Visited Silica Mine.

Prof. J. H. Nagle, with Misses Marjorie Tillotson and Ruth McCorkle and Mrs. Lucile Cantrell, went to Terrebonne last Sunday and inspected the silica mine near that place.

Graveling Street.

George Tillotson is having gravel hauled from White river and is spreading same on the roadway opposite the entrance to the garage and shop. The road was badly cut up while excavating for the garage was done, and the rains cut into the street to a considerable extent, making repairs thereon imperative.

Annual Fair Meeting.

Elsewhere in this paper will be found a notice calling a meeting of the stockholders of the Southern Wasco County Fair association, which will be held at Tygh Valley on Saturday, October 22, at 2:00 p. m. All members should make it a point to attend the meeting as there are many things of importance to come up at that time.

Last Deer Hunt.

A hunting party made up of O. B., Elza and Lewis Derthick left this morning for Silver Lake, east Art Morris and J. W. Temple left this morning for Silver Lake, east of Bend on a deer hunt. All have been out once this season, but the urge is so strong that another try for deer will be made. The hunters propose to hunt around the lake, gradually working this way, and will remain in the hills until the end of the deer season.

F. D. Tillotson Auction.

F. D. Tillotson has decided to quit ranching and is offering for sale all his stock, farm implements and some household goods also, at auction. The sale will be held at his place, top of Wamis grade, on Saturday, October 22, and will be conducted by French Butler, with Frank Stuart as clerk. Read the list of thing offered in another part of this paper.

Quarterly Conference.

The quarterly conference of the combined Wapinitia-Maupin U. B. church was held at Wapinitia Monday night. Quite a large attendance is reported and reports of the doings of the church here were favorable to a rapid growth.

Will Haul Veneer Blocks.

H. McAllister of Dufur has taken a contract to haul veneer blocks from above Pine Grove to the O. T. depot. His contract will keep him busy all through the coming spring and summer.

Carnival Great Success.

The '49 carnival given by the local American Legion post last Saturday night proved a greater success than was anticipated. The attendance came from near and far and none seemed to be "tight" when it came to wagering on the chance games, and surely none failed to get all the dancing and eats wanted. Nearly \$150 was taken in and after all bills were paid a substantial sum remained in the treasury.

Track Walking Down River.

Lester Crofoot, who has been at work on the section at Two Springs, has succeeded to the night track walking job and is now pumping a handcar down river as far as tunnel No. 1. Lester and wife are at the home of Mr. and Mrs. Chas. Crofoot for a time.

.....
PICKED UP ABOUT TOWN
.....

There is much speculation regarding the meaning of Bobby Davidson's actions. Lately that young and promising mechanic has been furnishing a cottage and has been fetching therein. His friends are wondering whether to arrange a house warming of a charivari, and Bobby won't tell.

Quite a number of our subscribers actually seem to believe a newspaper must have support in order to exist. During the past several have come and paid their subscriptions, thus providing a way or the publishers to buy a sack of rolled oats and a brew of coffee. Still there's more to follow.

Maupin will soon be able to supply all the autos in the state with gas and oils. Up to this time there are seven gas tanks in operation here, and now another is going in. Bernard Welch, who conducted a service station at Wamic, is installing a tank on the road leading to the bridge and, being an old hand at the business, and most accommodating, no doubt will get a

fair share of that business.

Some are born pugilists, while others fight only when compelled to do so in self protection. The spectacle of two young men engaging in fistcuffs does not appeal to the average person, but when one of the men has the fight forced on him, 'tis then that he is to be commended for "doing up" the other fellow.

George Tillotson took a day or so off the first of the week and indulged in a geographic-typographic survey of the surrounding country. He visited sections of Bakeoven, Dead Dog, Deep Creek and others, and says that this part of Oregon covers considerable country.

Jess Temple and family feasted on wild goose Tuesday, the bird having been killed by Maupin's husky mechanic on the Flat on Sunday. Bobby Davidson ate the wings and says he is now waiting to see whether or not they will sprout. It they do and he grows wings he imagines he will be able to fly all the same as

the goose from which the wings came.

When it comes to opening ditches Tom Henneghen is in a class by himself. Last Saturday Tom cleared out 700 hundred feet of ditch and Tuesday remarked that he felt his oats as much as when he was a boy on the range. At that his friends believe him.

The men who are engaged in getting out veneer blocks to be sent to the mill at Vancouver, Washington, have opened up a new line of endeavor in this section. The veneer made from their timber has a utilitarian purpose, and it is not to be compared with the veneer used by people who seek to create a good impression by spreading "salve."

N. G. Hedin has been busier than a scratching hen these days, and with his multitudinous duties as manager of the Wapinitia Irrigation company he was mixed up in a mad dog scare on Sunday last. Enough to say, Newt did his duty and there is one less dog to worry about.

PERSONAL MENTION

W. T. Norval was over from Wamic on business Monday morning.

J. W. Derthick spent a day or two of this week at The Dalles.

Bob Fortune spent last Thursday in The Dalles a guest of the Bank hotel.

Lewis Derthick, who has been in charge of the Dufur drug store for

a week past, returned from that place Tuesday afternoon.

F. C. Butler went to Portland Tuesday morning after a load of produce.

R. L. (Dick) Harris was among those registered at the Bank hotel in The Dalles Sunday.

Seventy-five cent bottle of Cenol Fly Destroyer and a 80-cent sprayer both for \$1.00 at the Maupin Drug Store.

FACTS

-AND THE OPEN MIND

THE MOST important element in business success—and the most difficult—is to be sure that you have all the facts before you act.

TO GET them all, from every possible source, is the first objective in General Motors. The Research Laboratories contribute some. These are nuggets, left in the crucible, after hundreds of ideas that looked good have been burned away. The Proving Ground contributes others. Dealers contribute. The public contributes. Every department contributes. Through the whole organization runs a spirit of inquiry and of rigid insistence on proof.

OUT OF such thinking come the new models announced from time to time by Chevrolet, Pontiac, Oldsmobile, Oakland, Buick, LaSalle, Cadillac—all with Fisher Bodies. And by Frigidaire. Each new model is a tested step forward. Nothing goes into it as a result of habit or guess or pride of opinion.

Nothing counts but hard-won facts, gathered and used with an open mind.

GENERAL MOTORS
