, chef at the Rainbow restaurant, is on Jumper Flat this week, taking a well-earned rest from her labors. She is at the home of her brother, George Claymire. While Mrs. Strawn is absent Mrs. George Carl is presiding over the kitchen range at the restaurant.

### Visited Grandma Bothwell.

Instead of sewing on Wednesday the Ladies Aid went to the Flat and spent a pleasant afternoon with Grandma Bothwell. During the afternoon an appetizing luncheon was partaken of, and the party enjoyed the visit immensely.

Rubber aprons, your choice for 50 cents at th Maupin Drug Store.

### Broughtons Go Through.

L. V. Broughton and family passed through Maupin Saturday while on their way to The Dalles from Shaniko, where Mr. Broughton is principal of the schools. Philip Goshaw, Mrs. Broughton's father, was with them.

Union Pacific opens \$50,000 office in Portland, at Broadway and Washington.

## Smallest Girl Found At State University

Black and White Silhouette Work  
Her Specialty—Makes Pictures  
For Christmas Sale

The smallest woman on the campus! The distinction goes to little Mary Louise Fitch, who "scarcely makes an impression of four feet eight and one-half inches on the scales. When she stands beside a tall girl there isn't much left of Mary Louise. She just has the habit of disappearing completely from view.

Mary Louise may be designated as a companionable little girl with very brown eyes a rosy complexion and a ready smile and one clearly determined ambition in her mind—to be an artist, none the less.

Immediately after her arrival she registered as a special in art, having worked in that field all her life. Black and white silhouette work appeals to her. She has made many of the silhouette pictures to sell during the Christmas season.

### Feed for The Dairy Cow

Timothy hay and hays poor in quality are low in food value and deficient in minerals. The feeding of liberal amounts of a proper grain mixture and silage with such hays supplies deficient food nutrients. Such a ration however, will still be deficient in minerals, which are required in liberal amounts, for milk production. Of the minerals needed calcium and phosphorus are of most importance. A lack of these in the feed may seriously lower production especially of high producing cows. Phosphorus is plentiful in wheat bran, cottonseed meal, and linseed oil meal. If one or more of these feeds constitute one-fourth to one-third of the grain ration by weight, plenty of phosphorus will be supplied. Calcium or lime is much more abundant in well cured legume hays than in timothy. In a good quality of legume hay, plenty of calcium will be supplied. There is a general agreement that the best results in mineral feeding are obtained by feeding well cured legume hay, although the feeding of calcium in the form of bone meal or ground limestone added to the grain ration to supply the lime deficient has been recommended.

### Homely Philosophy

Absence makes the picture post-cards accumulate.  
The man who lives by his wits is not always a high liver.  
Misery loves company but not any more than happiness.  
Many a seemingly successful man owes it all to his wife's father.  
Keep your eyes on the humble man. Perhaps he is lying low for the purpose of humbling you.  
Many a man's reputation for truthfulness goes lame when he begins to say things about himself.

## Horse Show Offers \$35,000.00

FAMOUS SIX-HORSE TEAM  
Owned by Portland Damascus Milk Company, J. D. Huston, Up.

As in years past one of the spectacular attractions at the 1927 Pacific International Horse Show will be the contest between the drivers of the Northwest's famous six-horse hitch-ups. These contests probably bring the audience to a higher pitch of enthusiasm than any other of the sterling events of the Show. The 17th Annual Pacific International Livestock Exposition, with which the Horse Show is combined, will be held in Portland October 29 to November 5, inclusive.

\$35,000.00 is to be given this year in Premiums for the Horse Show, making this event, for the fourth time in succession, the greatest Horse Show in America. The stakes and their donors include Olympic Hotel, Seattle, \$4,000.00, with the balance all coming from Portland, Oregon, as follows: Oregon Journal, \$2,000.00; Multnomah Hotel, \$2,000.00; Portland Chamber of Commerce, \$2,000.00; Portland

## Hearing On Mt. Hood Cableway October 13

Secretary Jardine to Consider Merits  
of Plan to Erect Tram to Top  
of Oregon's Big Hill

Secretary W. M. Jardine will give consideration to the appeal of the Cascade Development company of Portland, Oregon, at his office in Washington, D. C., at 10 a. m., October 13, according to word received at the District Forester's office in Portland.

