

Before you select your next car see what General Motors offers

GENERAL MOTORS was organized on the principle that a group of strong companies, working together as a family, could serve the public better than they could separately.

The public has approved this principle. In 1924 one out of every six cars chosen by the public was a General Motors car. In 1925 the proportion was one in five. In 1926 it was one in four.

And last year it was one in three.

The improvement in General Motors products is continuous. Great Research Laboratories are constantly seeking new paths for betterment. A 1245-acre Proving Ground tests all that science has discovered and proves each new design before it is offered to you. Each year there has been a steady advance in the quality, performance and beauty of General Motors cars, with no increase in price.
