PLAYING POLITICS

It was recently brought to light
that County Clerk Crichton was ap-
propriating to his own use money
taken in his office as fees. The
matter was reported to the county
court and Mr. Crichton pleaded
guilty to the indictment. He pro-
fessed ignorance of the law and
agreed to make restitution. When
first questioned regarding the amount
he had collected stated that \$150.00
would cover all. Later, when the
matter had been gone into more
thoroughly the clerk agreed to repay
to the county the sum of \$1,000.
That was agreeable to the court, and
Mr. Crichton will pay, in installments
a balance of \$850.00.

The whole proceeding seems to us
to be a piece of political work. We
have been informed that the taking
of fees by the clerk, who did so with-
out intending to defraud the county,
but who thought those fees were his
due, had been known for some time.
Proper authorities failed to take
action in the matter until Mr. Crich-
ton had filed as a candidate to suc-
ceed himself, thus stamping the mat-
ter as a piece of political trickery.

Whether it will work to the de-
triment of the clerk remains to be
seen, at any rate those who were in
the "know" in the matter are
equally guilty with Mr. Crichton,
for it was their duty to make it
known that he was acting contrary
to law; and to have insisted on a
cessation of such practice and proper
restitution earlier in the game.

The Times is in receipt of a set of
resolutions, unsigned and accom-
panied with an explanation, issued by
the "Oregon Electragists," whatever
or whoever it may be, voicing disap-
proval of the practice of the Oregon
Agricultural college entering the
commercial electrical field.

The resolution contains a "Be It
Known," seven "Whereases" and one
"Be It Resolved," as well as one "Be
It Further Resolved," in telling its
story of the college doing a little
electrical work. Whoever sponsored
the resolution failed to take cogni-
zance of the fact that the college
teaches electrical engineering as well
as the various phases of electri-
cal work—practical as well as theo-
retical, and that the work done along
those lines by students of the course
is part of their education.

Each U. S. battleship is equipped
with appliances for teaching electri-
city to members of the crew. A
competent corps of instructors is
employed, but we fail to hear any
knock against the crew doing wiring
and constructive work aboard those
ships. Why not include the navy
in the resolutions, petition our mem-
bers of congress and senators to use

their influence toward doing away
with all things pertaining to the
electrical trade, and have those mem-
bers legislate to the end that all such
work be delegated to the "Oregon
Electragists?"

When a student so far forgets
himself as to invite his teacher into
the hall to settle a controversy with
fists, then is the time for that stu-
dent to be sat upon and taught his
place. Teachers generally are not
given to making arbitrary rules;
they usually employ the most reason-
able tactics in governing their
school, and those who refuse to abide
whole school is to be subserved.

Discipline is as necessary in the
schools as in the army. Without dis-
cipline riot would run rampant and
the effect of teaching go for naught.
Pupils should not be upheld in an-
tagonizing rules of schools, and the
school boards should see to it that
such rules are lived up to if the fac-
ulty is to have peace and harmony
in the schools.

Political Announcements

The following announcements are
paid by those who sign them.

ANNOUNCEMENT

To The Voters Of Wasco County:
In announcing my candidacy for
the office of County Sheriff, sub-
ject to the Republican primary elec-
tion, I desire to state:

I have resided in The Dalles for
the last twenty years, locating here
in 1908. I served the O. W. R. N.
railroad in different capacities of
trust for many years.

In September, 1921, I opened the
restaurant known as "Mack's Cafe,"
which has become known far and
wide as "a good place to eat."

I advance my solicitation for
your support in the coming primaries,
pledging, that if I am nominated and
elected to the office of Sheriff, that
I will give the people of Wasco coun-
ty, an efficient, courteous, and eco-
nomical administration, and if elect-
ed, will carry out my duties without
fear or favor.

Respectfully submitted for your
consideration,
C. W. McMAHON.

ANNOUNCEMENT

To the Voters of This District:
I am a candidate for the office
of County commissioner from the
Third district of Wasco county, and
ask the confidence of the voters in
such candidacy by soliciting their
votes at the primary election, May
18.

If nominated and elected I promise
to do all in my power to see to it that
the county receives a full dollar's
return for each dollar expended;
that I will not enter into any com-
bination whereby one district will be
deprived of its just share of tax
money, and will work to the best of
my ability to the end that taxes be
reduced as much as possible. I am
unalterably opposed to the practice
of transferring district funds to other
parts, thereby depriving the rightful
sections of their just proportions of
tax money.

