

The Maupin Times

C. W. Semmes, Editor
C. W. Semmes and E. R. Semmes
Publishers

Published every Thursday at
Maupin, Oregon

Subscription: One year, \$1.50; six
months, \$1.00; three months, 50 cts.

Entered as second class mail mat-
ter September 8, 1914, at the post-
office at Maupin, Oregon, under the
act of March 3, 1879.

DOG POISONERS REPULSIVE

Considering all phases of humani-
ty the person who will deliberately
place poison where dogs can get it, is
repulsive to everyone. He has not
courage enough to come out in the
open and declare his animosity for
the dog owner, instead works in the
dark and alone. He swears himself
to secrecy, and sulks like a coyote.
Such a person is lower than a snake.
He is lost to all sense of decency and
is to be abhorred by all people who
respect the rights of others. Such a
low-lived person lives in Maupin, and
if he is found out, he may rest as-
sured his acts will bring him to bar
and receive the deserts usually meted
out to his ilk.

HICKMAN, ARCH FIEND

Hickman, the self confessed ab-
ductor of little Marian Parker, who
was captured near Pendleton last
week, is a sample of what perversion
of human attributes really is. He de-
clares he is guiltless of the mutila-
tion of the body of his helpless vic-
tim, but there is no doubt but that
he did that inhuman act. We are
not fully in accord with the prac-
tice of capital punishment, but will
lay aside our scruples in this case
and advise that he be subjected to as
much misery as he caused poor little
Marian Parker.

Later he confessed to the murder.

The Times man has had three
dogs poisoned within a few months.
He now asks whoever is guilty of
such work to meet him face to face
and tell why he resorts to such
means to "get even" with us over
some fancied grievance. If he is a
man he will come out of his shell; if
he is a coward he will cover up his
acts by silence. Come out and be a
man.

Bob Stanfield forfeited all re-
spect of his party by going back on
his given word during last year's
campaign. Fred Steiwer has violat-
ed his party's confidence by voting
to seat two men who are charged
with buying seats in the U. S. sen-
ate. Which of the two men is the
more guilty?

For variations in climate within
an area of a few miles, this part of
eastern Oregon surpasses all belief.
In Maupin the weather yesterday
was spring-like, while on Juniper
Flat, three miles away, a veritable
blizzard raged nearly all day.

The dandruff a man brushes off
his shoulders is usually bone dust or
powdered ivory.

HOW TO BUILD APPETIZING
AND ATTRACTIVE SALADS

O. A. C. School of Economics Sub-
mits Following Recipes for Bene-
fit of Times Readers

Attractive and appetizing salads
may be made for winter use. "Por-
cupine" salad is made by sticking
"needles" cut from unblanched al-
monds into halves of canned pears.

Fruit salad in a water box is made
by tying three saltines together with
ribbon and filling with lettuce leaf
and fruit salad. A garnish of marsh-
mallows or candied cherries adds to
the appearance.

Butterfly salad is made from
canned pineapple. A slice is cut
crosswise and the edges placed op-
posite each other to form wings.
Apple cubes and mayonnaise form
the body. Stripes of pimento make
feet.

An attractive holiday salad is
made by adding chopped walnuts,
celery and cranberries to a cranber-
ry gelatin.

Shamrock salad is made by stuff-
ing green peppers with a mixture of
chopped olives and cheese, seasoned
to taste. Rings are sliced off and
three or four placed on lettuce in
shape of a clover leaf.

Poinsetta salad is made by placing
petals of pimento on a ring of
canned pineapple. The center of the
flower is made of mayonnaise, cel-
ery and nuts.

Daisy salad is made by slicing the
white of a hard boiled egg length-
wise, and placing it on a bed of
shredder lettuce in the position of
petals. Centers of grated yolk and
mayonnaise are used.

Visited Mrs. Chalmers.

D. L. Rutherford and wife were
afternoon visitors at the residence
of Mr. and Mrs. James Chalmers on
Wednesday. They report the weath-
er at Criterion as being rather win-
try.

Mrs. Savage Critically Ill.

Mrs. Savage, mother of Mrs. J. C.
Pratt, is critically ill at the home of
her daughter in this city. She has
been confined to her bed during the
past two weeks, but at this writing
is somewhat improved.

Fine Christmas Dance.

The Legion's Christmas dance was
well attended and a general good
time enjoyed by all who were there.
While the music was not quite up to
that usually employed by the Legion,
still those who used the floor seemed
to enjoy themselves to the limit.

