

Protect Your Investment in Your Model T Ford

THE Ford Motor Company is making a new car, but it is still proud of the Model T. It wants every owner of one of these cars to run it as long as possible at a minimum of expense.

Because of this policy and because of the investment that millions of motorists have in Model T cars, the Ford Motor Company will continue to make parts 'until, as Henry Ford himself says, "the last Model T is off the road."

More than eight million Model T Fords are still in active service, and many of them can be driven for two, three and five years and even longer.

So that you may get the greatest use over the longest period of time at the lowest cost, we suggest that you take your Model T Ford to the nearest Ford dealer and have him give you an estimate on the cost of any replacement parts that may be necessary.

You will find this the economical thing to do because a small expenditure may enable you to maintain or increase the value of the car and give you thousands of miles of additional service.

No matter where you live you can get these Ford parts at the same low prices as formerly and know they are made in the same way and of the same materials as those from which your car was originally assembled.

Labor cost is reasonable and a standard rate is charged for each operation so that you may know in advance exactly how much the complete job will cost.

"INSIDE" INFORMATION

Can only fruit, and potatoes by the water-bath method; use the pressure canner for the non-acid vegetables, for meats, fish, chicken, or mixtures of these foods.

To keep the under-rust of your rhubarb pie from becoming soggy, pre-bake it until it is delicately colored, but not brown, before you put in the filling. If you have a glass or earthenware pie plate, you can send the pie in it to the table.

When fitting a garment, try the seams in different positions, especially those of the shoulder. Study the figure to find the position which will emphasize the best features and conceal those which are not so good. It is better to put the attention on the figure, rather than on keeping the lines of the pattern.

Spring onions can be served on toast in the same manner as asparagus. Allow six or seven finger-sized onions for each person. Trim off the green tops, and cook the onions in lightly salted boiling water until tender, in an uncovered vessel. They should be cooked tender in about 20 minutes. Drain, and season with melted butter, salt and pepper. Have the toast ready and serve at once.

In order to make the first strawberries go a long way, cream together a third of a cup of butter, three-fourths of a cup of powdered sugar, and one-eighth teaspoon of salt. When thoroughly mixed, add the stiffly beaten white of an egg and one cup of fresh crushed strawberries. The acidity of the berries causes the sauce to separate somewhat, but this can be overcome by warming it slightly over hot water and stirring until smooth. Serve at once on cup cakes or cottage pudding, or chill to make thicker.