This hearing is on appeal from the decision of Colonel W. B. Greeley, chief forester, against a permit for a cableway and incline to the summit of Mt. Hood, within the Mt. Hood National Forest. The secretary wishes that if there are any additional information and recommendations which any interested parties wish to present, either in person or by letter, such will be considered at the hearing. A full and frank expression of local opinion will be quite acceptable to the Secretary, it is understood. Formal notice of the hearing is being sent by the Forest Service to all organizations in Portland and Oregon who are on record as being interested in this project.

A public hearing was held by the Forest Service in Portland last April, which was largely attended, and considerable agitation for and against the project has been evident since then. It is understood that the secretary's decision in this case will be final, as far as the Department of Agriculture is concerned.

### "INSIDE" INFORMATION

Veal will stand a little more seasoning than other meats. Before cooking season with a few drops of lemon juice, a little Worcestershire sauce, and onion juice, as well as salt and pepper.

Apple sauce as well as stewed prunes, apricots and other fruits which have a pronounced flavor when cooked, makes a good dessert called "snow" or "float" combined with stiffly beaten egg whites, half a cup of sauce per egg.

Few women are interested in the study of prehistoric man. Their specialty is for the man of today.

Some family skeletons can't be kept in a closet.

No man is entitled to credit for being good if he isn't tempted.

Those who say that life is a burden always make others tired.

A man may not be too old to learn but too old to realize it.

It is easier to make a new quarrel than to patch up an old one.

A spinster always turns up her nose at a woman who has been divorced.

Instead of making a fool of a man, a woman furnishes the opportunity—and lets him do the rest.

Considering what most people are willing to do for money it's a wonder there are not more millionaires.

## HITS FOR HOUSEWIVES FROM AGRICULTURAL DEPT.

Small Matters Which Tend To Help  
In Preparing Appetizing  
Dishes at Home

Bring in the milk bottles as soon as possible after delivery. Wash them, especially the mouth and cap. Place at once in the refrigerator, which should be 50 degree F. or less, never more.

The color of canned salmon is no indication of its quality. It indicates variety. There are several kinds of salmon and these vary in color after canning from a bright red to almost white.

Curried veal is a good dish to serve when lima beans are in season, because the flavor of curry goes well with lima beans. Cut 2 pounds of stewing veal into small pieces and simmer in water enough to cover until almost tender. Then add 2 cups of fresh lima beans. In another dish cook 1 medium size onion, chopped fine and 1/4 a green pepper chopped, in a small amount of butter. Add to the meat. When the beans are done thicken the liquid slightly with a little flour which has been mixed with 1/4 teaspoon curry, 1 1/2 teaspoon salt, and a little cold water. Add 1 cup diced cucumbers and cook a few minutes longer. Sprinkle chopped parsley over the top when serving.

In serving a vegetable plate include one food that contains some protein, as for example, green peppers or tomatoes stuffed with a meat mixture, cauliflower or potatoes scalloped with cheese, spinach with hard boiled eggs, or sweet corn podding made with milk and eggs.

Twenty-two persons have been apprehended for hunting or killing migratory water fowl with the use of airplanes since the Federal migratory-bird treaty act became effective, in 1918, under the administration of the Biological Survey of the United States Department of Agriculture. Violations of this character have occurred in 11 states. In 11 cases the defendants were convicted and fines totaling \$240 imposed, ranging from \$10 to \$50 each. In two cases the grand jury failed to return a true bill, and the remaining nine cases were dismissed.

Corn fritters may be made from left-over corn on the cob. To 4 tablespoons fresh corn add 1 teaspoon melted fat, 1 teaspoon baking powder, 1 egg, 1/4 cup of milk, 1 cup flour, 1/2 teaspoon salt. Mix to a batter and fry in deep fat.

Good dairy cows while milking should not be overly fat. They can well be fed enough to put on some flesh during the dry period and should be fed so as to keep in good condition while in milk. The general principals for their correct feeding are (1) feed a balanced ration, (2) feeding according to production—all the good roughage that the cow will consume and generally 1 pound of concentrates for each 3 to 3 1/2 pounds of milk produced. If a balanced ration is fed and the cow gets too fat, the amount of feed should be reduced somewhat. If she is producing heavily and getting too poor in flesh, she is either not receiving enough feed or the ration is not properly balanced.

