LAST REGISTRATION DAY IS DRAWING VERY NEAR

Books Close October Sixth—Cannot Swear Vote In So Got Busy

The registration books close October 6th, and after that time all who have failed to have their names scribbled thereon will be barred from casting their vote at the coming election. This is a new law and applies to the whole of Oregon.

Every resident should make it a point to see that their names are on the books. It is a duty that should not be neglected, and when registered if possible to go to the polls on election day and cast their vote. It makes no difference what your party affiliations are, your duty to the country and to yourself is that you register and vote.

There are momentous questions before the voters this year and those questions are to be settled at the polls. Your votes are the arbiter of those questions, and if you do not exercise your franchise and vote on them you will have no kick coming if matters are not settled according to your lights. Whether you are democrat, republican, socialist, prohibitionist, or free silver, go to the polls and cast your vote, and you will then have performed a duty devolving upon all American citizens. Remember, the books close October 6th and that after that, if you have not registered, you will be debarred from casting your vote at the coming election. Registration books are open at the R. E. Wilson store.

Hal Hoss Appointed to Position Vacated By Sam Kozar

On Monday Sam Kozar submitted his resignation as secretary of state for Oregon to Governor Patterson, who immediately appointed Hal Hoss to the position, and then completed his appointments by giving Kozar a position on the state budget committee. Hoss is the nominee on the republican ticket for the position to which he has been appointed, and his chances for election at the coming voting time are bright.

BARKHAM WINS IN LAW SUIT

Jury Decides He is Entitled to Amount of Note

In the case of A. J. Barkham vs. Mrs. Myrtle Seethoff, in which the Maupin man sued to recover the sum of \$416.50 claimed to be due on a certain note given him to secure payment for his interest in the Central Oregon Milling company's business and of wages due, was tried in circuit court on Monday, the jury deciding the plaintiff was entitled to the full amount sued for. The main question in the controversy was the actual delivery of the note, which had been signed by both Seethoff and his wife. The jury evidently believed the note had been delivered to Barkham, therefore rendered a verdict in his favor.

New Grand Jury Makes First Report

Recommends Making Full Basement at County Farm Building—To Convene Next February

TO THE HONORABLE F. W. WILSON, Circuit Judge.

We the Grand Jury drawn at the September, 1928, term of court, respectfully report that we have looked over the County Farm and considered some proposed improvements in the main building. We may later on have some more specific recommendations to make, but for the present the only recommendation we make to the County Court is that the remaining half of the basement under the main building be excavated and concreted to the end that the dining room and kitchen may be moved downstairs and more room be made available upstairs.

We understand that we will again be convened in February of next year and we will then go into matters concerning county property and county management.

We invite the citizens of the county to call to our attention, when we are again in session as a Grand Jury, or to us individually before that time any infractions of the laws of that land. Also we invite the citizens of the county to discuss with us, either individually or as a Grand Jury, any constructive ideas relative to county affairs generally.

Respectfully submitted,

Censed Hauling Sand—

A clause in their contract for hauling sand and delivering it at the site of the new bridge is to the effect that the contractors agree to keep the road leading to the site in a passable shape. Davidson & Mayhew found the road too rocky for easy negotiation, consequently laid off hauling until the road was put in a passable condition. Their action took place on Tuesday afternoon.

Enormous Canadian Grain Crop Reported

Canadian Pacific Railway Industrial Department Submits Figures on Season's Crops

In a pamphlet sent to this office by the industrial department of the Canadian Pacific railway are statistics refuting the broadcast statement that crops in that province had been a partial failure this season. The pamphlet says, in speaking of the Lethbridge country, that one of the heaviest crops ever taken from the Lethbridge railway division was that of the season just closed, according to final figures of the Canadian Pacific. Despite the unfavorable harvesting weather last season the spring of this season saw record will amount to 40,000,000 bushels of grain went to terminal elevators from the Lethbridge railway division alone, this large increase of 17,286,000 bushels over the previous year being made up as follows: Wheat 40,353,000 bushels, and oats 2,775,000 bushels, increase of 15,019,000 bushels and 2,267,000 bushels, respectively.

It is estimated that the crop yield for the southern portion of Alberta will amount to 40,000,000 bushels. It has been estimated that the total yield for Alberta will be in the neighborhood of 200,000,000 bushels, but some officials say that 180,000,000 bushels will be the extent of the yield.

MAUPIN HUNTERS GET DEER

Roy bagged three fine deer while Bob Wilson, "Shorty" Miller, George Morris and Bates Shattuck brought in six denizens of the forest. Some of the unlucky ones plan another trip to the hills, not being satisfied with their success on the former hunt.

MAUPIN'S H. S. COST IS THIRD LOWEST IN COUNTY

Costs But 86 Cents Per Day for Each Pupil Attending—The Dalles Pays 68 Cents

County Superintendent Gronewald has sent us a statement embodying the per day pupils cost of Wasco county High schools as based on reports from the clerks of the respective districts. It shows that Maupin is third lowest per pupil in the county, with Shaniko the highest and Wapinitia following. The various schools making report follows:

Antelope	\$1.24
Shaniko	\$2.68
Maupin	86c
Wapinitia	\$1.27
Tygh Valley	80c
Dufur	97c
The Dalles	68c

The above figures include all the current expenses of the school for one year, including an item of 6 per cent interest on a fair valuation of buildings and equipment. It is evident from the figures submitted that the larger the school the less cost per pupil to the district. In many counties of the state the small High schools in close proximity connected by surfaced roads are pooling their efforts and taxes in the form of Union High school districts and are thus able to offer their own books and girls of High school age the best advantages obtainable at a less cost.

No Ranger Tests This Fall—

"No examination for forest rangers this fall" is the announcement of the district forester's office Portland. The reason given by the forest service for not holding a civil service test for forest rangers is the fact that there are still 53 names on the ranger eligible list for the states of Oregon and Washington from the October, 1927, examination. The ranger examinations will, however, be held in the eastern and some of the western states, but not in Oregon or Washington, the district forester states.
