

## Southern Wasco Co. Fair Assn. Elects New Board

### Officers Chosen for Three Years—The Dalles Represented on Board of Directors

At a meeting of the stockholders of the Southern Wasco County Fair association, held at the Odd Fellows hall, Tygh Valley, last Saturday, officers and directors were chosen. A change in the terms of the main officers was voted, they being elected to serve for a period of three years instead of one as formerly. Those elected were:

- W. E. Hunt, President.
- F. P. Mays, Vice-President.
- A. H. Gillis, Secretary.
- F. D. Stuart, Treasurer.

Instead of choosing a board of directors to serve one year a change was made, and seven men chosen for those positions. It was considered a bad practice to elect a new board each year, for the reason that new men usually were not conversant with the operation of the fair and when they had learned the duties of their positions were relegated to the discard, thus making the work doubly hard on those who were chosen to succeed themselves. Under the arrangement three directors were chosen for three years, two for two years and two for one year. Those elected on the new board, with their term length, were as follows:

- For three years—
- F. M. Gill, Dufur.
- W. H. Staats, Maupin.
- George Flagg, The Dalles.
- For two years—
- K. L. Hauser, Tygh Valley.
- W. B. Knox, Shady Brook.
- For one year—
- W. B. Sloan, May's Ranch.
- Jake Davidson, Juniper Flat.

It was decided to effect a change in the by-laws of the association and to that end a committee of W. B. Sloan, K. L. Hauser and C. W. Semmes, was appointed to draft new laws and to submit same at a meeting to be called for that purpose.

Another thing of moment to all concerned was changing the annual meeting time from spring to fall, the date being set as the last Saturday in October.

A protest against holding fairs on Sunday was received from the U. B. church of Wapinitia and Maupin. But little discussion was had on the protest, it being laid over for future consideration.

The reelection of Mr. Hunt to position of president speaks well for his efficient presidency speaks well that gentleman has been of great assistance to the furthering of interest in our annual exhibitions, and now that he has been elected for a period of three years is a guarantee that the Tygh Valley fairs will be better and larger with each succeeding year. Mr. Gillis, as secretary, has worked hard for the success of the institution. Upon his shoulders has rested the full management of the fairs and that he has done his work and to the entire satisfaction of all concerned is attested by his reelection.

It was thought that various sections of the county should be represented on the board of directors, therefore Mr. Gill of Dufur and Mr. Flagg of The Dalles were chosen. Both are hard workers for anything that speaks for the good of the county and will greatly add to the strength and working ability of the board. Both Mr. Staats and Mr. Hauser have been members of the board at divers times, and each was responsible for the organization of the first fair ever held in this section. The other members, Messrs. Knox, Sloan and Davidson, have always taken a keen interest in our fairs and with them as working members of the board of directors there is no doubt that best interests of the association will be furthered to the utmost.

### Mistake in Train Time.

A mistake occurred in the time of the stock show train on the O. T. leaving Maupin, in the advertisement of that road in last week's issue of The Times. The train will leave Maupin at 12:52 A. M. instead of 1:25 P. M. as stated in the advertisement. The O. T. will run a special coach service for the exposition and will make a quick run to Portland for the occasion.

### "DAD" COALE IN HOSPITAL WITH PARALYTIC STROKE

#### Well Known Maupinite Stricken While at Berry Camp in September—Recovering Somewhat

"Dad" Coale, well known Maupin resident, is at The Dalles hospital suffering with an attack of paralysis, his left side being affected. He has been ill for some time, but at this time seems to be on the road to at least partial recovery.

Mr. Coale was in the mountains picking berries in September. The day he was stricken he visited the sheep camp of W. E. Hunt. Finding that the herders were absent he returned to his own camp, and had just reached it when the stroke overtook him. He managed to get to his bed and for three days laid there alone. At times he tried to attract the attention of passing motorists, but was unsuccessful in so doing. The third day he managed to drag himself to the road, and there a traveler found him and took him to the hospital.

For some time his life was despaired of, but under skilled treatment he is slowly recovering, being now able to move his hand and arm a trifle. "Dad" is getting well along in years and that fact alone makes it hard for a complete recovery. He enjoys visits by his friends and while visiting The Dalles we suggest that all of "Dad's" friends call on him at the hospital and extend a word of cheer.