**The
POLICY
of
PROGRESS**

**A STATEMENT
by
GENERAL MOTORS**

**It is the policy of Gen-
eral Motors to maintain continuous improvement,
in every one of its car divisions, with no interrup-
tion in production.**

**This means that you enjoy the benefits of
new engineering developments promptly — just as
soon as they have been thoroughly tested on the
1245-acre Proving Ground.**

**It means that you can now order the new
Chevrolet, Pontiac, Oldsmobile, Oakland, Buick,
LaSalle, Cadillac, or GMC Truck, and receive
immediate delivery.**

**Behind this policy of continuous improvement
is an organization so widespread and resourceful
that it can make and sell quality automobiles
more economically than any automobile manu-
facturer in the world.**

**In the north and south it logs and mills its
own lumber. In the east it makes its own ball
bearings and radiators. In the middle west it
produces its own plate glass. Its plants are busy
in 33 important American cities.**

**From almost 5,000 suppliers, its materials are
obtained—steel by the hundreds of thousands of
tons—wire by the tens of thousands of miles—
upholstery by the acre—nuts, bolts and washers
by the millions. Its sales and service take place
through 33,000 dealers. More than 275,000 families
look directly to General Motors for their liveli-
hood—almost a million and a half men, women
and children in every community in the land.**

**Meaning so much to so many, General Motors
has felt a supreme obligation to look ahead.**

**Are there methods by which General Motors
cars can be better built to better serve?**

**Are there new ideas which can increase the
utility and pleasure and safety of motoring?**

**Are there new materials which can add to
owner satisfaction?**

**Such are the questions that all General Motors
engineers have always asked. The answers have
made it possible, year after year, to offer an in-
creasing measure of beauty in design, modern
performance, riding comfort and distinct style.
Thus in every price class, from Cadillac to Chevro-
let, purchasers are constantly benefiting from the
General Motors policy of progress.**

**CLYDE T. BONNEY RESIGNS
FROM TYGH VALLEY SCHOOLS**

Will Continue Until End of Year and
Then Seek Other Location—
Been a Power for Good

Clyde T. Bonney, for the past two
years superintendent of the Tygh
Valley schools, and one of the best
educators in Oregon, has submitted
his resignation to the Tygh school
board and with the end of the school
year will sever all connection with
the faculty of that institution of
learning.

Since M. Bonney has been at the
head of the Tygh schools they have
leaped to the front among the best
schools in the state. He has been a
close student of the characteristics of
each student under his direction and
the result has been that he has be-
come a close personal friend to each
pupil.

In athletics the Tygh school holds
an enviable position, the only weak
place being in basketball. The base-
ball teams have been consistent win-
ners under Mr. Bonney. The drama-
tic end of such activities has been
greatly benefited by his assistance,
while he was the prime mover in
acquiring and building up a first class
gymnasium. Up to the last Satur-
day the sum of \$1,130.67 had already
been taken at the door of the gym-
nasium, almost sufficient to pay for
the building and the fixing of it up
in a habitable manner.

Tygh City Notes

The play, "When a Feller Needs
a Friend," put on at Odd Fellows
hall by the Freshman class of the
Tygh Valley High school last Satur-
day night, was all that had been pro-
phesied for it. Each member of the
cast was letter perfect in his or her
part, while the freedom from all em-
bellishment of stage fright gave con-
fidence both to players and spectators.
A good crowd witnessed the produc-
tion, most of whom remained for the
dance in the gymnasium after the
show.

Foreman Scheer of the mainten-
ance department, has his crews busy
cleaning out ditches, blading roads
and smoothing down rough spots.
Arthur Muller was in Maupin a
short time Tuesday evening, going
there after some printing.

Hillstrom Brothers have a fleet of
trucks hauling gravel from the rock
crusher to a place on White river.
The gravel will be spread on top of
the oil when it is applied to the roads.

Miss Regina Muller is chief chef
at the rock crusher—not feeding that
machine, but the hungry operators
and truck drivers. She is assisted by
Miss Edna Derthick of Maupin.

A cream route will soon be estab-
lished in Tygh Valley. A representa-
tive of an outside creamery was thru
here last week soliciting patrons of
the route and we understand has se-
cured sufficient signers to make a
route a sure thing.

M. B. Webb has been under the
weather for several weeks, suffering
with an attack of rheumatism.
