

YOUNG BEEF!

Meat is a strength builder, and to get the full strength from that article of food only the best should be cooked. In the harvest fields a great deal of strength is required, therefore we are prepared to conserve and stimulate such workers with young grass-fed beef. None other dispensed at our shop. Come in and see it.

There's Only One Way to Get Those Big Yields

—That's to Plant Perfect Seed

If you plant weed seeds, if you plant shriveled, cracked grains, if you plant smut—how can you expect to raise money-making crops? Plant only the best of your seed if you want to make big profits.

The New Improved Calkins Combination Grader and Treater

gives you only the large plump kernels to plant. Gives you seed that is cleaned. Seed that is graded. Seed that is thoroughly treated with copper carbonate. All in ONE operation.

This year's machine is improved mechanically in a great many ways. Though the method of operation remains the same, every function has been perfected.