### MID-COLUMBIA COUNCIL OF LEGION MEETS IN MAUPIN

#### Nine Posts Compose Body—About 30 Members Attend Tuesday Night's Meeting

The Mid-Columbia Council of the American Legion, being composed of posts of The Dalles, Maupin, Mosier, Grass Valley, Wasco, Dufur and Moro, held a meeting in Maupin Tuesday evening, each post being represented with the exception of Wasco, Dufur and Moro, about 39 members being present.

The meeting was taken up by discussions regarding matters of interest to all Legionnaires. One thing of especial interest was a resolution calling upon all ex-service men to join with the organization, and to explain to them the benefits of the organization. Another matter to come up was the formulation of plans looking to the relief of all needy members and ex-service soldiers.

During the evening a fine luncheon was served the members and visitors. It was decided to hold the Next Council meeting at Kent, on or about the 17th of next month, at which time several other recommendations looking to the furtherance of benefits came up for discussion. All members are invited to attend these meetings.

### Successful Auction Sale.

The action sale at the Frank Tiltonson ranch near Tygh, last Saturday, drew one of the largest crowds ever assembled at a like enterprise in this section. The articles listed for sale covered a wide range and bidding was keen in all lines. French Butler was auctioneer, sold nearly everything put up and a goodly sum was realized from the sale.

### Stopped Heavy Hauling.

J. R. Kramer, chief engineer on the Wapinitia cutoff, was out from Portland Saturday and while here served notice on Lumberman Ault to cease hauling veneer bolts over the roadway. Mr. Farmer says that after the highway work had been accepted by the state commission hauling might be resumed, but until that is done heavy hauling must cease. Mr. Ault went to Portland Sunday, going there for the purpose of making an attempt to have the engineer's order rescinded. In the meantime operations in the woods are at a standstill, some of the men having left, and the others remaining pending the result of their employer's visit to Portland.

Mrs. P. W. Knowles and Miss Ida May Johnson were guests at the L. C. Henneghan home for a short time last Sunday. The ladies live at Dufur.

### FORMER WAMIC MAN KILLED AT MARSHFIELD

#### Sidney Mulvaney, Well Known in This Section, Victim of Logging Accident

The remains of Sidney Mulvaney, who was killed while at work in the lumber woods near Marshfield the latter part of last week, were brought to Wamic, his former home, and laid to rest in the Wamic cemetery on Sunday, the funeral being in charge of the Maupin Legion post. A large number of Legionnaires attended the obsequies, and the burial service of the order read by Carl Pratt of this place. George Morris served as color bearer; firing squad was in charge of L. E. McCorkle and was made up of Raymond Crabtree, Don Miller, Ernest Confer. The pall bearers were James Chalmers, Lee Jackson, Marion Duncan and a comrade from Tygh Valley, name unlearned. E. A. Cyr blew "taps" over the grave of one of those who answered his country's call when in greatest need, and who was called from this earth in the prime of life.

Those who went from here were: George Morris, James Chalmers, C. F. Pratt, Gus Derthick, Don Miller, R. E. Crabtree, LaVerne Fischer, Howard Nye, Ernest Confer, L. E. McCorkle, Ivan Scheer and Lee Jackson, and one other, attended from Tygh.

### WELL TO BE SPUDDED IN SATURDAY THIS WEEK

#### Large Crowd Expected and Preparations Made for Entertainment—May Go Down 5,000 Feet

The Clarno oil well will be spudded on Saturday of this week, at which time all officers and directors of the company, as well as many other people, are expected to be present at the site of the well. The derrick has been up for some time, and the machinery was taken to Clarno last week and is now set up, ready for drilling.

Preparations have been made for a deep well, it having been determined to go down to a depth of 5,000 feet, although geologists have said that the oil strata should be reached in much less depth than that. There is every indication of the existence of oil in the Clarno field, in fact oil has been extracted from shale and found to be of good grade. It is claimed that wherever oil bearing shale rock is found, oil is there also. The Clarno Oil company officials have great faith in the prospect at that place and work on the well will be pushed along as fast as possible.

A \$60,000 general hospital to be built at Grants Pass.

### MILK PRODUCTS MANY AT PACIFIC INTERNATIONAL

#### Milk and By-Products Used in Manufacturing to Have Large Space at Exposition

A display of milk and scores of its products will be a feature of the exhibit of the Western Dairy Products show at the Pacific International Livestock exposition in Portland October 29 to November 5. This display will include all the products made from milk and all in which it or any of its constituents are used in preparation of manufacture, announces V. D. Chappell of the O. A. C. dairy department, who is in charge.

Butter, cheese, ice cream, condensed, evaporated, and powdered milk are some of the principal products of raw milk. The ice cream display will include a log cabin, a cake a foot high, a pie, and a variety of fancy pastry decorations.

