### Doings at Pine Grove

Last week the Abbott sheep herders discovered one of their dogs was suffering with the rabies. The animal was promptly killed to prevent it biting people or other animals.

Linn & Son purchased hay sold at the Driver sale last Saturday. They expect to run cattle on the Geo. Burnside place at Pine Grove in connection with their wood business until they can get started in the mill business again.

Chinese pheasants are more plentiful around Wapinitia and Pine Grove than formerly. Quite a few good bags were reported on open days recently.

Ed. Mathews has employed Ed. Davis, John Sinclair and others to get in his third cutting of alfalfa.

Ted Enderby and A. J. Hammer are employed by Julius Shepflin on the Sanford-Boyer ranch.

Leonard Weberg is hauling wood from Pine Grove to Maupin.

George Claymier is hauling wood this week.

Engineer Carrigher's auto towed Lou McCoy's car into Maupin on Monday. Lou has been putting the old Lizzie through her paces in wood hauling lately.

The Ault construction and logging camp is in full progress this week. The wood, both pine and fir, is in charge of N. G. Hedlin, who is acting as salesman for the wood cutters. The Anderson Logging company outfit is on the job with both men and teams. Trucks will be employed to move the veneer logs, which are cut 60 inches to a length, to Maupin and from there they will be taken to the Vancouver veneer mill.

Messrs. Sargeant and Loyns expect their families soon. The former expects to send his children to the Pine Grove school. This will bring the total of that school to 30. Miss Overman will thus be swamped and it is figured that an assistant will have to be employed.

The John Conroy sheep, which have been ranging about the Mt. Hood Loop, are in a bad way to become scattered. Joohn returned to higher levels as soon as the warm days appeared but when the sudden cold, stormy weather set in the sheep scattered considerably. After a roundup Conroy's flocks are about 280 shy. Tom Kinsell found 240 of them and Art Fargher found eight of his lost woolies that had strayed from the main bunch. Some wethers were seen in the vicinity of Bear creek, owners unknown. The dog at the camp drove them toward McCubbins Gulch, where most of them will be feed for coyotes, bobcats, cougars and bears, as well as lynx and wolves. Every assistance should be given the sheep men in gathering their lost sheep, thus saving them for the common good.

A ripple of excitement was staged at Pine Grove Sunday by the ap-

— LADY ASSISTANTS —

pearance of a rabid collie dog, owned by Walter Sharp. The symptoms of rabies were shown by fits, which increased in violence at closer intervals. The dog ran the Tom Gerrity family into the camp house and threatened the children. It then ran into the Sharp home and nearly bit Mr. Sharp. Walter forced the dog thru the house with a chair as a weapon and that he had the animal safely confined in the woodshed. The dog escaped. He bit a cat and the young son of Darrel Sharp, inserting his teeth in the boy's arm. J. S. Brown and N. G. Hedlin appeared from the latter's home, armed with a pump gun and promptly put a quietus on the dog's activities. Mr. Sharp rushed his son to medical treatment.

A bit of garlic rubbed around the salad bowl—just enough to give a mere suggestion of flavor—makes an acceptable improvement in flavor for many people.

**ATTENTION, SHEEPMEN!**

For Sale—300 head of Hay Creek Yearling Ramboulette Bucks.

# Camel

The cigarette that leads by billions

Just to state a great truth in another way—Camel is so exactly what so many smokers want that no other brand is even a close second.

If all cigarettes were as good as Camel you wouldn't hear anything about special treatments to make cigarettes good for the throat. Nothing takes the place of choice tobaccos.