There is no foundation for the widespread notion that fish is particularly valuable as a brain food. The idea seems to have originally gained headway because fish was supposed to contain relatively large proportions of phosphorus. There is however no experimental evidence to warrant the assumption that phosphorus is any more essential to the brain than nitrogen, potassium or any other element that occurs in its tissues. Various other foods furnish a higher proportion of phosphorus than fish.

**Ham Smothered in Sweet Potatoes**  
Casserole dishes are always popular with homemakers. They are easy to prepare and usually afford an attractive way to serve a number of foods from one dish. The Bureau of Home Economics, U. S. Department of Agriculture, suggests this method of combining sweet potatoes and ham in such a dish: 1 slice of smoked ham cut into pieces for serving; 3 cups raw sliced sweet potatoes 1 tablespoon butter or ham fryings; 2 tablespoons sugar; 1 cup hot wa-

## "What Price Glory" To Be Shown at Empress In The Dalles

Next week will be shown at the Empress theatre The Dalles, one of the most thrilling dramas ever presented to a public—"What Price Glory"—by one of the most powerful casts ever screened. The dates are October 10-11-12.

It is not a war picture. War is its background. It is no more a war play than a love comedy laid in a sylvan setting would be called a rural play. Its authors took war as the canvas on which to sketch their story; was as the great influence on men and women that would bring out pathos comedy and human appeal as no other crisis in the affairs of nations could bring.

Above all else there is comedy. Probably no picture ever made along the edge of a great world tragedy ever had so much comedy. "What Price Glory" on the screen is peopled with real and human characters that will at once win favor. They are not just types. They are the genuine thing in front of the camera, which makes no mistake. "What Price Glory" is not only a great and absorbing picture, with thrills and heart throbs and a world of comedy, but it is crowded with incidents that will bring a chuckle and a thrill long after the moment you can see.

### Packing Apples.

The Misses Alda Pugh and Olive Turner are at Mosier, where they will be employed in packing apples during the season. As soon as apples packing is completed the young ladies will go to Portland, where they will enter business college.

### Mrs. Dyer Agent.

Mrs. Frank Dyer has taken the agency for a cosmetic house and has an attractive array of samples of toilet accessories, shaving creams and other things dear to the heart of those who strive to look their best. Mrs. Dyer will be pleased to receive orders for her goods, guaranteeing satisfaction in every instance.

### Longview Attorney Visits.

Edw. D. Germain, brother of The Times editor, came over Sunday evening and visited with his brother overnight. Mr. Germain was interested in a case before the Wasco county court this week.

### Dr. Clarke Coming

Dr. Clarke, of the Clarke Optical Co., 360 Alder St., Portland, Oregon, Eye Sight Specialist, will be in Maupin, Oregon all day and evening of Monday, Oct. 10th, at the Home hotel. See him about your eyes.

### Granted Widow's Pension.

Susan Kane, Sinnasho, has been granted a widow's pension and hereafter will draw the sum of \$20.00 monthly.

### Oregon News Notes

Portland—Two local butchers perfect and will manufacture electric meat saw.

Russian Soviet agents buy 452 blooded Oregon sheep for export to Russia.

Oregon dairymen won first and second butter prizes at California state fair.

Salem—Paulus cannery starts canning extensive line of vegetables.

Hillsboro—Ten Jersey cattle sell at auction for an average of \$115.

Eleven Tualatin Valley banks have \$294,000 more resources than a year ago.

Oregon has 50,000 miles of roads, 4,468 in the state highway system.

Pendleton—Local mills install new poultry and dairy food plant.

Fall City—Oregon Lumber Products company will open quarry here.

Joseph—Eighteen cars fat cattle shipped out in one train.

ter. Broil the pieces of ham lightly on both sides and arrange them to cover the bottom of the baking dish. Spread the sliced sweet potatoes over them; sprinkle with sugar. Add hot water and extra-fat. Cover the dish and bake slowly until the ham is tender, basting the potatoes occasionally with gravy. Brown the top well.
