

"...but what will it cost me to buy that car on time?"

WHEN you buy a car for cash, you pay the factory price plus freight, war tax and delivery charges. When you buy on time, you pay an additional charge which includes fire and theft insurance. This additional amount is known as a "finance charge."

The finance charges on General Motors cars are low because the General Motors Acceptance Corporation was organized to assure sound credit practice and low rates to those of its customers who prefer to purchase on time. The Acceptance Corporation operates the GMAC Plan of payment. The Plan is simple, fair and economical. Its large volume of business reduces costs. It is conducted to give you satisfaction and to keep your goodwill.

When you buy a General Motors car on the GMAC Plan, you pay the cash delivered price—plus only the low GMAC financing charge—nothing more!

The Plan is available only through General Motors dealers. Another reason for buying your next car—whether new or used—from a General Motors dealer.

Buy your next car on the GMAC Plan

The General Motors cars are Chevrolet, Pontiac, Oldsmobile, Oakland, Buick, LaSalle and Cadillac. Together they make up a line of 86 models, ranging in price-at-the-factory from \$495 to \$5500. They are the quality cars of the various car price classes.

Whatever make and model you choose—whether it be of the highest price, or the lowest—you will get a beautiful body (the closed bodies are by Fisher), 4-wheel brakes, a powerful engine, and a quality of design, materials and performance that only General Motors, by reason of its resources and its policy of continuous improvement, is in a position to give.

And the final touch in your satisfaction will come when you buy it on the GMAC Plan. The transaction will be in your interest. The rates will be low. And the dealer will not lose interest in you after the down payment is made.

CLIP THE COUPON

Use the coupon below to send for full information about the General Motors product or products in which you are interested, together with a booklet describing the GMAC Plan of purchase. It applies also for the purchase of Frigidaire Automatic Refrigerators and Delco-Light equipment.

The Maupin Times

C. W. Semmes, Editor
C. W. Semmes and E. R. Semmes
Publishers

Published every Thursday at
Maupin, Oregon

Subscription: One year, \$1.50; six months, \$1.00; three months, 50c.

Entered as second class mail matter September 8, 1914, at the post-office at Maupin, Oregon, under the Act of March 3, 1879.

Lewis S. Wyatt has succeeded to the publication of the Dufur Dispatch, having purchased the paper from Messrs. Evan and Bliem, who have conducted it for the past three years. Mr. Wyatt was for the past four years, foreman in the office of The Dalles Optimist, and a young man of newspaper capabilities. That he will make a success of his new venture goes without saying, as he has a likeable personality and knows just what is news and how to make it readable. Evans and Bliem have given Dufur an exceptionally good newspaper during their tenure of ownership, and while The Times regrets they have left the field, still it extends the hand of fellowship to Mr. Wyatt and wishes him all the success possible with the Dispatch.

When Hedin's name is mentioned as a potential candidate to fill Senator Butler's shoes, that name should carry weight with residents of Southern Wasco county. His ability is unquestioned while his knowledge of the needs of this section is as great, if not greater, than that of any other man hereabouts.

Doctor Fred Pegeler, formerly practicing optometry at The Dalles, has entered a flying school as student. We always knew that Fred was a high flyer but never expected him to elevate himself via airplane.

Dying has been made cheaper in Toledo, Ohio. Grave diggers' wages have been cut from 70 cents to 50 cents an hour.

"INSIDE" INFORMATION

Rub leather furniture upholstery occasionally with a very little castor oil, applied on a soft cheesecloth. Rub the oil well into the leather, to preserve and soften it.

Poke shoots are delicious when carefully cooked. To lessen the slight astringency of flavor, discard the first water, after cooking five minutes, and continue cooking in fresh boiling water. Serve like asparagus, with butter and seasoning of salt and pepper.

Cook asparagus the shortest possible time. If it is very young and tender, 10 minutes may be long enough. More mature stalks may take up to 25 minutes. Trim the ends of the stalks before cooking, and take off any large scales which may conceal grit, but do not scrape. Wash carefully. Have the water boiling and lightly salted. Asparagus may be cooked whole or cut up in inch lengths.

Cherries are ripe. Can a few, make some into pie, and serve various desserts, such as rice with sugared cherries, steamed pudding with cherries, through it and cherry sauce, bread pudding with cherry hard sauce, cherry genatin or plain blanc mange with a liquid cherry sauce poured over it, cherry roly-poly, cherry snow, made of egg whites and stewed cherries. Sweet cherries, pitted and stuffed with cream cheese are excellent in any fruit salad. And don't forget to make some cherry preserves and pickled cherries for lunch and suppers.

PAGE, LINE AND PARAGRAPH

A Once-A-Week Service to Weeklies
And Semi-Weeklies

Too often the mistake is made of building a small poultry house with a low roof, involving drudgery in the care of the chickens. Labor is an important factor in the management of poultry and the arrangement of the house for convenience adds to the chances of success. A house should be built so that the attendant can stand up and do the work comfortably, and if from 3 to 5 square feet of floor space per fowl is allowed, this will be enough cubic air space for the flock.

The ideal time to immunize hogs for hog cholera in the spring is within a month after the last farrowing date, as it is preferable to immunize non-pregnant rather than pregnant sows. All breeding animals, suckling and feeder pigs, should be treated. If the breeding herd is already immune, the pigs will be born with a high degree of immunity, but this gradually disappears and it is doubtful if a safe immunity exists after

the time of weaning. During the suckling period pigs can be conveniently and economically treated for immunity that will last.

Extra ventilation for the poultry house in hot weather, particularly in the southern part of the county, is very desirable. This may be secured by having an adjustable ventilator in the rear of the house. An opening of this kind is best made the entire length of the house below the eaves. If a large part of the front of the poultry house is made of glass as is usually the case of the north the house will be too warm in hot weather unless a curtain of unbleached muslin, light-weight, duck or burlap is put over the front. The cloth should be thin enough to allow a slow circulation of air without a draft.

THE CHILDS DIET

"A day's diet for a child from two to six years" is the title of a new brief bulletin just published by the extension service for free distribution. Twelve points to remember in the child feeding are listed, some of them follow:

Give food only at three regular mealtimes. If a mid-morning or afternoon lunch is given it is best to be light and given at a regular hour.

The day's food is nearly equally divided into three meals, dinner being heaviest and supper lightest.

Children should not "make a meal" from one food, such as potatoes, alone.

Insist that the well child finish everything to which he is helped. Serve small amounts.

Reduce amount of food when the child is not well.

This is the period when important food habits are being formed. Help your child to eat regularly, to eat slowly, to chew thoroughly.

Serve foods as attractively as possible and teach your child to eat all foods suitable for young growing children.

The following cooked foods are suitable for children from two to six years: asparagus, beet greens, beets, celery, carrots, chard, onions, pinach, squash, string beans, and tomato. Uncooked vegetables except chopped lettuce should not be given but cooked vegetables should be given every day.

Cooked fruit, custard, junket, well-cooked rice, or other simple cereal puddings are the best desserts. Plain cookie, or stale sponge cake may be given. Candy or sweets, if given, should come at the end of a meal, never between meals.

Children should have some hard food each day, such as bread crusts for the proper development of the jaws and teeth.

CLASSIFIED LOCALS