Caseln, a by-product of skim milk, which can be made into a variety of useful articles, will be displayed with a large array of finished and unfinished products collected from all part of the United States. Artificial ivory, linoleum, cigarette holders, artificial silks, bone material, glue, paint, and fountain pens are a few of the many things made from it.

The Oregon Buttermakers convention will be held in connection with the show November 2-4. W. B. Combs of Minnesota university is the leading speaker on "Standardizing Cream Grades." Entertainment features and a public speaking contest and frolic.

### U. OF O. ENROLLMENT TOTAL REACHES 3,069

#### Grand Total of Number of Students Taking work at University Now in Excess of 9,000

Final figures on enrollment on the campus of the University of Oregon at Eugene and at the Medical school at Portland total 3069, it is announced by Eard M. Pallett, registrar. Last year the total for the fall term was 3033.

The total by classes is now as follows: freshmen, 486 men, 391 women; sophomores, 388 men, 310 women; juniors, 269 men, 304 women; seniors, 241 men, 299 women; graduate students, 50 men, 40 women; miscellaneous, 32 men, 15 women.

Complete figures for extension and correspondence school students will be compiled within a few days. The total number of students taking work in some form from the University is now in excess of 9,000.

## Odd Fellows Meet at Grass Valley in Dist. Convention

### WILL PROSPECT MUSK RAT RANCH IN EASTERN OREGON

#### Local Man Goes to Lake Country in Search of Marsh in Which to Establish Industry

R. W. Richmond has been reading up on the musk rat industry and will soon leave for eastern Oregon in search of a site for a marsh in which to raise the small fur bearing animals. Richmond has studied the workings of that branch of trade and so thoroughly convinced there is money in the undertaking that he is anxious to make a try at the game.

A Montana man, who conducted such a farm for several years, is authority for the statement that one pair of musk rats produced a total of 47 young in one year. The United States Department in charge of furs and fur bearing animal statistics, makes the claim that one pair of rats will produce 1,700 young in two years. In the years 1925-6 Harney and Malheur lakes were inhabited by 250,000 such fur bearers. They were killed off to the extent that at the present time Oregon produces but 8,000 yearly.

It is said that there is a shortage of two million musk rats in this country alone, and, while there are numerous rat farms in this country, the demand far exceeds the supply. At the fur sale held at Seattle on July 27, this year, the average price paid for such skins was \$2.30. Friend Richmond has informed himself where parent stock may be obtained and if he succeeds in securing a marsh sufficiently large and stocks it with musk rats we may look forward to the time when he will be dubbed "musk rat king," as well as carrying the title of "guano king" of Eastern Oregon.

### TURKEY DAY IS APPROACHING

#### O. A. C. Tells of Best Time and Ratio for Fattening

To fatten turkeys for the market, begin about the first of November. Feed just enough at a time so the birds will go away a little hungry, gradually increasing the quantity until they are given all they will clean up three times a day during the week before marketing. It is a good plan to feed equal parts of wheat and oats during the first part of the fattening season, gradually changing to corn as the weather becomes cooler. Old corn is much better for turkeys than new corn, but it must be free from mustiness. Heavy feeding of new corn often results in scours.

### Doing Good Business.

The Central Oregon Milling company, under the management of Henry Seethoff and A. J. Barkham, is doing good business. Those gentlemen took over the mill last February and since that time have had a market for all the flour that could be turned out. Mr. Seethoff figured up what but nine customers had paid for flour since the mill began under new management, two of the customers beginning to receive flour in May and one in August, and the nine have received flour to the amount of \$5,786. And the business is still growing.

### Attended Granddaughter's Funeral.

The infant daughter of Mr. and Mrs. James Grant of Culver, died at Portland the first of the week and the body was taken to their home on Wednesday, being accompanied by Mrs. Grant's father, A. J. Barkham, and his son, Albert. The baby was but three months old and had been taken to Portland for medical treatment. The funeral was held at Culver yesterday.

### Buys Hunting Dog.

J. W. Temple has a full equipment of hunting paraphernalia, all he lacked being a hunting dog. That void in his sporting outfit has been filled, as Jess lately received a fine springer spaniel puppy from a Portland kennel. The dog is beautifully marked and shows good breeding. Temple expects to cut quite a swath with his new acquisition next hunting season.

Masks for the Hallowe'en dance. Any character you want, at the Maupin Drug Store.