Foggy Weather.

For several mornings lately fog
has hung heavily on hills and river,
as the saying goes, "three fogs
ind then a storm," proves true, we
re in for a serious spell of wintry
weather.

Entertained On Christmas.

W. H. Staats and wife entertained
at Christmas dinner and had as
guests George Gill and wife of Port-
land and T. B. Slusher and family
of Maupin. Mrs. Gill and Mr.
Slusher are son and daughter of
Mrs. Staats.

Stairway Put In.

A stairway has been erected lead-
ing to the projection room at the Le-
gion hall, thus doing away with the
old ladder heretofore used. The stair-
way makes it easier to reach the ma-
chine room and is quite an addition
to the appearance of the ball room.

Living at Milwaukie.

Mrs. M. E. Bargenholt writes The
Times that she is living at Milwau-
kie and that her address is Route 2,
Box No. 830-C. She has left the
ranch at Wamic and will spend the
winter in the city named after the
former beer metropolis of the U. S.

Must Be Soul-Mates.

Soul-mates are said to be people
with the same desires, loves and
general attributes. Jim Chalmers
says that Ollie Weberg and he must
be soul-mates for they both come
from over the water, both like fish
and both like Maupin. And that's
that.

Mailed From The Dalles.

Our Shaniko correspondent, L. V.
Broughton, did not forget his usual
budget of news this week, for he
remembered The Times and sent in
a bunch of notes from there. Mr.
Broughton was on his way to Port-
land to attend a meeting of the
State Teachers association.

Cottage Nearly Completed.

The new cottage being erected by
Wm. Woodcock of Wamic on lots
near Legion hall, is fast nearing
completion. Job Crabtree is now
finishing the interior and the build-
ing will soon be ready for occu-
pancy. Clarence Ziggenhagen has
rented the cottage and will move in-
to it just as soon as it is ready for
him.

Where Teachers are Visiting.

Maupin teachers are spending the
holiday vacation in various places.
Mrs. Joynt being with her sister at
Portland, where Miss Harris also is;
Miss Richards at home at Rickreall;
Miss Tillotson in the Willamette Val-
ley and Mr. Davies with his home
folks at Troutdale. Prof. Nagel
says Maupin is as good a place as
any, so remained at home.

Write-Up Of Our City.

Beginning with our next week's is-
sue The Times will give a compre-
hensive write-up of Maupin, its busi-
ness men, pioneer ranchers and other
things with the intention of letting
outsiders learn just who and what
we are. When the editor asks you
for data, please inform him regard-
ing what he desires to know, and in
so doing greatly assist in the work.

Taking Treatments at Gresham.

Mrs. R. G. Johnson has been at
Gresham several times lately and on
Tuesday made another trip to that
place. Mrs. Johnson has been
bothered for some time with an ef-
fection on the face and goes to
Gresham to receive treatment at the
hands of a specialist there. The af-
fection is yielding to treatment and
the sufferer is optimistic regarding
the effect of same.

TURNER BUSY DURING X-MAS

Stamp Sales For Four Days Were
\$125—Many Money Orders

Postmaster Turner was the busi-
est man in Maupin during the last
week before Christmas. For the
first four days of the week, he pass-
ed out stamps to the amount of \$125
and made out money orders for the
sum of \$600.00 during the week.

Moved to Maupin.

Theodore Radtke, mechanic at the
Maupin garage, moved his family to
Maupin Tuesday, bringing the mem-
bers from Washougal, Washington.
They are domiciled in the Ben Fra-
ley cottage. Several of the children
are of school age and will enter the
Maupin schools when the holiday va-
cation is over. The Times welcomes
the newcomers to Maupin and hopes
Dr. Radtke will conclude to remain
here an indefinite time.

Dr. Elwood entertained his wife
and son, Ogden, Christmas day, they
coming over from The Dalles.

THE WORLD'S LONGEST BRIDGE

Will Total 15.5 Miles in Length and
Will Span Big Lake

The recent agitation regarding the
Longview bridge and the attention
that has been given the removal of
rolls on the Interstate bridge be-
tween Portland and Vancouver,
makes the following announcement
of the world's longest bridge at New
Orleans of particular interest.

