**A Contrast in Principles  
and Parties**

**Republican**

For the protection of labor, industry, agriculture and citizenship the Republican party started the protective tariff. The Paine-Aldrich bill which was wiped out by democratic leadership in 1913 and the Fordney-McCumber bill which went into effect in 1922, closed America's doors to the free entry of European manufactured goods, produced by cheap labor, and the livestock and agricultural products of South America, New Zealand and Australia. Under these a duty of 42 cents a bushel was placed on wheat; 15 cents a bushel on corn; 1 1/2 to 2 cents a pound on cattle; 50 cents per hundred pounds on potatoes; \$2 a head on sheep and 31 cents per pound on scoured wool.

**Democratic**

The Democratic party has always opposed to high protective tariff. It stands for "tariff for revenue only" or a "competitive tariff." When the Underwood law went into effect there followed in its wake a near panic that was only averted by the World War in Europe. Wheat, corn, cattle sheep, wool, potatoes and other products were placed on the free list. The farmer suffered from foreign competition, and scores of factories closed down and brought on unemployment and bread lines. Revenue for government expense became so low that the Stamp Act of October 22, 1914, went into effect and a tax was required on all notes deeds and mortgages and perfumes and other sundries.

The tariff is the safe-guard of American industry, agriculture and commerce. If changes are to be made in existing tariff laws, they can best be entrusted to friends in the tariff party—the Republican party. Protection against foreign competition means prosperity. If you would have a continuation of prosperity—