### Better Than 300 Odd Fellows Attend Seventeenth Annual Convention at Grass Valley

Monday was the gala time at Grass Valley, that place entertaining the 17th annual convention of the I. O. O. F. order, consisting of Hood River, Wasco and Sherman counties. More than 300 members were present, each lodge in the district being represented, the meeting being honored by the presence of Grand Master Jackson and Grand Warden Peterson, as well as that of the deputy grand warden, whose name we were unable to learn.

The afternoon of the day was given over to work of the convention.

Those attending from this part were: James Chalmers, F. D. Stuart, Chas. Crofoot, Bernard Welch, R. W. McCorkle, L. E. McCorkle, Dee W. Talcott, W. H. Talcott, Roy Ward, Dave Donaldson, George Claymier, C. F. Pratt, Oscar Renick, Ben Richardson, U. S. Enderby, Chester Crabtree and LaVerne Fischer.

During the afternoon session officers for the coming year were elected, they being, L. E. McCorkle, president; F. D. Stuart, secretary; Chas. Crofoot, treasurer, all being from Maupin.

During the convention the initiatory degree was exemplified by a picked team made up of members of the Sherman county lodges, and the work was done in a manner pleasing to all present.

At five o'clock in the evening the members sat down to a fine banquet prepared and served by the Rebekahs of Grass Valley, who also served a luncheon at one o'clock the next morning.

Before the convention closed Maupin was chosen as the place for holding the next convention, and the time of convening of same was changed from the last Monday in October to the first Monday in May.

Already plans are maturing for the entertainment of the Odd Fellows at the next convention. It is proposed to make it the largest and best effort ever put forth by Maupin in the way of entertainment, as a larger attendance will surely be present than was at Grass Valley this year. The Maupin "chain gang" is made up of hustling members and with the assistance of a larger and well organized auxiliary—the Rebekahs, visitors to this city next May will be entertained in a manner befitting the order and the city of Maupin.

### Sewing Club at I. O. O. F. Hall.

The Community Sewing club meets at the I. O. O. F. hall this afternoon. Considerable new work will be begun and all members are urged to be present.

### Modern Hair Cutting.

All women like to appear at their best. In order to do so it is necessary their hair be cut in the latest style. The leading hair cutters of The Dalles are the Modern Barbers, located at 410 East Second street, where everything is especially adapted to ladies hair cutting, the work being done by barbers who make a special effort to keep up with the prevailing styles. If you want your hair cut right, give that shop a call. You will there get just the style you want and no ragged edges or straggling locks left.

### More Hogs To Portland.

A consignment of fat hogs was made up by Julius Shepflin, Roy Batty, George Claymier and Art Gutzler and shipped over the O. W. to Portland stockyards last Saturday night. The porkers made up two carloads and were taken down in charge of Mr. Batty.

### Pendleton Bucks Here.

Clarence Faragher returned from Pendleton on Tuesday, having gone to that place after a number of bucks. Clarence purchased 18 pure bred bucks and brought them back with him on a truck.

### Linns in Town.

Tim Linn and one of his sons were in from Pine Grove Monday. They brought one of their trucks in for repairs, which were made at the Tiltonson Motor company's shop.

## What You Can Do With A Can of Salmon

THE cool delicate color of canned salmon as well as its delicious flavor and rich nutrient content, makes it one of the most attractive of foods. Canned salmon may be served an infinite variety of ways, creamed on toast, as croquettes, cutlets, salmon cakes, or as a clowder, in salad, sandwiches, soufflé, patties in cocktails, au gratin with macaroni, peas, or spaghetti, in ramiqins with tomato sauce, baked in pepper cases, scalloped a la creole, and in salmon loaf.

### Casseroles of Rice with Salmon

Line the bottom and sides of a mould with cold boiled rice one half inch thick, fill the cavity with creamed canned salmon and cover with rice. Steam forty-five minutes, turn out on a hot platter, pour either white sauce or Hollandaise sauce over and around it. Serve hot. This dish

### Salmon with Macaroni

This is another meat substitute dish. Pick one can of salmon into small pieces. Make two cups of ordinary white sauce. Put a layer of boiled macaroni broken into one inch lengths in the bottom of a baking dish, next a layer of sauce, then a layer of salmon and continue this process until dish is filled. Sauce should come last and be sprinkled with buttered crumbs. Bake until brown.

### Sliced Salmon Salad

A particularly attractive looking salad is made by slicing the canned salmon with a very sharp knife, laying the slices in a circle on crisp lettuce and putting lumps of mayonnaise dotted with green capers between the slices.