According to the Oregon State
Motor the world's longest concrete
bridge will cross the waters of Lake
Pontchartrain and will then follow
along the shore to the gate of New
Orleans. The structure is 14.5 miles
in length and has two bascule draws.
For the first time in over two cen-
turies the city will be given an out-
let to the north and east for vehicu-
lar traffic, and motor tourists to Gulf
Ports or anywhere along the Old
Spanish Trail, can enjoy practically
an unbroken stretch between Jack-
sonville and San Diego. In addition
to the New Orleans-Pontchartrain
bridge some \$62,000,000 is now being
spent to give the southern tourist
the same type of highways that
have contributed so much to the
growth of motor touring in the
north.

ELEVEN YEARS AGO

From The Times Dec. 29, 1916
Ivy May Flinn and David W.
Sharpe were married at the home of
the bride's parents, Mr. and Mrs. N.
W. Flinn on Wednesday evening,
this week, Rev. J. I. Parker, an uncle
of the bride, officiating. The groom
was a former resident of Medford,
but has been here the past five
years and he and his wife will make
their home here.

Saturday, the 23rd, the patrons of
the Criterion postoffice met and or-
ganized a telephone company, and
will soon begin building a line from
that place to Maupin.

Sunday the roof of the J. G.
Tennison's residence at White River
was found to be on fire. The blaze
was soon placed under control and
no damage, other than the burned
portion of the roof, was done.

Ernest Troutman and wife attend-
ed the wedding of Mr. Troutman's
sister in Portland, which occurred on
Christmas day.

A couple of inches of snow cover-
ed Maupin the first of the week with
indications for reinforcements.

W. L. Morrison has bought the
Tygh Valley blacksmith equipped it
with machinery and promises first
class work on plows, wagons and
horseshoeing.

The car situation is still in serious
shape, and with cold weather and a
probable fuel famine, there is not
much hope for improvement.

Eastern Oregon Light & Power
company now operates 66,000-volt
line between Baker, LaGrande and
Union.

ADMITS KILLING POLICEMAN

Hickman, Arch Fiend, Tells of
Another Murder

William Edward Hickman, now in
the Los Angeles jail, and who con-
fessed to the murder of little Marian
Parker, confessed today that he and
a companion killed a policeman in
the east last year. The confession
was made this afternoon. His story
was checked up, his companion
found and arrested, the latter sub-
stantiating Hickman's confession.
That was the word brought to Mau-

pin this evening by a man who had
read of the crime and confession in
a Dalles evening paper.

SEVERAL RELIEF MEASURES

If Some Senators Have Way Farm-
ers Will Receive Assistance

Senator Borah of Idaho has intro-
duced a bill for farm relief, provid-
ing in a federal agricultural corporation
with a capital stock of one billion
dollars. The board of directors would
be the secretary of agriculture and
eight individuals to be appointed by
the president. And Senator Carraw-
ay of Arkansas has introduced an-
other bill embodying the tariff de-
benture plan, sponsored by the Na-
tional Grange.

CLASSIFIED LOCALS

Old World Charm Meets
New World Conveniences
PLACING your house according to your
lot is the privilege of the person who
builds this practical dwelling of the En-
glish farm house type. The entrance is so
arranged that the house may either be
placed lengthwise for a thirty-foot city
lot or crosswise for a 60 or 75
foot lot.
The design here
calls for a combi-
nation of
stucco and
stained sid-
ing with the roof of dark weathered shingles.
The pleasing features of the living room
include its windows on three sides, open fire-
place and built-in book shelves. The open porch
or sunroom may open off from either the living
or dining room. The kitchen has all the details
that delight the housewife—cupboards, broom
closet, breakfast nook and double windows over
the sink.
The three bedrooms all have double ex-
posures and are well provided with clothes and
linen closets. The bathroom is so placed as to
be equally accessible from each bedroom. The
attic is ventilated and makes a serviceable
storage or playroom and speaks the rafters
and sides with celotex, which serves both as a
wall-board and insulating material.
This small home so light and spacious, yet
compact and adapted to doing without a serv-
ant, is a typical 1928 product. The poky, dark
houses of fifteen or even ten years ago with
poor planning would be scorned by the modern
housewife who has learned to
expect comfort built into her home and to have everything planned for
her convenience in working. Cold, draughty houses are also out of date. All
well built houses, are insulated as this one is, with celotex sheathing on the
exterior walls under the stucco. This effects a great saving in fuel in the
winter and resists the intense heat of the sun in summer.
