Doings at Pine Grove

Joe A. Graham has made the rounds of the West Flat to get volunteer fire fighters, who consent to respond to calls when emergency fires demand outside help. He has found the response good, as we all want our forests protected for use instead of a fire loss. Mr. Graham plans to have fire fighting tools and equipment stored at Ben Richardson's. He also plans to have a lot of line grub rations on hand so the men can get on the job when called with the least possible loss of time.

"INSIDE" INFORMATION

Cabbage can always be used for salad if lettuce is not available.

Don't forget the salt in preparing the breakfast cereal. Very often a lasting dislike for cereals is due to lack of proper salting. A teaspoon to a quart of water is the usual amount needed.

When you want to make a meat loaf, have the butcher cut off a fresh piece of meat and grind it while you look on, or take the meat home and grind it yourself. Use the ground meat the day it is bought if possible.

Early spring is the time to get ahead with hot weather clothing. Stores are full of attractive cotton fabrics. Invest in a few dress lengths and make them up in odd moments so you will be prepared when the first warm days arrive.

Liver that has been fried with bacon and a little onion may be scalloped with rice in a baking dish. Salt pork may be used instead of bacon and raw potatoes thinly sliced, instead of rice.

Jam or jelly tarts made of leftover pie dough and left-over preserves, will solve the question what to have for dessert, with very little trouble. Pie trimmings can also be cut into cookie shapes, brushed with egg-yolk, sugar and cinnamon, and used for cookies.

THE PROPER FARM LEASE

The following are important questions concerning any farm lease: (1) Is it in writing? (2) Do you understand it before you sign? (3) Is it in writing so that the meaning will be clear at any time? (4) Is it fair to you—and to the other party? (5) Does it give the tenant a reasonable opportunity to make a living and get ahead? (6) Does it require proper and conservative care of the leased premises? (7) If there are reservations are they in writing? (8) Does the lease state what each party is to do and to contribute? (9) Does it define clearly the rights and privileges of each party? (10) Does it provide for a settlement of differences of opinion? (11) Does it provide for procedure when the tenancy is to be ended? (12) Does it contain the following essentials of a legally complete lease? (a) the date; (b) signatures of both parties; (c) definition

of the term; (d) description of the property; and (e) an agreement as to the amount of rent to be paid; the time when and the place where it is to be paid. A good lease should permit of an affirmative reply to each of these questions.
